**Games** Marios C. Angelides, Harry Agius, 2014-02-19 This book covers the state of the art in digital games research and development for anyone working with or studying digital games and those who are considering entering into this rapidly growing industry Many books have been published that sufficiently describe popular topics in digital games however until

now there has not been a comprehensive book that draws the traditional and emerging facets of gaming together across multiple disciplines within a single volume      The Oxford Handbook of Music Performance Gary McPherson,2022 Takes an interdisciplinary approach that draws on the most authoritative insights from psychology performance science musicology psychology education science medicine and music education Includes leaders in the fields of music psychology performance science musicology psychology education music medicine science and music education over two volumes Within all chapters authors have selected the most important scientific and artistic material relevant to their topics Volume 1 includes parts on Development and Learning Proficiencies Performance Practices and Psychology Book jacket      Handbook of Artificial Intelligence for Music Eduardo Reck Miranda,2021-07-02 This book presents comprehensive coverage of the latest advances in research into enabling machines to listen to and compose new music It includes chapters introducing what we know about human musical intelligence and on how this knowledge can be simulated with AI The development of interactive musical robots and emerging new approaches to AI based musical creativity are also introduced including brain computer music interfaces bio processors and quantum computing Artificial Intelligence AI technology permeates the music industry from management systems for recording studios to recommendation systems for online commercialization of music through the Internet Yet whereas AI for online music distribution is well advanced this book focuses on a largely unexplored application AI for creating the actual musical content      **The Oxford Handbook of Music Composition Pedagogy** Michele Kaschub,2024 The Oxford Handbook of Music Composition Pedagogy presents an illuminating collection of philosophy research applied practice and international perspectives to highlight the practices of teaching and learning in the field of music composition The Handbook offers various strategies and approaches in composition for teachers music teacher educators and students of music education      *The Oxford Handbook of Algorithmic Music* Alex McLean,Roger T. Dean,2018-01-18 With the ongoing development of algorithmic composition programs and communities of practice expanding algorithmic music faces a turning point Joining dozens of emerging and established scholars alongside leading practitioners in the field chapters in this Handbook both describe the state of algorithmic composition and also set the agenda for critical research on and analysis of algorithmic music Organized into four sections chapters explore the music s history utility community politics and potential for mass consumption Contributors address such issues as the role of algorithms as co performers live coding practices and discussions of the algorithmic culture as it currently exists and what it can potentially contribute society education and ecommerce Chapters engage particularly with post human perspectives what new musics are now being found through algorithmic means which humans could not otherwise have made and in reciprocation how algorithmic music is being assimilated back into human culture and what meanings it subsequently takes Blending technical artistic cultural and scientific viewpoints this Handbook positions algorithmic music making as an essentially human activity      The Palgrave Handbook of Music and Sound in Peak TV Janet K. Halfyard,Nicholas Reyland,2024-12-17 The Palgrave

Handbook to Music and Sound in Peak TV charts the transformation of television's sonic storytelling during the new golden age of televisual narrative from the late 1990s to the early 2020s. Grounded in close analytical critical and theoretical work identifying the key traits of music and sound in this peak TV period, the book casts its critical net wider to develop interpretations of significance not just for screen music studies and musicology but for screen and media studies too. By theorizing peakness with respect to sound and music and by drawing together contributions from a diverse collection of prominent musicologists, media scholars and practitioners, this handbook provides the authoritative guide to the role music has played in creating the success of some of the most culturally and commercially significant popular art of the early twenty-first century. The volume contains 25 essays in three main sections: Concepts and Aesthetics, Practices and Production, and Audiences and Interpretations. Topics discussed include peakness, complexity, ostentatious scoring, antiheroes, memory, franchises, worldbuilding, nostalgia, maternity trauma, actor's voices, title sequences, library music, branding, queer camp, scoring kids TV, captioning, industry practices, HBO and sound design. Shows examined include *The Sopranos*, *The Wire*, *Game of Thrones*, *Battlestar Galactica*, *Westworld*, *Buffy the Vampire Slayer*, *Stranger Things*, *The Bridge*, *Dexter*, *Killing Eve*, *Mad Men*, *American Horror Story*, *Rings of Power*, *Fargo*, *Peaky Blinders*, *Call the Midwife*, *Twin Peaks* and *Twin Peaks: The Return*.

*The Palgrave Handbook of Sound Design and Music in Screen Media* Liz Greene, Danijela Kulezic-Wilson, 2016-12-14. This book bridges the existing gap between film sound and film music studies by bringing together scholars from both disciplines who challenge the constraints of their subject areas by thinking about integrated approaches to the soundtrack. As the boundaries between scoring and sound design in contemporary cinema have become increasingly blurred, both film music and film sound studies have responded by expanding their range of topics and the scope of their analysis beyond those traditionally addressed. The running theme of the book is the disintegration of boundaries, which permeates discussions about industry, labour, technology, aesthetics and audiovisual spectatorship. The collaborative nature of screen media is addressed not only in scholarly chapters but also through interviews with key practitioners that include sound recordists, sound designers, composers, orchestrators and music supervisors who honed their skills on films, TV programmes, video games, commercials and music videos.

*Creativities, Technologies, and Media in Music Learning and Teaching* Gary E. McPherson, Graham F. Welch, 2018-05-03. *Creativities: Media and Technology in Music Learning and Teaching* is one of five paperback books derived from the foundational two-volume Oxford Handbook of Music Education. Designed for music teachers, students and scholars of music education as well as educational administrators and policy makers, this fifth book in the set comprises three complementary sections: musical creativity as practice, music teaching and learning through technology, and the interplay of media, music and education. The first section reviews notions of musical creativity, examining practice-based perspectives to support and develop understanding of the diverse types of creativity found within music education practice across the globe. In the second section, authors explore the essential role of technology in musical

discourse and in various forms of musical learning even as technology continually evolves and the needs and possibilities continue to rapidly change The third section provokes readers to assess their own thinking about the transformative changes occurring within the discipline as a result of advances in media and the increasing infiltration of media into all aspects of life the classroom and music making Contributors Andrew R Brown Pamela Burnard Bernadette Colley Ian Cross Rokus de Groot Steven C Dillon Randi Margrethe Eidsaa David G Hebert Evangelos Himonides Neryl Jeanneret Ailbhe Kenny Andrew King Eleni Lapidaki Felicity Laurence Samuel Leong Bo Wah Leung Alagi Mbye Gary E McPherson Ross Purves Tal Chen Rabinowitch S Alex Ruthmann Eva S ther Jonathan Savage Reza Shayesteh Petros Stagkos Matthew D Thibeault Evan S Tobias Carole Waugh Graham F Welch
