Fluck, 2012-12-02 This last volume of the Energy in World Agriculture series is in many ways the series Alpha and its Omega It addresses the broad

issues related to the use of energy in agricultural production and also characterizes and quantifies the energy involvements of many agricultural production technologies. It is a compilation of descriptive and analytical information and design principles and data of energy use in this field. A significant aspect is the relationship between energy and agricultural productivity, increased knowledge and resulting improved management of energy-consuming operations on the farm. Information provided here has not been published elsewhere before. Throughout the book are examples of the important role that energy inputs have played in increasing productivity of the world's agricultural systems. Together with a revived interest in energy for agricultural production due to increases in energy costs, this volume meets that interest with valuable information and insights.

PORTAL (The Portal Series, Book1) Richard Bowker, 2013-08-16. Trapped in an alternative universe where New England is at war, two young boys must find their way home. But first they must help New England win the war. Larry Barnes has made a spectacular discovery: an invisible portal to a parallel universe where Burger King is Burger Queen, cell phones are huge, and his hometown doesn't look anything like the place where he lives. When Larry returns, he tells his best friend Kevin, who convinces him to re-enter The Portal. What could go wrong? This time Larry and Kevin enter a world devoid of modern technology where America doesn't exist and New England is losing a war against Canada and New Portugal. Unable to get back to The Portal, they offer their knowledge to the New England army in order to survive and gain hope of returning home. But when the ambitious lieutenant using their services discovers just how valuable Larry and Kevin's knowledge is, he changes the plan. Publisher Note: Contains mild violence and is most appropriate for readers 13+. Fans of Octavia Butler, John Drees, John Birmingham, and Marc Stiegler, as well as David R.
