A Further Manifestation of the Progress of the Gospel Among the Indians in New England Society for Propagation of the Gospel in New England,1865 *Tears of Repentance, Or, A Further Narrative of the Progress of the Gospel Amongst the Indians in New-England: Setting Forth, Not Only Their Present State and Condition, But Sundry Confessions of Sin by Diverse of the Said Indians, Wrought Upon by the Saving Power of the Gospel, Together with the Manifestation of Their Faith and Hope in Jesus Christ, and the Work of Grace Upon Their Hearts* John Eliot,1834

American Antiquarian Society. Proceedings American Antiquarian Society,1872 **Proceedings of the American Antiquarian Society** American Antiquarian Society,1873 The Science of the Soul in Colonial New England Sarah Rivett,2012-12-01 The Science of the Soul challenges long standing notions of Puritan provincialism as antithetical to the Enlightenment Sarah Rivett demonstrates that instead empiricism and natural philosophy combined with Puritanism to transform the scope of religious activity in colonial New England from the 1630s to the Great Awakening of the 1740s In an unprecedented move Puritan ministers from Thomas Shepard and John Eliot to Cotton Mather and Jonathan Edwards studied the human soul using the same systematic methods that philosophers applied to the study of nature In particular they considered the testimonies of tortured adolescent girls at the center of the Salem witch trials Native American converts and dying women as a source of material insight into the divine Conversions and deathbed speeches were thus scrutinized for evidence of grace in a way that bridged the material and the spiritual the visible and the invisible the worldly and the divine In this way the science of the soul was as much a part of seventeenth and eighteenth century natural philosophy as it was part of post Reformation theology Rivett s account restores the unity of religion and science in the early modern world and highlights the role and importance of both to transatlantic circuits of knowledge formation **Empires and Indigenous Peoples** Michael Maas,Fay A. Yarbrough,2024-09-03 The Romans who established their rule on three continents and the Europeans who first established new homes in North America interacted with communities of Indigenous peoples with their own histories and cultures Sweeping in its scope and rigorous in its scholarship Empires and Indigenous Peoples expands our understanding of their historical parallels and raises general questions about the nature of the various imperial encounters In this book leading scholars of ancient Roman and early anglophone North America examine the mutual perceptions of the Indigenous and the imperial actors They investigate the rhetoric of civilization and barbarism and its expression in military policies Indigenous resistance survival and adaptation form a major theme The essays demonstrate that power relations were endlessly adjusted identities were framed and reframed and new mutual knowledge was produced by all participants Over time cultures were transformed across the board on political social religious linguistic ideological and economic levels The developments were complex with numerous groups enmeshed in webs of aggression opposition cooperation and integration Readers will see how Indigenous and imperial identities evolved in Roman and American lands Finally the authors consider

how American views of Roman activity influenced the development of American imperial expansion and accompanying Indigenous critiques They show how Roman imperial North American and Indigenous experiences have contributed to American notions of race religion and citizenship and given shape to problems of social inclusion and exclusion today

Rubin,2020-04-01 Tears of Repentance revisits and reexamines the familiar stories of intercultural encounters between Protestant missionaries and Native peoples in southern New England from the seventeenth to the early nineteenth centuries Focusing on Protestant missionaries accounts of their ideals purposes and goals among the Native communities they served and of the religion as lived experienced and practiced among Christianized Indians Julius H Rubin offers a new way of understanding the motives and motivations of those who lived in New England s early Christianized Indian village communities Rubin explores how Christian Indians recast Protestant theology into an Indianized quest for salvation from their worldly troubles and toward the promise of an otherworldly paradise The Great Awakening of the eighteenth century reveals how evangelical pietism transformed religious identities and communities and gave rise to the sublime hope that New Born Indians were children of God who might effectively contest colonialism With this dream unfulfilled the exodus from New England to Brothertown envisioned a separatist Christian Indian commonwealth on the borderlands of America after the Revolution Tears of Repentance is an important contribution to American colonial and Native American history offering new ways of examining how Native groups and individuals recast Protestant theology to restore their Native communities and cultures *John Dunton's Letters from New-England* John Dunton,1867 Subject Matter Joyce E. Chaplin,2009-07-01 By placing the history of science and medicine at the very center of the story of early English colonization Chaplin shows how contemporary European theories of nature and science dramatically influenced relations between the English and Indians within the
