*Yearbook International Tribunal for the Law of the Sea* Martinus Nijhoff Publishers, 2004-12-01 The International Tribunal for the Law of the Sea is an independent judicial body established by the United Nations Convention on the Law of the Sea to adjudicate disputes arising out of the interpretation and application of the Convention The Tribunal is open to States Parties to the Convention It is also open to entities other than States Parties States and international organizations non parties to the Convention and natural or juridical persons in cases provided for in the Convention or other agreements conferring jurisdiction on the Tribunal The Yearbook will give lawyers scholars students as well as the general public easy access to information about the jurisdiction procedure and organization of the Tribunal and also about its composition and activities in 2003 The Yearbook is prepared by the Registry of the Tribunal and is also available in French *Annuaire* 2003

*United Nations Publications* ,2005      **The Oceans in the Nuclear Age** David D. Caron, Harry N. Scheiber, 2014-07-17 The advent of the nuclear age in 1945 fundamentally altered the course of human events The oceans are not the focus of the nuclear age but the affairs of the oceans are deeply woven into the history of that age Knowledge of what the nuclear age has meant for the oceans however is highly fragmented and there exists a surprising gap in research on the impact of the nuclear age on the oceans and on ocean law and policy Ranging from dumped wastes to transportation to security this study frames the complex multidimensional set of relationships between the oceans and the nuclear age and illuminates patterns of impact and response in ocean law This timely expanded edition includes a new chapter by Lt Todd Hutchins USN on Nuclear Risks in Coastal Areas Legal and Regulatory Responses It provides a full discussion of the 2011 coastal Fukushima Nuclear Power Plant disaster together with analysis more generally of the challenges to the environment and to the legal order globally that are posed by coastal siting of nuclear power plants      *HMSO Agency Catalogue* Great Britain. Her Majesty's Stationery Office, 2004      **International Law** Sanford Silverburg, 2018-04-19 This book offers diverse multinational perspectives on traditional and emergent issues in the practice and study of international law It deals with the evolving foundations of international law and covers a wide range of issues that link international politics to international law      Coastal State Jurisdiction over Living Resources in the Exclusive Economic Zone Camille Goodman, 2021-11-15 Under the 1982 United Nations Convention on the Law of the Sea coastal States have sovereign rights to explore exploit conserve and manage the living resources of the 200 nautical mile exclusive economic zone EEZ However 40 years after the adoption of the Convention there is still a great deal of uncertainty about the nature and extent of these sovereign rights Coastal State Jurisdiction over Living Resources in the Exclusive Economic Zone examines the ways in which coastal States can exercise authority on the basis of their sovereign rights over living resources in the EEZ Dr Camille Goodman explores the key concepts of fishing and fishing related activities to establish what vessels and which activities can be regulated by coastal States canvasses the criteria and conditions that coastal States can apply as part of regulating foreign access to their resources and considers the

regulation of unlicensed foreign fishing vessels in transit through the EEZ Goodman also examines how such regulations can be enforced within the EEZ and the circumstances under which enforcement can take place beyond the EEZ following hot pursuit A review and analysis of the practice of 145 States identifies the contemporary extent of coastal State jurisdiction over living resources in the EEZ and offers a unique fresh perspective on the underlying and enduring nature of that jurisdiction Underpinned by a rigorous examination of the Convention jurisprudence and literature as well as being supported by carefully documented State practice Coastal State Jurisdiction over Living Resources in the Exclusive Economic Zone proposes a more predictable framework within which to resolve jurisdictional challenges in the EEZ

**The Protection of the Underwater Cultural Heritage** Sarah Dromgoole, 2006-09-01 The legal protection of the underwater cultural heritage is a field in which there is growing international interest Shipwrecks and other underwater cultural remains in every maritime zone are threatened both by activities directed at them such as treasure hunting and by activities incidentally affecting them such as mineral exploration and exploitation pipeline and cable laying dredging and fishing Since the first edition of this collection published in 1999 the urgent need for an international legal

framework to regulate these activities has been formally recognised by the adoption in 2001 of the UNESCO Convention on the Protection of the Underwater Cultural Heritage While the prospects for this Convention remain uncertain it will undoubtedly have a profound influence on national laws and practice in this field This second collection of essays examines the present state of law policy and practice in sixteen different jurisdictions around the world in light of the 2001 Convention Among other things the viewpoint of each jurisdiction in respect of the Convention is considered and the impact that the Convention is already having and is likely to have in the future is explored Eight of the essays are entirely new and several additional jurisdictions are covered Finland the Federated States of Micronesia the Netherlands New Zealand and Norway The other essays have been thoroughly updated and revised to take account of the Convention The contributors come from a variety of backgrounds but all have specialist knowledge and experience of their particular jurisdiction and a keen interest in the field

**Worldmark Encyclopedia of the Nations: United Nations**, 2007      **The Quest for Sustainable International Fisheries** Evelyne Meltzer, Susanna Fuller, 2009 A publication of the National Research Council of Canada Monograph Publishing Program      *'Boat Refugees' and Migrants at Sea: A Comprehensive Approach* Violeta Moreno-Lax, Efthymios Papastavridis, 2016-11-21 This book aims to address boat migration with a holistic approach The different chapters consider the multiple facets of the phenomenon and the complex challenges they pose bringing together knowledge from several disciplines and regions of the world within a single collection Together they provide an integrated picture of transnational movements of people by sea with a view to making a decisive contribution to our understanding of current trends and future perspectives and their treatment from legal doctrinal legal theoretical and non legal angles The final goal is to unpack the tension that exists between security concerns and individual rights in this context and identify tools and strategies to adequately manage its various components garnering an inter regional multi disciplinary dialogue including input from international law law of the sea maritime security migration and refugee studies and human rights to address the position of migrants at sea thoroughly      *Constitutional Law in Malta* Kevin Aquilina, 2018-02-27 Derived from the renowned multi volume International Encyclopaedia of Laws this very useful analysis of constitutional law in Malta provides essential information on the country's sources of constitutional law its form of government and its administrative structure Lawyers who handle transnational matters will appreciate the clarifications of particular terminology and its application Throughout the book the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure Thorough coverage by a local expert fully describes the political system the historical background the role of treaties legislation jurisprudence and administrative regulations The discussion of the form and structure of government outlines its legal status the jurisdiction and workings of the central state organs the subdivisions of the state its decentralized authorities and concepts of citizenship Special issues include the legal position of aliens foreign relations taxing and spending powers emergency laws the power of the military and the constitutional

relationship between church and state Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable time saving tool for both practising and academic jurists Lawyers representing parties with interests in Malta will welcome this guide and academics and researchers will appreciate its value in the study of comparative constitutional law

**Terror on the High Seas** Yonah Alexander, Tyler Richardson, 2009-09-03 A provocative new look at an important security topic examines terrorist threats and attacks on shipping and ports and provides strategies for safety Terror on the High Seas From Piracy to Strategic Challenge is a provocative look at maritime security and the steps that must be taken if terrorist threats are to be nullified From the Achille Lauro hijacking to the bombing of the USS Cole to attacks on shipping channels terrorists have employed a variety of tactics both successful and unsuccessful These have included the smuggling of arms and plots to bomb shipyards as well as attacks on Merchant Marine ships maritime offices fuel storage facilities and Navy personnel ships and facilities on shore and in port This book constitutes the first research effort after the unprecedented attacks of September 11 2001 to provide government industry and the academic and policy communities with a major resource on potential threats to the maritime environment Assuming that past tactics as well as a variety of other unconventional attacks will be utilized by both domestic and international groups well into the 21st century the book sagely outlines the response needed from government and industry to meet the coming challenges

**Statelessness** William Conklin, 2014-12-01 Statelessness is a legal status denoting lack of any nationality a status whereby the otherwise normal link between an individual and a state is absent The increasingly widespread problem of statelessness has profound legal social economic and psychological consequences but also gives rise to the paradox of an international community that claims universal standards for all natural persons while allowing its member states to allow

statelessness to occur In this powerfully argued book Conklin critically evaluates traditional efforts to recognize and reduce statelessness The problem he argues rests in the obligatory nature of law domestic or international By closely analysing a broad spectrum of court and tribunal judgments from many jurisdictions Conklin explains how confusion has arisen between two discourses the one discourse inside the other as to the nature of the international community One discourse a surface discourse describes a community in which international law justifies a state s freedom to confer withdraw or withhold nationality This international community incorporates state freedom over nationality matters bringing about the de jure and effective stateless condition The other discourse an inner discourse highlights a legal bond of socially experienced relationships Such a bond judicially referred to as effective nationality is binding upon all states and where such a bond exists harm to a stateless person represents harm to the international community as a whole      **The Law of the Sea** ,1997 The bibliography is divided into 22 subject categories based mainly on the major topics of the United Nations Convention on the Law of the Sea The books articles within each category are listed alphabetically by author a complete author index is also included      **International Law and Transnational Organized Crime** Pierre Hauck,Sven Peterke,2016 Examining the various sources of law that form this area of growing academic and practical importance International Law and Transnational Organised Crime provides readers with a thorough understanding of the key concepts and legal instruments in international law governing transnational organised crime
