Quintana Roo, procesos políticos y democracia María Cristina Castro, 1986 *Socio-Environmental Regimes and Local Visions* Minerva Arce Ibarra, Manuel Roberto Parra Vázquez, Eduardo Bello Baltazar, Luciana Gomes de Araujo, 2020-09-13

This book presents oral histories collective dialogues and analyses of rural and indigenous livelihoods facing global socio environmental regime change in Latin America LA Since the late twentieth century rural and indigenous producers in LA including agriculturists coffee growers as well as small scale farmers fishers and others have had to resist cope with or adapt to a range of neoliberal socio environmental regimes that impact their territories and associated resources including water production systems and ultimately their cultural traditions In response rural producers are using local visions and innovation niches to decide what when and how to resist cope with uncertainty and still be successful in using their customary laws to retain their land rights and livelihoods This book presents a range of ethnically diverse case studies from LA which addresses socio environmental educational and law regimes effects using transdisciplinary research approaches in rural traditional and indigenous production systems Based on both the results and insights gained into how producers are resisting and adapting to these regimes as well as decades of research carried out in LA rural territories by the participating authors the book puts forward a baseline for devising new public policies that are better suited to the real challenges of livelihoods poverty and environmental degradation in LA These recommendations are rooted in post development thinking they promote territorial public policy with social inclusion and a human s rights approach The book draws on over 20 years of research carried out by LA s academics and their undergraduate and graduate students who have addressed collaborative work participatory research and transdisciplinary approaches with rural commons and communities in LA It features 19 case studies with contributions from Argentina Bolivia Brazil Colombia Cuba Honduras and Mexico *General Technical Report RM.* ,1995

Dynamics and Conflicts in a Cross-Border Region Mónica Toussaint, Marisol Garzón, 2023-04-07 This volume explores several issues pertinent to the history of the cross border region between Mexico Guatemala and Belize from new explanatory approaches in order to reflect on a history and a reality that are shared by three neighbouring societies emphasizing the actors and local practices that shape cross border dynamics This analysis is contributed by eight specialists who study aspects that are fundamental to our understanding of a process involving various persons and institutions in a specific space Dynamics and Conflicts in a Cross Border Region addresses an issue of current relevance through studies that focus on the problems inhabitants of the region have faced over the years the realities of a porous border the existence of family trade and cultural ties that surpass the administrative limits negotiated by the states late in the 19th century the impact of the internal conflicts of neighbour countries in the border space experiences of exile and refuge at the border and the violence they entail the role of local authorities in managing regional problems the pending task of cross border territorial organization the efforts of local institutions to promote regional development and the presence of phenomena like

