Later Medieval Europe From St Louis Luther:

Later Medieval Europe from St. Louis to Luther D. Waley, 2001-12-01 **Later medieval Europe** Daniel Philip Waley, 1966 Later Medieval Europe Daniel Waley, 1964 Heresy and Hussites in Late Medieval Europe Thomas A. Fudge, 2023-05-31 The followers of the martyred Bohemian priest Jan Hus 1371 1415 formed one of the greatest challenges to the medieval Latin Church Branded as heretics outlawed then forced to fight for their faith as well as their lives the Hussites occupy one of the most colorful and challenging chapters of European religious history The essays reprinted in this book along with one here first published in English and additional notes explore the essence of the early Hussite movement by focusing on the nature and development of heresy both as accusation and identity Heresy and Hussites in Late Medieval Europe first examines the definition of heresy and its comparative nature across Europe It investigates the unique practices of popular religion in local communities while examining theology and its unavoidable conflicts The repressive policy of crusade and the growth of martyrdom with its inevitable contribution to the formation of Hussite history is explored The social application of religious ideas its revolutionary outcomes along with the intentional use of art in pedagogy and propaganda situates the Czech heretics in the fifteenth century An examination of leading personalities together with the eventual and more formal church administration rounds out the study of this remarkable era **English historical documents. 4. [Late medieval]. 1327 - 1485** A. R. Myers, 2013-10-18 English Historical Documents is the most ambitious impressive and comprehensive collection of documents on English history ever published An authoritative work of primary evidence each volume presents material with exemplary scholarly accuracy Editorial comment is directed towards making sources intelligible rather than drawing conclusions from them Full account has been taken of modern textual criticism A general introduction to each volume portrays the character of the period under review and critical bibliographies have been added to assist further investigation Documents collected include treaties personal letters statutes military dispatches diaries declarations newspaper articles government and cabinet proceedings orders acts sermons pamphlets agricultural instructions charters grants guild regulations and voting records Volumes are furnished with lavish extra apparatus including genealogical tables lists of officials chronologies diagrams graphs and maps Jean Gerson and the Last Medieval Reformation Brian Patrick McGuire, 2010-11-01 In this biography of the noted French philosopher and theologian Jean Gerson the first since 1929 Brian Patrick McGuire presents a compelling portrait of Gerson as a voice of reason and Christian humanism during a time of great intellectual and social tumult in the late Middle Ages Born to a peasant father and mother in the county of Champagne Gerson 1363 1429 was the first of twelve children He overcame his modest beginnings to become a scholastic and vernacular theologian a university intellectual and a church reformer McGuire shows us the turning points in Gerson s life including his crisis of faith after becoming chancellor of the University of Paris in 1395 Through these key moments we see the deeper undercurrents of his mystical writings With their rich display of spiritual and emotional life

these writings were to earn Gerson the appellation doctor christianissimus In turn they would influence many later thinkers including Nicholas of Cusa Ignatius of Loyola Francis de Sales and even Martin Luther Gerson is a man perhaps easier to admire than to love conscientious to a fault at once a pragmatist and an idealist in church politics a university intellectual who both fostered and distrusted the religious aspirations of the laity a powerful prelate who moved among the great yet never forgot his peasant origins a self revealing yet intensely private man who yearned for intimacy almost as much as he feared it McGuire ably situates Gerson in the context of his age an age replete with doctrinal controversies and the politics of papal schism on the eve of the Protestant Reformation Gerson emerges as a proponent of dialogue and discussion committed to reforming the church from within His courageous effort to renew the unity of a unique civilization bears examination in our own time

