This is a filmography of not only all of the English language movies made during the 1960s that had a theatrical release but major foreign films exhibited in the United States as well. The films are listed alphabetically and the following information is provided for each year of release: nation of origin if other than the United States, production distribution company, black and white notation if not in color, running time, genre, production credits, cast and characters, and a brief synopsis. This turbulent decade is unusually interesting in the history of cinema. Those films released in the early part of the decade were similar to those of the 1950s but as the years passed the offerings changed in many ways.

Encyclopedia of Television Subjects, Themes and Settings Vincent Terrace, 2024-10-17. Over the course of 80 years, television has produced countless programs, many of which fit a particular profile. Did you know, for example, some programs are devoted to ghosts, genies, angels, and even mermaids? Color broadcasting was first tested in 1941. Live models were used to advertise lingerie as early as 1950. Or that nudity, although accidental, occurred on TV long before cable was even thought possible. These are just a few of the many facts and firsts that can be found within the 145 entries included. Appropriate for fans and scholars and bursting with obscure facts, this work traces the evolution of specific topics from 1925 through the 2005-2006 season. Entries include such diverse themes as adolescence, adult film actresses on TV, bars, espionage, gays, immigrants, lawyers, transsexuals, and truckers, as well as locations like Canada, Hawaii, New York, and Los Angeles. Each entry is arranged as a timeline, clearly displaying how television's treatment of the subject has changed through the years. Each entry is as complete as possible and contains series, pilot, special, and experimental program information. Whether just a fan of television and eager to know more about the medium or a scholar seeking hard-to-find facts and information, this book traces the history of specific topics from television's infancy to its changes in the early twenty-first century.
