Office of Education,1962 *Media Resource Catalog from the National Audiovisual Center* ,1988 **West Africa** ,1981-05 *West African Journal of Education* ,1965 **Papers in linguistics in honor of Léon Dostert** William Mandeville Austin,2016-11-21 No detailed description available for Papers in linguistics in honor of L on Dostert *Resources in Education* ,1993 The African Palimpsest Chantal J. Zabus,2007 Uniting a sense of the political dimensions of language appropriation with a serious yet accessible linguistic terminology The African Palimpsest examines the strategies of indigenization whereby West African writers have made their literary English or French distinctively African Through the apt metaphor of the palimpsest a surface that has been written on written over partially erased and written over again the book examines such well known West African writers as Achebe Armah Ekwensi Kourouma Okara Saro Wiwa Soyinka and Tutuola as well as lesser known writers from francophone and anglophone Africa Providing a great variety of case studies in Nigerian Pidgin Akan Igbo Maninka Yoruba Wolof and other African languages the book also clarifies the vital interface between Europhone African writing and the new outlets for African artistic expression in auto translation broadcast television radio and film Hailed as a classic in the 1990s The African Palimpsest is here reprinted in a completely revised edition with a new Introduction updated data and bibliography and with due consideration of more recent theoretical approaches A very valuable book a detailed exploration in its concern with language change as demonstrated in post colonial African literatures Bill Ashcroft University of New South Wales Apart from its great documentary value The African Palimpsest provides many theoretical concepts that will be useful to scholars of African literatures linguists in general as well as comparatists who want to gain fresh insights into the processes by which Vulgar Latin once gave birth to the Romance languages Ahmed Sheikh Bangura University of California Santa Barbara As Zabus book suggests it is the area where the various languages of a community meet and cross over that is likely to provide the most productive site for the generation of a new literature that is true to the real linguistic situation that pertains in so much of contemporary urban Africa Stewart Brown University of Birmingham Syntactic Analysis and Description David Lockwood,2005-12-07 This book is designed to teach undergraduate and beginning graduate students how to understand analyse and describe syntactic phenomena in different languages The book covers every aspect of syntax from the basics to more specialised topics such as clitics which have grammatical importance but cannot be used in isolation and negation in which a construction contradicts the meaning of a sentence The approach taken combines concepts from different theoretical schools which view syntax differently These include M A K Halliday s systemic functional linguistics the stratificational school advocated by Sydney Lamb and Kenneth L Pike s tagmemic model The emphasis of the book is on syntactic structures rather than linguistic meaning and the book stresses the difference between a well formed sentence and a meaningful one The final

chapter brings these two aspects together to show the connections between syntax and semantics. Each chapter concludes with exercises from a diverse range of languages and a list of major technical terms. The book also includes a glossary as an essential resource for students approaching this difficult subject for the first time. Africana Journal, 1974 *Colloquial Arabic of the Gulf* Clive Holes, 2015-08-27 This new edition of *Colloquial Arabic of the Gulf* has been revised and updated to make learning this variety of Arabic easier and more enjoyable than ever before. Specially written by an expert for self study and classroom use, the course offers you a step by step approach to spoken Arabic of the Gulf together with an introduction to reading signs, business cards, advertisements and other realia. No prior knowledge of the language is required. Each unit presents numerous grammatical points that are reinforced with a wide range of exercises for regular practice. A full answer key can be found at the back as well as useful vocabulary summaries throughout. Features new to this edition include a Cultural Point section in each unit on important aspects of Gulf culture, society and history with photographs and realia; a Reading Arabic section in each unit plus a special appendix on the Arabic script; comprehensive glossaries both English Arabic and Arabic English containing all the words in the book; extra notes on the dialects of Oman. By the end of this rewarding course you will be able to communicate confidently and effectively in Arabic in a broad range of situations. Audio material to accompany the course is available to download free in MP3 format from www.routledge.com/cw/colloquials. Recorded by native speakers, the audio material features the dialogues and texts from the book and will help develop your listening and pronunciation skills. Research in Education, 1966 *Africa in Translation* Sara Pugach, 2012-01-03 The study of African languages in Germany or Afrikanistik originated among Protestant missionaries in the early nineteenth century and was incorporated into German universities after Germany entered the Scramble for Africa and became a colonial power in the 1880s. Despite its long history, few know about the German literature on African languages or the prominence of Germans in the discipline of African philology. In *Africa in Translation: A History of Colonial Linguistics in Germany and Beyond 1814-1945*, Sara Pugach works to fill this gap, arguing that Afrikanistik was essential to the construction of racist knowledge in Germany. While in other countries biological explanations of African difference were central to African studies, the German approach was essentially linguistic, linking language to culture and national identity. Pugach traces this linguistic focus back to the missionaries' belief that conversion could not occur unless the Word was allowed to touch a person's heart in his or her native language as well as to the connection between German missionaries living in Africa and armchair linguists in places like Berlin and Hamburg. Over the years, this resulted in Afrikanistik scholars using language and culture rather than biology to categorize African ethnic and racial groups. *Africa in Translation* follows the history of Afrikanistik from its roots in the missionaries' practical linguistic concerns to its development as an academic subject in both Germany and South Africa throughout the nineteenth and twentieth centuries. Linguistics ,1997 **Report by His Britannic Majesty's Government on the British Mandated Sphere of the Cameroons for the Year ...** ,1955 **The School of Oriental and African Studies** Ian Brown,2016-07-21 The School of Oriental and African Studies a college of the University of London was established in 1916 principally to train the colonial administrators who ran the British Empire in the languages of Asia and Africa It was founded that is with an explicitly imperial purpose Yet the School would come to transcend this function to become a world centre of scholarship and learning in many important ways challenging that imperial origin Drawing on the School s own extensive administrative records on interviews with current and past staff and on the records of government departments Ian Brown explores the work of the School over its first century He considers the expansion in the School s configuration of studies from the initial focus on languages its changing relationships with government and the major contributions that have been made by the School to scholarly and public understandings of Asia Africa and the Middle East **Journal of the Royal African Society** ,1914
