## **Law And Islam In The Middle East:**

*Law and Islam in the Middle East* Daisy Hilse Dwyer, 1990-09-18 Islamic law is the epitome of Islamic thought the most typical manifestation of the Islamic way of life the core and kernel of Islam itself asserts Joseph Schacht the internationally renowned Islamic law scholar Indeed the primary place of law in Islam as well as the preponderance of the legal over the theological in Muslim thinking has long been recognized by both Muslim jurisprudents and by Western legal scholars At a time when Islamic fundamentalism is flourishing the relation of religion in and to law related behavior needs to be scrutinized In its eight chapters contributed by various experts in the field and with a cogent introduction by editor Daisy Hilse Dwyer that focuses on the sources of law the reasons for its centrality in the Middle East and personal status law this volume considers Middle Eastern law as practiced by Muslims in a diversity of Middle Eastern nations The dynamics of dispute settlement the interaction of court personnel with litigants the content of legislation and the promulgation of public policies about law are detailed here as well as the power dynamics of law s interpersonal intergroup and international sides Focusing on the specifics of contemporary politics and social life the volume provides a baseline for understanding how and the degree to which the legal principles and the legal ethos elaborated in Islam centuries ago continue to provide a vital dynamic in legal behavior and thinking today The first five chapters deal with the on the ground intricacies of personal status law They detail the complex blend of options and constraints that Middle Easterners experience in confronting personal status issues and examine the different approaches to these issues by contrasting regional environments and differentially empowered social groups The last three chapters assess law in the public domain an area in which the most striking recent applications of Islamic law have occurred *Law and Islam in the Middle East* will be of particular value to international law experts students of Islam comparative law and the Middle East as well as practicing social scientists and others who seek a practical and philosophical understanding of how the spirit and letter of Islamic law constitute and reconstitute themselves with a fine tuned responsiveness to a continuously changing nation and world *The Long Divergence* Timur

Kuran, 2012-11-11 How religious barriers stalled capitalism in the Middle East In the year 1000 the economy of the Middle East was at least as advanced as that of Europe But by 1800 the region had fallen dramatically behind in living standards technology and economic institutions In short the Middle East had failed to modernize economically as the West surged ahead What caused this long divergence And why does the Middle East remain drastically underdeveloped compared to the West In *The Long Divergence* one of the world s leading experts on Islamic economic institutions and the economy of the Middle East provides a new answer to these long debated questions Timur Kuran argues that what slowed the economic development of the Middle East was not colonialism or geography still less Muslim attitudes or some incompatibility between Islam and capitalism Rather starting around the tenth century Islamic legal institutions which had benefitted the Middle Eastern economy in the early centuries of Islam began to act as a drag on development by slowing or blocking the emergence

of central features of modern economic life including private capital accumulation corporations large scale production and impersonal exchange By the nineteenth century modern economic institutions began to be transplanted to the Middle East but its economy has not caught up And there is no quick fix today Low trust rampant corruption and weak civil societies all characteristic of the region s economies today and all legacies of its economic history will take generations to overcome The Long Divergence opens up a frank and honest debate on a crucial issue that even some of the most ardent secularists in the Muslim world have hesitated to discuss *Contracting Fear* Khurram Dara,2015-10-22 If you ve ever read a news story about radical Islam you ve probably seen sharia law mentioned But for something that is becoming increasingly prevalent in political rhetoric it s hard to believe how little most people actually know about Islamic law In this concise and instructive book Khurram Dara explains not only the history and origins of Islamic law but also the interesting role it has played in the politics of the Middle East and Middle America Challenging the conventional wisdom that Islamic law is rigid and permanent Dara argues that the political and cultural realities of its formation suggest otherwise and should change how Islamic law is thought of and discussed in both the East and the West Combining religious history with legal analysis *Contracting Fear* explains Islamic law in the context of the global political climate today *Changing God's Law* Nadjma Yassari,2016-06-03 This volume identifies and elaborates on the significance and functions of the various actors involved in the development of family law in the Middle East Besides the importance of family law regulations for each individual family law has become the battleground of political and social contestation Divided into four parts the collection presents a general overview and analysis of the development of family law in the region and provides insights into the broader context of family law reform before offering examples of legal development realised by codification drawn from a selection of Gulf states Iran and Egypt It then goes on to present a thorough analysis of the role of the judiciary in the process of lawmaking before discussing ways the parties themselves may have shaped and do shape the law Including contributions from leading authors of Middle Eastern law this timely volume brings together many isolated aspects of legal development and offers a comprehensive picture on this topical subject It will be of interest to scholars and academics of family law and religion *The Law of the Near and Middle East* Herbert J. Liebesny,1975-06-30 A systematic survey of fundamental statements of Islamic and Near Eastern law that includes selections from the writings of classic Islamic scholars contemporary works on legal theory and modern Middle Eastern codes No other accessible work brings together so many useful materials on the development of Islamic law as does this volume based on translations from a variety of languages and numerous sources all of which are identified Because of the important role which law plays in Islamic culture some acquaintance with legal developments is indispensable if one is to gain a rounded picture of Islamic culture *Law in the Middle East* Robert H.
