The Cambridge History of the Native Peoples of the Americas Bruce G. Trigger, Wilcomb E. Washburn, Richard E. W. Adams, Murdo J. MacLeod, Frank Salomon, Stuart B. Schwartz, 1996 Library holds volume 2 part 2 only     El estado de Oaxaca Jorge Pablo de Aguinaco, 2001     Runaway Daughters Kathryn A. Sloan, 2008-11-15 Against the backdrop of nineteenth century Oaxaca City Kathryn Sloan analyzes rapto trials cases of abduction and or seduction of a minor to gain insight beyond the actual crime and into the reality that testimonies by parents their children and witnesses reveal about courtship practices generational conflict the negotiation of honor and the relationship between the state and its working class citizens in post colonial Mexico Unlike the colonial era where paternal rule was absolute Sloan found that the state began to usurp parental authority in the home with the introduction of liberal reform laws As these laws began to shape the terms of civil marriage the courtroom played a more significant role in the resolution of familial power struggles and the restoration of family honor in rapto cases Youths could now exert a measure of independence by asserting their rights to marry whom they wished In examining these growing rifts between the liberal state and familial order within its lower order citizens Sloan highlights the role that youths and the working class played in refashioning systems of marriage honor sexuality parental authority and filial obedience     *The Roots of Conservatism in Mexico* Benjamin T. Smith, 2012-11-15 The Roots of Conservatism is the first attempt to ask why over the past two centuries so many Mexican peasants have opted to ally with conservative groups rather than their radical counterparts Blending socioeconomic history cultural analysis and political narrative Smith s study begins with the late Bourbon period and moves through the early republic the mid nineteenth century Reforma the Porfiriato and the Revolution when the Mixtecs rejected Zapatista offers of land distribution ending with the armed religious uprising known as the last Cristiada a desperate Cold War bid to rid the region of impious communist governance In recounting this long tradition of regional conservatism Smith emphasizes the influence of religious belief church ritual and lay clerical relations both on social relations and on political affiliation He posits that many Mexican peasants embraced provincial conservatism a variant of elite or metropolitan conservatism which not only comprised ideas on property hierarchy and the state but also the overwhelming import of the church to maintaining this system     **Migración en el Occidente de México** Gustavo López Castro, Sergio Pardo Galván, 1988     *El constitucionalismo regional y la Constitución de 1917* Catherine Andrews , El constitucionalismo regional y la Constitución de 1917 Tomo III La historia de la Constitución de 1917 no se puede contar desde la perspectiva de la Ciudad de México ni siquiera si se embellece esta narrativa con referencias a la ciudad de Querétaro o a los ejércitos revolucionarios Para entender los debates constituyentes hay que reconocer que se desarrollaban en relación estrecha y de codependencia política particular de los estados y sus preocupaciones institucionales     **Decolonizing Primary English Language Teaching** Mario E. López-Gopar, 2016-06-10 This book tells the story of a project in Mexico which aimed to decolonize primary English teaching by building on research

that suggests Indigenous students are struggling in educational systems and are discriminated against by the mainstream. Led by their instructor a group of student teachers aspired to challenge the apparent world phenomenon that associates English with progress and make English work in favor of Indigenous and othered children's ways of being. The book uses stories as well as multimodality in the form of photos and videos to demonstrate how the English language can be used to open a dialogue with children about language ideologies. The approach helps to support minoritized and Indigenous languages and the development of respect for linguistic human rights worldwide.

*Cold War, Deadly Fevers* Marcos Cueto, 2007-05-04 Publisher description

Women Teachers of Rural Oaxaca Jayne Howell, 2023-01-30 A 2023 Choice Reviews Outstanding Academic Title Mexican maestras women teachers

became an ubiquitous presence in the countryside following the Mexican Revolution and have continued to make valuable contributions to their students and society over the past century. Dedicated rural teachers are assigned to some of the most remote communities in Mexico and frequently spend years living away from their homes and families while teaching. Drawing on agentive women's narratives, this ethnographic study explores how the acquisition of schooling and employment empowers maestras to defend themselves, take care of themselves and their loved ones, make informed personal decisions, and promote societal change by serving as role models for their students, relatives, and neighbors.

After Spanish Rule Mark Thurner, Andrés Guerrero, 2003-11-17. The first collection of essays to make a historically grounded, specifically Latin Americanist intervention in postcolonial studies.

Breaking the Poverty Cycle Susan Pick de Weiss, Jenna Sirkin, 2010. Pick and Sirkin show how IMIFAP, a Mexican NGO, has employed a development strategy to encourage the establishment of a participatory, healthy, and educated citizenry. The program strategy is grounded in Amartya Sen's approach to sustainable development through expanding individual capabilities and freedoms. It presents the Framework for Enabling Empowerment (FrEE) and the step-by-step strategy programming for choice based on the practical experience and evaluation of IMIFAP's programs. The end goal is to achieve sustainable community and individual development that can be expanded across a variety of life domains: social, economic, political, education, health, and psychological. The book shows how community development can be enhanced if people are enabled to make accountable choices and expand their alternatives. International development efforts will not be sustainable if we continue to build schools without quality teachers, health clinics without enhancing logistical and psychological access, and improving quality of care and laws that are not enforced. Institutions will only flourish if their leaders and bureaucrats enhance their personal capabilities. The central premise of the book is that enhancing skills, knowledge, and reducing psychological and contextual barriers to change are central and often neglected aspects of sustainable development. IMIFAP was founded in 1984. Through its health promotion and poverty reduction work, it has reached over 19 million people in 14 countries through over 40 different programs and over 280 educational materials with support from over 300 funding agencies and government and private institutions. Its mission is to enable society's poor and vulnerable to take charge of their lives through helping them develop their potential. We have found that through the IMIFAP "I want to" / "I can" programs, people take the control of their lives in their own hands. Examples of these results are presented, including numerous testimonies.

**Faith and Impiety in Revolutionary Mexico** M. Butler, 2015-12-11. While Mexico's spiritual history after the 1910 Revolution is often essentialized as a church-state power struggle, this book reveals the complexity of interactions between revolution and religion. Looking at anticlericalism, indigenous cults, and Catholic pilgrimage, these authors reveal that the Revolution was a period of genuine religious change as well as social upheaval.
