Irwin Goldman

Great American Apple Wizard:

The Great American Apple Wizard James R. Curran, 2004 Hybrid Noel Kingsbury, 2011-11-15 Noel Kingsbury reveals that even those imaginary perfect foods are themselves far from anything that could properly be called natural rather they represent the end of a millennia long history of selective breeding and hybridization Starting his story at the birth of agriculture Kingsbury traces the history of human attempts to make plants more reliable productive and nutritious a story that owes as much to accident and error as to innovation and experiment Drawing on historical and scientific accounts as well as a rich trove of anecdotes Kingsbury shows how scientists amateur breeders and countless anonymous farmers and gardeners slowly caused the evolutionary pressures of nature to be supplanted by those of human needs and thus led us from sparse wild grasses to succulent corn cobs and from mealy white wild carrots to the juicy vegetables we enjoy today At the same time Kingsbury reminds us that contemporary controversies over the Green Revolution and genetically modified crops are not new plant breeding has always had a political dimension Publisher's description *The Great American Songbook* Steven Suskin, 2023-04-01 In an age of ubiquitous music and countless new songs releasing every minute the Great American Songbook endures After all the Songbook that sprawling canon of popular songs standards and show tunes from roughly the 1920s through the 1950s is a foundational text of American pop music Rare indeed is the song that doesn't in some way draw on this magnificent corpus and rare is the person who hasn't heard at least a few of its most enduring melodies Nonetheless the Songbook is broader and deeper than most listeners can imagine and on the margins the question of whether this or that song should be included is the source of regular arguments among scholars and buffs alike Attempting to plumb its depths can be a daunting prospect Enter Steven Suskin who has been writing about music since the days that Rodgers Arlen and Berlin still roamed the streets of Manhattan In this carefully curated and cheerfully opinionated guidebook Suskin surveys 201 of the most significant selections from the Songbook ranging from celebrated masterpieces to forgotten gems Year by year he puts songwriters and their contributions in their context and explains what makes each song such a distinctive treat whether felicitous melody colorful harmony compositional originality or merely the sheer irreducible joy of listening to it Old and new favorites await all readers of this painstakingly compiled enthusiastically written catalog Plant Breeding Reviews, Volume 41 Irwin Goldman, 2018-01-17 Plant Breeding Reviews presents state of the art reviews on plant genetics and the breeding of all types of crops by both traditional means and molecular methods Many of the crops widely grown today stem from a very narrow genetic base understanding and preserving crop genetic resources is vital to the security of food systems worldwide The emphasis of the series is on methodology a fundamental understanding of crop genetics and applications to major crops *Modern Great Americans* Frederick Houk Law, 1926 Apple's America R. W. Apple, 2002-02-09 Unpretentious sophisticated and always appetizing advice from a celebrated authority For more than thirty years R W Apple Jr roamed the United States as an eyewitness to history Here in Apple's America his robust enthusiasm for