Luther and Late Medieval Thomism Denis R. Janz, 2009-12-15 A careful analysis of Luther's thought in the context of his age this volume examines Luther's links with later medieval Thomism The study is organized on the theme of theological anthropology the state of humans within a theological system In the course of the discussion Janz studies parallels and divergences between the thought of Luther and the thought of Thomas Aquinas Peter Lombard John Capreolus Henry of Gorkum Conrad Koellin Karlstadt and Cajetan Janz suggests that at some crucial points late medieval Thomist teaching misrepresents the teaching of Thomas Aquinas This compounding Luther's lack of direct knowledge of Thomas helps to explain Luther's opposition not only to his own nominalist teachers but to the scholastics generally Students of late medieval

and Reformation theology will find the wealth of primary citation and the detailed readings of the sources invaluable guides to the issues Students of religion interested in contemporary problems in theological anthropology in the natural capacity of humanity for good and evil for example will find the historical Christian perspective of great interest **Medieval East Central Europe in a Comparative Perspective** Gerhard Jaritz,Katalin Szende,2016-05-12 Medieval East Central Europe in a Comparative Perspective draws together the new perspectives concerning the relevance of East Central Europe for current historiography by placing the region in various comparative contexts The chapters compare conditions within East Central Europe as well as between East Central Europe the rest of the continent and beyond Including 15 original chapters from an interdisciplinary team of contributors this collection begins by posing the question What is East Central Europe with three specialists offering different interpretations and presenting new conclusions The book is then grouped into five parts which examine political practice religion urban experience and art and literature The contributors question and explain the reasons for similarities and differences in governance and strategies for handling allies enemies or subjects in particular ways They point out themes and structures from town planning to religious orders that did not function according to political boundaries and for which the inclusion of East Central European territories was systemic The volume offers a new interpretation of medieval East Central Europe beyond its traditional limits in space and time and beyond the established conceptual schemes It will be essential reading for students and scholars of medieval East Central Europe The Medieval Church Joseph Lynch,2013-12-16 The Church was the central institution of the European Middle Ages and the foundation of medieval life Professor Lynch s admirable survey concentrating on the western church and emphasising ideas and trends over personalities meets a long felt need for a single volume comprehensive history designed for students and non specialists

The Making of Polities John Watts,2009-05-07 This major survey of political life in late medieval Europe provides a framework for understanding the developments that shaped this turbulent period Rather than emphasising crisis decline disorder or the birth of the modern state this account centres on the mixed results of political and governmental growth across the continent The age of the Hundred Years War schism and revolt was also a time of rapid growth in jurisdiction taxation and representation of spreading literacy and evolving political technique This mixture of state formation and political convulsion lay at the heart of the making of polities Offering a full introduction to political events and processes from the fourteenth century to the sixteenth this book combines a broad comparative account with discussion of individual regions and states including eastern and northern Europe alongside the more familiar west and south **Jean Gerson** ,1998 Here are selected seminal writings of Jean Gerson 1363 1429 chancellor of the University of Paris academic humanist Christian teacher and reformer and one of the greatest theologians and mystical writers of the middle ages *A History of the Middle Ages, 300-1500* John M. Riddle,2008-03-13 This text covers the Middle Ages from the classical era to the late medieval period The author provides an analysis of the rulers wars and events both natural and human that defined the medieval era

