Chinese Economists on Economic Reform - Collected Works of Ma Hong Ma Hong,2013-12-04 This book is part of a series which makes available to English speaking audiences the work of the individual Chinese economists who were the architects of China s economic reform The series provides an inside view of China s economic reform revealing the thinking of the reformers themselves unlike many other books on China s economic

reform which are written by outside observers Ma Hong 1920 2007 was one of the leading advocates for China's market oriented reforms one of the earliest scholars to adopt the concept of a socialist market economy Politically active from the 1930s when he campaigned against the Japanese occupation he held many important posts notably President of the Chinese Academy of Social Sciences in the 1980s He was particularly influential in the field of industrial economics putting to use his own experiences of managing industrial enterprises and a strong advocate of the need for China's economic development to be stable The book is published in association with China Development Research Foundation one of the leading economic and social think tanks in China where many of the theoretical foundations and policy details of economic reform were formulated

The New Palgrave Dictionary of Economics and the Law Peter Newman, 2016-04-30 A great deal of economics is about law the functioning of markets property rights and their enforcement financial obligations and so forth yet these legal aspects are almost never addressed in the academic study of economics Conversely the study and practice of law entails a significant understanding of economics yet the drafting and administration of laws often ignore economic principle The New Palgrave Dictionary of Economics and the Law is uniquely placed by the quality breadth and depth of its coverage to address this need for building bridges Drawn from the ranks of academics professional lawyers and economists in eight countries the 340 contributors include world experts in their fields Among them are Nobel laureates in economics and eminent legal scholars First published in 1998 and now available in paperback for the first time The New Palgrave Dictionary of Economics and the Law has established itself as a classic reference work in this important field

The Collapse of State Socialism Bartolomiej Kaminski, 2014-07-14 Does the abrupt collapse of communist regimes in Eastern Europe arise only from errors in implementing the policy of state socialism leaving the concept itself still a potentially valid one Bartolomiej Kaminski argues to the contrary state socialism is a fundamentally defective idea that was well carried out enabling it to exist until its accumulated shortcomings made its survival extremely difficult How did the flawed state socialist system endure for so long Why is it failing now In answering these questions Kaminski who is both an economist and a political analyst proposes a general theory and then applies it to the case of Poland Contending that the breakdown of state socialism results from symbiosis of the state and the economy the book describes how communist governments searched for tools that would replace the market mechanism and the rule of law Doomed in advance by the absence of autonomy and competition this search generated new crises by undermining the state's capacity to suppress individual interests and to direct the economy Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Chinese Legal Reform Yan Wang, 2003-08-29 This collection assesses the legal developments which have taken place since the 1980s in China It discusses China's achievements in building a new legal system and identifies the theoretical and institutional limitations of China's legal reform Featuring an extensive case study of foreign investment law this book considers a wide ranging set of interconnecting variables in China's changing social context in order to examine and illustrate the gap between the text and actual practice of the law especially as it relates to foreign direct investment It will be of great interest to students and scholars of Chinese Law Business and Economics as well as to business investors in China

China's Economic Reform Raphael Shen, 2000-02-28 Both Mao Zedong and Deng Xiaoping drastically altered the course of contemporary China's economic development using opposing strategies Mao froze China's economic system in a perennial state of consumer goods shortages and pervasive macro disequilibria Deng however began thawing a rigidly structured system by introducing experimental reform measures Mao's revolutionary rhetoric brought China's economy to the brink of

bankruptcy Deng's ideological pragmatism netted China glowing successes Mao closed China to the outside world Deng engineered China's reintegration into the world economy Dismantling a dysfunctional system and replacing it with a dynamic new one involving 1.2 billion people is risk laden Reform in China began in 1978 It was tentative and experimental confining reform to organizational and administrative decentralization on farms Successes on farms ushered in reform elsewhere in the economy Over time market based coordinating mechanisms progressively began replacing the system's control devices Results from decentralization internally reinforced those from liberalization externally This consequently transformed China's stale distorted system into a more competitive bustling new one ready for developmental takeoff Its meteoric rise among the world's leading markets in recent years has thrust China's economy to the forefront of growth and development Controlled phased reform is yielding dividends not only for its own consumers but for international economic cooperation and growth as well

Legal Entanglements Sebastian Gehrig, 2026-02-01 During the division of Germany law became the object of ideological conflicts and the means by which the two national governments conducted their battle over political legitimacy Legal Entanglements explores how these dynamics produced competing concepts of statehood and sovereignty all centered on citizens and their rights Drawing on wide ranging archival sources including recently declassified documents Sebastian Gehrig traces how politicians diplomats judges lawyers activists and intellectuals navigated the struggle between legal ideologies under the pressures of the Cold War and decolonization As he shows in their response to global debates over international law and human rights their work kept the legal cultures of both German states entangled until 1989
