Tatum,2022-07-26 The

literary culture of the Spanish speaking Southwest has its origins in a harsh frontier environment marked by episodes of intense cultural conflict and much of the literature seeks to capture the epic experiences of conquest and settlement. The Chicano literary canon has evolved rapidly over four centuries to become one of the most dynamic growing and vital parts of what we know as contemporary U S literature. In this comprehensive examination of Chicano and Chicana literature Charles M Tatum brings a new and refreshing perspective to the ethnic identity of Mexican Americans. From the earliest sixteenth century chronicles of the Spanish Period to the poetry and narrative fiction of the second half of the nineteenth century and the first half of the twentieth century and then to the flowering of all literary genres in the post Chicano Movement years, Chicano literature amply reflects the hopes and aspirations as well as the frustrations and disillusionments of an often marginalized population. Exploring the work of Rudolfo Anaya, Sandra Cisneros, Luis Alberto Urrea and many more, Tatum examines the important social, historical and cultural contexts in which the writing evolved, paying special attention to the Chicano Movement and the flourishing of literary texts during the 1960s and early 1970s. Chapters provide an overview of the most important theoretical and critical approaches employed by scholars over the past forty years and survey the major trends and themes in contemporary autobiography, memoir, fiction and poetry. The most complete and up to date introduction to Chicana/o literature available, this book will be an ideal reference for scholars of Hispanic and American literature. Discussion questions and suggested reading included at the end of each chapter are especially suited for classroom use.

Contemporary Latina/o Theater Jon D. Rossini, 2008-04-17. In *Contemporary Latina/o Theater*, Jon D. Rossini explores the complex relationship between theater and the creation of ethnicity in an unprecedented examination of six Latina/o playwrights and their works: Miguel Piñero, Luis Valdez, Guillermo Reyes, Octavio Solis, Jos Rivera and Cherríe Moraga. Rossini exposes how these writers use the genre as a tool to reveal and transform existing preconceptions about their culture. Through writing the triplicate process of writing plays, righting misconceptions about ethnic identity and creating an entirely new way of understanding Latina/o culture, these playwrights directly intervene in current conversations regarding ethnic identity, providing the tools for audiences to reexplore their previously held perspectives outside the theater. Examining these writers and their works in both cultural and historical contexts, Rossini reveals how playwrights use the liminal space of the stage, an area on the thresholds of both theory and reality, to write new insights into Latina/o identity. They use the limits of the theater itself to offer practical explorations of issues that could otherwise be discussed only in highly theoretical terms. Rossini traces playwrights' methods as they address some of the most challenging issues facing contemporary Latinas/os in America: from the struggles for ethnic solidarity and the dangers of a community based in fear to stereotypes of Latino masculinity and the problematic fusion of ethnicity and politics. Rossini discusses the looming specter of the border in theater, both as a conceptual device and as a literal reality, a crucial subject for modern Latinas/os given recent legislation and other actions. Throughout, the author draws intriguing comparisons to the cultural limbo in which many

Latinas or find themselves today An indispensable volume for anyone interested in drama and ethnic studies Contemporary Latina o Theater underscores the power of theatricality in exploring and rethinking ethnicity Rossini provides the most in depth analysis of these plays to date offering a groundbreaking look at the ability of playwrights to correct misconceptions and create fresh perspectives on diversity culture and identity in Latina o America **New Faces in a Changing America** Loretta I. Mexican American women from two Los Angeles neighborhoods and how they transformed the everyday problems they confronted into political concerns By placing these women s experiences at the center of her discussion of grassroots political activism Mary Pardo illuminates the gender race and class character of community networking She shows how citizens help to shape their local environment by creating resources for churches schools and community services and generates new questions and answers about collective action and the transformation of social networks into political networks By focusing on women in two contiguous but very different communities the working class inner city neighborhood of Boyle Heights in Eastside Los Angeles and the racially mixed middle class suburb of Monterey Park Pardo is able to bring class as well as gender and ethnic concerns to bear on her analysis in ways that shed light on the complexity of mobilizing for urban change Unlike many studies the stories told here focus on women s strengths rather than on their problems We follow the process by which these women empowered themselves by using their own definitions of social justice and their own convictions about the importance of traditional roles Rather than becoming political participants in spite of their family responsibilities women in both neighborhoods seem to have been more powerful because they had responsibilities social networks and daily routines separate from the men in their communities Pardo asserts that the decline of real wages and the growing income gap means that unfortunately most women will no longer be able to focus their energies on unpaid community work She reflects on the consequences of this change for women s political involvement as well as on the politics of writing about women and politics