Taking a broad geographical perspective he includes northern and eastern Europe Byzantium and the Islamic states He shows how each offered values and institutions that presaged modernity In addition to a thorough chronological narrative the text offers humanizing features Each chapter opens with a theme setting vignette about daily life and introduces key controversies and themes in historiography by discussing the work of a prominent medieval historian This book immerses readers in the medieval world an era that shaped the foundation for the modern world The Making of Christian Communities in Late Antiquity and the Middle Ages Mark F. Williams, 2005 The Making of Christian Communities sheds light on one of the most crucial periods in the development of the Christian faith It considers the development and spread of Christianity between Late Antiquity and the Middle Ages and includes analysis of the formation and development of Christian communities in a variety of arenas ranging from Late Roman Cappadocia and Constantinople to the court of Charlemagne and the twelfth century province of Rheims France during the twelfth century **Early Modern Germany, 1477-1806** Michael Hughes, 1992-05 Attempts to present a coherent account of early modern German history are often hampered by the German equivalent of the Whig theory of history by which all useful roads lead up to the creation of the nineteenth century power state Machstaat or institutional state Anstaltsstaat In this kind of historiography there are large blank areas between the important events like the Reformation the Thirty Years War the Seven Years War and the French Revolution During the intervals of apparent stagnation between these events Germany seems to disappear to be replaced by states such as Prussian and Austria Saxony Bavaria and the Palatinate Substantial areas are ignored and groups such as the parliamentary Estates which stood in the way of state building are virtually written out of most accounts Rather than focusing on the separate histories of the individual German states Michael Hughes looks to the structure of the Holy Roman Empire in its final centuries and writes an account of Germany as a functioning federative state with institutions capable of reform and modernization For nineteenth and twentieth century historians the Empire was seen as the embodiment of division and weakness But by examining the first Reich Hughes reveals the persistence of the idea of Germanness and German national feeling during a period when according to most accounts Germany had virtually ceased to exist At the same time he examines the element of continuity in Germany's development in an attempt to discover how far back in Germany's past it is necessary to go to find the roots of the German problem the Germans search for a political expression of their strongly developed awareness of cultural unity **Popular Religion in Germany and Central Europe, 1400-1800** Trevor Johnson, R. W. Scribner, 1996-08-16 Studies in the field of popular religion have for some time been among the most innovative in social and cultural history but until now there have been few publications providing any adequate overview for Germany and the Holy Roman Empire This volume presents the results of recent research by younger scholars working on major aspects of this subject The nine essays range over nearly four centuries of German history encompassing late medieval female piety propaganda for radical Hussite dissent attitudes towards the Jews legitimization for the witchcraze on the eve of the

Reformation attempts to implement Protestant reform in German villages Reformation attacks on popular magic and female culture problems of defining the Reformation in small German towns Protestant popular prophecy and formation of confessional identity and the missionising strategies of the Counter Reformation The Doctrine of Atonement Jack D. Kilcrease, 2018-03-22 Post Enlightenment theology has frequently rejected the historic Christian doctrine of substitutionary atonement For theologians standing in the tradition of the Lutheran Confessions rejection of substitutionary atonement is particularly problematic because it endangers the unconditional nature of the justification through faith If one rejects vicarious satisfaction then the only alternative is to make redemption dependent on what sinners do for themselves In this study Jack Kilcrease argues for substitutionary atonement within the perspective of what he calls the Confessional Lutheran Paradigm The author also critiques a wide variety of modern Lutheran theologians understandings of atonement Werner Elert Gustaf Aulen Gustaf Wingren Robert Jenson Eberhard Jungel Wolfhart Pannenberg and Gerhard Forde As Kilcrease demonstrates although these authors often give many fine theological insights their distortion or misrepresentation of the doctrine of atonement carries over to a problematic understanding of law gospel and justification through faith *Luther's Revolution* Nathan Montover, 2012-09-27 Till now history has neglected the utterly radical nature of Luther's thought In bringing together the political theological conceptual and cultural dimensions of Luther's work Montover brings his readers to an awareness of their truly radical nature Luther's understanding of the universal priesthood of believers was not simply another evangelical concept that dealt only with the office of ministry In serving as a means for reordering the concepts of temporal authority and the temporal order it challenged the cosmological foundations of the political structure of his day A compelling work that can only serve to revive the study of this monumental figure of theology **Luther's First Front** Robert C. Croken, 1990 Since the Reformation in the sixteenth century one of the basic divisions between Catholics and Protestants has been the concept of the mystery of the Eucharist and its meaning to modern Man In this new study Robert C Croken tries to explain why Luther's view of the Eucharist is pivotal to ecumenical dialogue among Christians The sacrificial dimension of the Eucharist is one of the tenets Luther opposed although this basic theme has often been neglected in recent research This study focuses on Luther's rejection of the Eucharist as a sacrifice and a good work a major doctrinal shift from previous Catholic belief Explaining the historical origins of the debate Robert Croken shows the reader where the Roman Catholic and Lutheran churches have grown apart and where they have found agreement This book is a systematic study of Martin Luther's writings in the context of his break with Rome and will be of value to scholars and theologians of modern Christianity searching for common ground in ecumenical discussions *Historians of Early Modern Europe* , 1987
