Virtual English Jillana B. Enteen, 2009-12-16 Virtual English examines English language communication on the World Wide Web focusing on Internet practices crafted by underserved communities in the US and overlooked participants in several Asian Diaspora communities Jillana Enteen locates instances where subjects use electronic media to resist popular understandings of cyberspace computer mediated communication nation and community presenting unexpected responses to the forces of globalization and predominate US value systems The populations studied here contribute websites conversations and artifacts that employ English strategically broadening and splintering the language to express their concerns in the manner they perceive as effective Users are thus afforded new opportunities to transmit information conduct conversations teach and make decisions shaping in the process both language and technology Moreover web designers and writers conjure distinct versions of digitally enhanced futures computer mediated communication may attract audiences previously out of reach The subjects of Virtual English challenge prevailing deployments and conceptions of emerging technologies Their on line practices illustrate that the Internet need not replicate current geopolitical beliefs and practices and that reconfigurations exist in tandem with dominant models

Virtual Communities Felicia Wu Song, 2009 Does contemporary Internet technology strengthen civic engagement and democratic practice The recent surge in online community participation has become a cultural phenomenon enmeshed in ongoing debates about the health of American civil society But observations about online communities often concentrate on ascertaining the true nature of community and democracy typically rehearsing familiar communitarian and liberal perspectives This book seeks to understand the technology on its own terms focusing on how the technological and organizational configurations of online communities frame our contemporary beliefs and assumptions about community and the individual It analyzes key structural features of thirty award winning online community websites to show that while the values of individual autonomy egalitarianism and freedom of speech dominate the discursive content of these communities the practical realities of online life are clearly marked by exclusivity and the demands of commercialization and corporate surveillance Promises of social empowerment are framed within consumer and therapeutic frameworks that undermine their

democratic efficacy As a result online communities fail to revolutionize the civic landscape because they create cultures of membership that epitomize the commodification of community and public life altogether

Digital Research Confidential Eszter Hargittai, Christian Sandvig, 2015-12-25 Behind the scenes stories of how Internet research projects actually get done The realm of the digital offers both new methods of research and new objects of study Because the digital environment for scholarship is constantly evolving researchers must sometimes improvise change their plans and adapt These details are often left out of research write ups leaving newcomers to the field frustrated when their approaches do not work as expected Digital Research Confidential offers scholars a chance to learn from their fellow researchers mistakes and their successes The book a follow up to Eszter Hargittai s widely read Research Confidential presents behind the scenes nuts and bolts stories of digital research projects written by established and rising scholars They discuss such challenges as archiving Web crawling crowdsourcing and confidentiality They do not shrink from specifics describing such research hiccups as an ethnographic interview so emotionally draining that afterward the researcher retreated to a bathroom to cry and the seemingly simple research question about Wikipedia that mushroomed into years of work on millions of data points Digital Research Confidential will be an essential resource for scholars in every field Contributors Megan Sapnar Ankerson danah boyd Amy Bruckman Casey Fiesler Brooke Foucault Welles Darren Gergle Eric Gilbert Eszter Hargittai Brent Hecht Aron Hsiao Karrie Karahalios Paul Leonardi Kurt Luther Vir g Moln r Christian Sandvig Aaron Shaw Michelle Shumate Matthew Weber
