Canadiana ,1977 [A History of the Chambers Dictionary](#) Mariusz Kaminski,2013-08-01 In the literature on English lexicography there have been few attempts at a systematic study of the history of popular dictionaries that have been around for many years in English speaking countries A dictionary like Chambers deserves special attention because of its long tradition that goes back to the nineteenth century Although it has

gone through numerous editions its history has received little attention from scholars The book traces the development of the Chambers Dictionary from its origins to the present time by comparing corresponding parts of successive editions of the dictionary This comparative approach aims to determine major trends in the evolution of the dictionary It will provide scholars and interested students with insights into the Chambers lexicographers work the goals they aimed to achieve and the problems they had to face when revising the dictionary

Medicine Without Doctors Guenter B. Risse, Ronald L. Numbers, Judith Walzer Leavitt, 1977 The tradition of self help in medicine has existed since time immemorial Until healing roles were clearly defined and professionalization was on its way much of what constituted healing was fundamentally domestic in nature In fact it could be argued that healing was originally a familial or communal activity before being invested in special persons and ritualized The layperson's good judgment is always a composite of up to date scientific information regarding diseases and drugs and a great deal of common sense Nevertheless lurking in the background are the real hazards of incorrect self diagnosis which can delay necessary professional care The papers which follow originally delivered in April 1975 at the fourth annual symposium sponsored by the Department of the History of Medicine University of Wisconsin develop some of these themes John B Blakes survey of do it yourself manuals is followed by James H Cassedy's analysis of actors that promoted American medical self help during the first half of the nineteenth century Ronald L Numbers and Regina Markell Morantz discuss specific practitioners of domestic medicine sectarians and women James Harvey Young concludes with a description of methods employed in home medicine especially dosing with patent medicines Excerpt from the Introduction
