British Gunmakers of the 21st Century DONALD. HOLTS AUCTIONEERS. DALLAS,2018-10-25 In the nineteenth century there were thousands of British gunmakers plying their trade the length and breadth of the land building all qualities of gun and rifle Gunmakers have dwindled to a very small number today but the nature of the trade has changed from volume production to exclusive best guns only British gunmakers have embraced the new technology on offer and by using a combination of CNC machining and new steels allied to traditional gunmaking skills they are building superb quality guns and rifles to the highest standards Unlike their competitors British guns are not entirely built by machine and there is a large element of hand craftsmanship in every example built Not content to rest on their historical laurels they have introduced new designs and brought their creations right up to date for twenty first century requirements Guns and rifles are all built to the exact specifications of the customer and no two are alike Each gun is individually made yet designed to embrace modern requirements such as high pheasants steel shot and so on This book shows the great variety of guns and rifles on offer entirely built in Great Britain today and how British gunmakers still continue to lead the world in best quality guns and rifles

Baker,2000 As the 19th century drew to a close the skills of British gunmakers were reaching their pinnacle Manufacturing expertise had been honed to perfection This text examines the guns in common use during those few years and looks at the shooting scene in general It looks at other aspects of country life from poacher to gamekeeper and the type of gun available to them Cartridges and other equipment are discussed and extracts from magazines advertising and a complete catalogue of the era give the reader a feel for the time *Messrs Griffin & Tow and W. Bailes* William Keith Neal,David Henry Lempriere Back,1989 *British Gunmakers: Historical data on the Birmingham, Scottish and Regional gun trade in the nineteenth and twentieth centuries* Nigel Brown,2004 One of the most important aspects of the British Gunmakers series of books has been the compilation of the past and existing records of the many gunmaking firms and the setting down of the historical facts known about them before they get lost in the mists of time No such collection just like a cartridge collection can ever be complete but this volume in conjunction with the first two is undoubtedly the best printed
