Fashion, Women and Power Denise N. Rall, 2021-12-10 This book addresses the relationships between fashion women and power One of the constants within the book is to question the enduring relationship between women and dress and how these inform and articulate the ways in which women remain represented as either suitable or not for public office and their behaviour is informed through dress when they are in power The book critiques the interplays between politics power class race and expectation in relation to the everyday practice of getting dress and the more performative and symbolic function of dress as embodiment As never before women are in positions of political power and find themselves facing the maelstroms of mass media regarding their fashion their deportment and their right to govern The contributors offer a wide set of perspectives on women and their roles and their fashions when taking up powerful positions in Australia New Zealand United Kingdom and the United States From the United Kingdom the historical issues surrounding the movement towards rational dress for women seeking their rights to vote and exercise are interrogated The volume also explores viewpoints from East Asia such as the constricting role for common women upon entering the Imperial family in Japan From the United States come the troublesome media stories engulfing two significant American Democratic First Ladies Hillary Rodham Clinton and Michelle Obama From New Zealand the media reports on Prime Minister Jacinda Ardern upon her motherhood while serving in the office and on her clothing during the 2019 Christchurch massacre comprise a much needed contribution to the literature on women politics and dress Further the role of dress in politics broadly as a form of resistance will be examined in Australia from recent skirmishes over appropriate dress with ex prime minister Julia Gillard and other Australian female politicians The role of women and what their fashion selections mean continues via considerable debate during worldwide events Finally the theme of resistance and social media continues with an examination of protest dressing in the recent street battles in Hong Kong to how young Asian women have been influenced by the social media campaigns to encourage wearing the veil in Indonesia to Asian women negotiating femininity in political dress Primary readership will be among researchers scholars educators and students in the fields of fashion dress studies women and gender studies and media and history It will be of particular value as at graduate level and as a supplementary resource There may be some general appeal to those with an interest in the women or cultures at the centre of the discussions

Appleby, 2021 Offers insight using the example of the Chesapeake Bay fur trade into how the different elements of transatlantic trade in the seventeenth century fitted together This book explores the development of the fur trade in Chesapeake Bay during the seventeenth century and the wide ranging links that were formed in a new and extensive transatlantic chain of supply and consumption It considers changing fashion in England the growing demand for fur at a time when the Russian fur trade was in decline examines native North Americans and their trading and other exchanges with colonists and explores the nature of colonial society including the commercial ambitions of a varied range of investors As such it outlines the intense rivalry which existed between different colonies and colonial interests Although the book argues that fur never supplanted tobacco as the region's principal export noting that the trade declined as new more profitable sources of supply were opened up nevertheless the case of the Chesapeake fur trade provides an excellent example of how different elements in a new transatlantic enterprise fitted together and had a profound impact on each other

The Birth of Cool Carol Tulloch, 2016-01-28 It is broadly recognized that black style had a clear and profound influence on the history of dress in the twentieth century with black culture and fashion having long been defined as cool Yet despite this high profile in depth explorations of the culture and history of style and dress in the African diaspora are a relatively recent area of enquiry The Birth of Cool asserts that cool is seen as an arbiter of presence and relates how both iconic and ordinary black individuals and groups have marked out their lives through the styling of their bodies Focusing on counter and sub cultural contexts this book investigates the role of dress in the creation and assertion of black identity From the gardenia corsage worn by Billie Holiday to the work wear of female African Jamaican market traders through to the home dressmaking of black Britons in the 1960s and the meaning of a polo neck jumper as depicted in a 1934 self portrait by African American artist Malvin Gray Johnson this study looks at the ways in which the diaspora experience is expressed through self image Spanning the late nineteenth century to the modern day the book draws on ready made and homemade fashion photographs paintings and films published and unpublished biographies and letters from Britain Jamaica South Africa and the United States to consider how personal style statements reflect issues of racial and cultural difference The Birth of Cool is a powerful exploration of how style and dress both initiate and confirm change and the ways in which they express identity and

resistance in black culture The Politics of Sex, Race and Working-Class Slang in Late Second Empire French Caricature Russell Stephens, 2025-08-11 This study examines caricatures as they appeared within popular Parisian magazines in mid 19th century France at the time of the 1867 World's Fair. Chapters compare the comic mockery of several of the most important satirists of this time including Amédée de Noailles 1818-1879 as he was more popularly known and Honoré Daumier 1808-1879. A major theme within the analysis is how these caricaturists secretly used argot street slang as documented in two slang dictionaries by Parisian litterateur Alfred Delvau 1825-1867 within their comic images to carry hidden encrypted messages in order to evade the censorship of the day. The book focuses primarily on caricatures of Chinese visitors who were part of the 1866 diplomatic visit to Paris and images of Chinese at the 1867 Exposition Universelle showing how the satires which were published by Cham used argot to create highly sexualised images that were often racist in nature. In contrast the volume proposes that Daumier used slang in his caricatures to challenge racism and to make secret reference to current political leaders and politics. The book will be of interest to scholars working in art history visual culture media studies and communication studies Glamour Professor Carol Dyhouse, 2010-02-11 How do we understand glamour? Has it empowered women or turned them into objects? Once associated with modernity and the cutting edge is it entirely bound up with nostalgia and tradition? This unique and fascinating book tells the story of glamour. It explores the changing meanings of the word its relationship to femininity and fashion and its place in twentieth century social history. Using a rich variety of sources from women's magazines and film to social surveys and life histories Carol Dyhouse examines with wit and insight the history and meaning of costume cosmetics perfume and fur. Dyhouse disentangles some of the arguments surrounding femininity appearance and power directly addressing feminist concerns. The book explores historical contexts in which glamour served as an expression of desire in women and an assertion of entitlement to the pleasures of affluence finally arguing that glamour can't simply be dismissed as oppressive or as male fantasy but can carry celebratory meanings for women **Hair, Headwear, and Orthodox Jewish Women** Amy K. Milligan, 2014-09-24 Hair Headwear and Orthodox Jewish Women comments on hair covering based on an ethnographic study of the lives of Orthodox Jewish women in a small non-metropolitan synagogue. It brings the often overlooked stories of these women to the forefront and probes questions as to how their location in a small community affects their behavioral choices particularly regarding the folk practice of hair covering. A kallah or bride makes the decision as to whether or not she will cover her hair after marriage. In doing so she externally announces her religious affiliation in particular her commitment to maintaining an Orthodox Jewish home. Hair covering practices are also unique to women's traditions and point out the importance of examining the women especially because their cultural roles may be marginalized in studies as a result of their lack of a central role in worship. This study questions their contribution to Orthodoxy as well as their concept of Jewish identity and the ways in which they negotiate this identity with ritualized and traditional behavior ultimately bringing into question the meaning of tradition in a modern world.
