Examining this geographically widespread multicultural region at several levels: local, national, transnational, and empire, and through multiple approaches: social, cultural, political, and economic, this volume offers informed and dispassionate analyses of how the many populations of these borderlands managed to coexist in a previous era and how and why the areas eventually descended into violence. An understanding of this specific region will help readers grasp the preconditions of interethnic coexistence and the causes of ethnic violence and war in many of the world's other borderlands, both past and present.

Naval Constabulary Operations and Fisheries Governance Sean A. G. Andrews, 2024-05-07 This book offers an analysis of naval constabulary operations in particular Australian fisheries patrols and challenges the widely accepted Anglo-American school of maritime thought. In the Indo-Pacific, fisheries and the activities of fishing boats are of increasing strategic importance in Australia's region. Australia's Four Oceans Issues of overfishing, population growth, and climate change are placing growing pressure on fish as a resource, and in doing so are making fisheries more significant and significant on a strategic as opposed to simply an economic or environmental level. When combined with the growing use of fishing vessels as para-naval forces, it is clear that the activities of fishing vessels, whether fishing or not fishing, are matters of considerable strategic relevance. This book illuminates contemporary seapower challenges, explains and defines maritime security, and examines and refines existing theory to advance a set of new or refined concepts to help frame the on-water activities of constabulary operations, reducing the possibility of on-water miscalculation between states. This book will be of much interest to students and scholars of naval studies and sea power, maritime strategy, maritime security, and International Relations.

The Last American Diplomat George W. Liebmann, 2012-01-27 Can John D. Negroponte be described as The Last American Diplomat? In a career spanning 50 years of unprecedented American global power, he was the last of a dying breed of patrician diplomats devoted to public service, a self-effacing and ultimate insider whose prime duty was to advise, guide, and warn, a bulwark of traditional diplomatic realism against ideologue excess. Negroponte served as US ambassador to Honduras

Mexico the Philippines and Iraq he was US Permanent Representative to the UN Director of National Intelligence and Deputy Secretary of State to George W Bush His was a high flying and seemingly conventional career but one full of surprises Negroponte opposed Kissinger in Vietnam supported a proxy war but opposed direct American military action against Marxists in Central America facing bitter Congress opposition in the process He swam against the floodtide of George W Bush s neocon dominated administration warning against the Iraq war as a possible new Vietnam and criticising aspects of Bush s War on Terror He disconcerted the administration by arguing that the re establishment of Iraq would take as long as five years And he was influential in international social and economic policy working for the successful re settlement of millions of refugees in Southeast Asia following the Vietnam War issuing early warnings about the scourge of AIDS in Africa and successfully launching the North American Free Trade Agreement NAFTA George W Liebmann s incisive account is based on personal and shared experience but it is no hagiography beyond the author s discussions with Negroponte this book is deeply researched in US state papers and includes interviews with leading actors It will provide fascinating reading for anyone interested in the inside story of American diplomacy showing personal and policy struggles and the underlying fissures present even in the world s last remaining superpower IBSS: Political Science: 1992 British Library of Political and Economic Science,1993 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences
