Five Miles Away, A World Apart James E. Ryan, 2010-08-06 How is it that half a century after *Brown v Board of Education* educational opportunities remain so unequal for black and white students not to mention poor and wealthy ones In his important new book *Five Miles Away A World Apart* James E Ryan answers this question by tracing the fortunes of two

schools in Richmond Virginia one in the city and the other in the suburbs Ryan shows how court rulings in the 1970s limiting the scope of desegregation laid the groundwork for the sharp disparities between urban and suburban public schools that persist to this day The Supreme Court in accord with the wishes of the Nixon administration allowed the suburbs to lock nonresidents out of their school systems City schools whose student bodies were becoming increasingly poor and black simply received more funding a measure that has proven largely ineffective while the independence and superiority of suburban schools remained sacrosanct Weaving together court opinions social science research and compelling interviews with students teachers and principals Ryan explains why all the major education reforms since the 1970s including school finance litigation school choice and the No Child Left Behind Act have failed to bridge the gap between urban and suburban schools and have unintentionally entrenched segregation by race and class As long as that segregation continues Ryan forcefully argues so too will educational inequality Ryan closes by suggesting innovative ways to promote school integration which would take advantage of unprecedented demographic shifts and an embrace of diversity among young adults Exhaustively researched and elegantly written by one of the nation's leading education law scholars *Five Miles Away A World Apart* ties together like no other book a half century's worth of education law and politics into a coherent if disturbing whole It will be of interest to anyone who has ever wondered why our schools are so unequal and whether there is anything to be done about it

Class War Megan Erickson, 2015-09-08 What America has at stake when some children go to school hungry and others ride in 1 000 strollers In an age of austerity elite corporate education reformers have found new ways to transfer the costs of raising children from the state to individual families Public schools tasked with providing education childcare job training meals and social services to low income children struggle with cutbacks Meanwhile private schools promise to nurture the minds and personalities of future professionals to the tune of 40 000 a year As Class War reveals this situation didn't happen by chance In the media educational success is framed as a consequence of parental choices and natural abilities In truth the wealthy are ever more able to secure advantages for their children deepening the rifts between rich and poor The longer these divisions persist the worse the consequences Drawing on Erickson's own experience as a teacher in

the New York City school system Class War reveals how modern education has become the real hunger games stealing opportunity and hope from disadvantaged children for the benefit of the well to do
