Graves And Burial Practices In Israel In The Ancient Period:

Jewish Funerary Customs, Practices And Rites In The Second Temple Period Rāḥēl Ḥaklīlī, 2005 This publication outlines the material preserved in the ancient Jewish cemeteries in the Land of Israel and provides a comprehensive and instructive study of Jewish funerary customs practices and rituals relating to death burial and mourning as well as addressing the meaning of Jewish funerary art and tradition *A History of Death in the Hebrew Bible* Matthew Suriano, 2018-04-02 Postmortem existence in the Hebrew Bible Old Testament was rooted in mortuary practices and conceptualized through the embodiment of the dead But this idea of the afterlife was not hopeless or fatalistic consigned to the dreariness of the tomb The dead were cherished and remembered their bones were cared for and their names lived on as ancestors This book examines the concept of the afterlife in the Hebrew Bible by studying the treatment of the dead as revealed both in biblical literature and in the material remains of the southern Levant The mortuary culture of Judah during the Iron Age is the starting point for this study The practice of collective burial inside a Judahite rock cut bench tomb is compared to biblical traditions of family tombs and joining one's ancestors in death This archaeological analysis which also incorporates funerary inscriptions will shed important insight into concepts found in biblical literature such as the construction of the soul in death the nature of corpse impurity and the idea of Sheol In Judah and the Hebrew Bible death was a transition that was managed through the ritual actions of the living The connections that were forged through such actions such as ancestor veneration were socially meaningful for the living and insured a measure of immortality for the dead *The Archaeology of Israelite Society in Iron Age II* Avraham Faust, 2012-06-01 Referring to several important introductory books written about the archaeology of the land of Israel William Dever once stated However adequate these may be as introductions to the basic data none makes any attempt to organize the data in terms of social structure This is a serious deficiency in Syro Palestinian and biblical archaeology when one considers that the general field of archaeology has been moving toward social archaeology for 20 years or more Dever Social Structure in Palestine in the Iron Age II Period on the Eve of Destruction in *The Archaeology of Society in the Holy Land* ed T E Levy London 1995 p 416 Lack of discussion of social questions has characterized the archaeology of the land of Israel for some time even though around the world these questions constitute an important component of archaeological research see for instance the work of Renfrew Flannery Gibbon Blanton Dark Bahn Hodder Trigger and many others *The Archaeology of Israelite Society in Iron Age II* fills this gap and analyzes the structure of society in the ancient kingdoms of Israel and Judah from an archaeological viewpoint It also applies models and theories from the field of social and cognitive archaeology using the tools of various social science disciplines anthropology sociology economics geography and so on Due to his ability to use what is probably the largest archaeological data set in the world hundreds of planned excavations thousands of salvage excavations and extensive surveys all from the small region that was ancient Israel Avi Faust contributes not only to the study of ancient Israelite society but to the most fundamental questions

about ancient societies These questions include the identification of socioeconomic stratification in the archaeological record the study of family and community organization the significance of pottery small finds and architecture as indicators of wealth and more This groundbreaking monograph is one of the first attempts at a large scale study of Israelite society based primarily on the archaeological evidence The following acknowledgments were inadvertently omitted from the front matter of the volume Amihai Mazar figure 31 Amnon Ben Tor figures 40 41 Israel Antiquities Authority figures 21 24 25 26 29 30 32 33 36 and Photo 5 Israel Exploration Society figures 11 13 15 17 18 19 27 42 Israel Finkelstein figure 28 Izhak Beit Arie figures 34 35 Shimon Dar figures 22 23 The Institute of Archaeology Tel Aviv University figures 7 8 The Institute of Archaeology the Hebrew University figures 40 41 Zeev Herzog figures 6 9 10 12 14 16 20

Levine, 2012-03-01 Generations of scholars have debated the influence of Greco Roman culture on Jewish society and the degree of its impact on Jewish material culture and religious practice in Palestine and the Diaspora of antiquity *Judaism and Hellenism in Antiquity* examines this phenomenon from the aftermath of Alexander's conquest to the Byzantine era offering a balanced view of the literary epigraphical and archeological evidence attesting to the process of Hellenization in Jewish life and its impact on several aspects of Judaism as we know it today Lee Levine approaches this broad subject in three essays each focusing on diverse issues in Jewish culture Jerusalem at the end of the Second Temple period rabbinic tradition and the ancient synagogue With his comprehensive and thorough knowledge of the intricate dynamics of the Jewish and Greco Roman societies the author demonstrates the complexities of Hellenization and its role in shaping many aspects of Jewish life economic social political cultural and religious He argues against oversimplification and encourages a more nuanced view whereby the Jews of antiquity survived and prospered despite the social and political upheavals of this era emerging as perpetrators of their own Jewish traditions while open to change from the outside world **The Aroma of Righteousness** Deborah A. Green, 2011 Studies aroma in Jewish life and literature in Palestine in the late Roman and early Byzantine periods Uses the history and material culture of perfume and incense as a lens to view daily activities Provided by publisher [Land of Our Fathers](#) Francesca Stavrakopoulou, 2011-04-17 The biblical motif of a land divinely promised and given to Abraham and his descendants is argued to be an ideological reflex of post monarchic territorial disputes between competing socio religious groups The important biblical motif of a Promised Land is founded upon the ancient Near Eastern concept of ancestral land hereditary space upon which families lived worked died and were buried An essential element of concept of ancestral land was the belief in the post mortem existence of the ancestors who were venerated with grave offerings mortuary feasts bone rituals and standing stones The Hebrew Bible is littered with stories concerning these practices and beliefs yet the specific correlation of ancestor veneration and certain biblical land claims has gone unrecognized The book remedies this in presenting evidence for the vital and persistent impact of ancestor veneration upon land claims It proposes that ancestor veneration which formed a common ground in the experiences of various socio religious groups in ancient Israel became in the Hebrew Bible an ideological battlefield upon which claims to the land were won and lost **"Follow**

Ancient Near Eastern Household Kristine Garroway,2014-10-21 Children were an important part of the ancient Near Eastern household This idea seems straightforward but it can be understood in many ways On a basic level children are necessary for the perpetuation of a household On a deeper level the definitions of child and member of the household are far from categorical This book begins to explore the multiple definitions of child and the way the child fits within a household It examines what membership in the household looks like for children and what factors contribute to it A study addressing what a child is and how a child s gender and social status affect her place in the household is vital to a proper understanding of the ancient Near Eastern household Despite their importance children have long been marginalized in discussions of ancient

societies Only recently has this trend begun to change within biblical and ancient Near Eastern scholarship A recent wave of studies especially in relation to the Hebrew Bible has started to address children in their own right In light of the current state of scholarship on children the purpose of this book is threefold First Garroway continues to fill out the picture of the child in the ancient Near East by compiling child centric texts and archaeological realia In analyzing these materials she surveys the relationship between children and ancient Near Eastern society by examining the extent to which structuring forces in a community such as social status and gender contribute to the process of a child s becoming a member of his household and society Finally this information provides a base for future research for example a cross cultural study of children in the ancient Near East in Classical Antiquity