contraband drug trafficking organized crime and human trafficking in an increasingly complex and challenging space This provides a way to use the region s history as a springboard for conceiving of mechanisms by which we can together face the challenges presented today to the inhabitants of the cross border region between Mexico Guatemala and Belize This book will be a valuable resource for students and scholars of Latin American history and Social History Phytochemistry of Medicinal Plants John T. Arnason,Rachel Mata,John T. Romeo,2013-11-11 Phytochemicals from medicinal plants are receiving ever greater attention in the scientific literature in medicine and in the world economy in general For example the global value of plant derived pharmaceuticals will reach 500 billion in the year 2000 in the OECD countries In the developing countries over the counter remedies and ethical phytomedicines which are standardized toxicologically and clinically defined crude drugs are seen as a promising low cost alternatives in primary health care The field also has benefited greatly in recent years from the interaction of the study of traditional ethnobotanical knowledge and the application of modern phytochemical analysis and biological activity studies to medicinal plants The papers on this topic assembled in the present volume were presented at the annual meeting of the Phytochemical Society of North America held in Mexico City August 15 19 1994 This meeting location was chosen at the time of entry of Mexico into the North American Free Trade Agreement as another way to celebrate the closer ties between Mexico the United States and Canada The meeting site was the historic Calinda Geneve Hotel in Mexico City a most appropriate site to host a group of phytochemists since it was the address of Russel Marker Marker lived at the hotel and his famous papers on steroidal saponins from *Dioscorea composita* which launched the birth control pill bear the address of the hotel **Same Sex Couples - Comparative Insights on Marriage and Cohabitation** Macarena Sáez,2015-05-06 This book shows six different realities of same sex families They range from full recognition of same sex marriage to full invisibility of gay and lesbian individuals and their families The broad spectrum of experiences presented in this book share some commonalities in all of them legal scholars and civil society are moving legal boundaries or thinking of spaces within rigid legal systems for same sex families to function In all of them there have been legal claims to recognize the existence of same sex families The difference between them lies in the response of courts Regardless of the type of legal system when courts have viewed claims of same sex couples and their families as problems of individual rights they have responded with a constitutional narrative protecting same sex couples and their families When courts respond to these claims with rigid concepts of what a family is and what marriage is as if legal concepts were unmodifiable same sex couples have remained outside the protection of the law Until forty years ago marriage was the only union considered legitimate to form a family Today more than 30 countries have granted rights to same sex couples including several that have opened up marriage to couples of the same sex Every day there is a new bill being discussed or a new claim being brought to courts seeking formal recognition of same sex couples Not all countries are open to changing their legal structures to accommodate same sex couples but even those with no visible changes are witnessing new voices in their communities

challenging the status quo and envisioning more flexible legal systems **Bullying, Impact on Health, and Beyond** Jorge C. Srabstein, 2024 Initially this book was intended to raise awareness among health and public health professionals about what is known about the evolving understanding of the multifaceted and toxic nature of bullying as a psychosocial stressor linked to a wide range of morbidity and prevalent across social settings along the lifespan and around the world In this context this book was primarily aimed at fostering the role of health and public health practitioners in developing strategies for the prevention and detection of bullying and treatment of its associated health risks The recognition during the process of developing this book that bullying is a type of maltreatment which may be associated with other forms of victimization led me to go beyond the notion of bullying and explore the spectrum of maltreatment **Pot-Honey** Patricia Vit, Silvia R. M. Pedro, David Roubik, 2013-01-17 The stingless bees are one of the most diverse attractive fascinating conspicuous and useful of all the insect groups of the tropical world This is a formidable and contentious claim but I believe it can be backed up They are fifty times more species rich than the honey bees the other tribe of highly eusocial bees They are ubiquitous in the tropics and thrive in tropical cities In rural areas they nest in a diversity of sites and are found on the flowers of a broad diversity of crop plants Their role in natural systems is barely studied but they almost certainly deserve that hallowed title of keystone species They are popular with the general public and are greatly appreciated in zoos and gardens The chapters of this book provide abundant further evidence of the ecological and economic importance of stingless bees **Evaluacion de Tierras Y Recursos Para la Planeacion Nacional en Las Zonas Tropicales**, 1987 Ethnopharmacology Michael Heinrich, Anna K. Jäger, 2015-10-12 Ethnopharmacology is one of the world's fastest growing scientific disciplines encompassing a diverse range of subjects It links natural sciences research on medicinal aromatic and toxic plants with socio cultural studies and has often been associated with the development of new drugs The Editors of Ethnopharmacology have assembled an international team of renowned contributors to provide a critical synthesis of the substantial body of new knowledge and evidence on the subject that has emerged over the past decade Divided into three parts the book begins with an overview of the subject including a brief history ethnopharmacological methods the role of intellectual property protection key analytical approaches the role of ethnopharmacology in primary secondary education and links to biodiversity and ecological research Part two looks at ethnopharmacological contributions to modern therapeutics across a range of conditions including CNS disorders cancer bone and joint health and parasitic diseases The final part is devoted to regional perspectives covering all continents providing a state of the art assessment of the status of ethnopharmacological research globally A comprehensive critical synthesis of the latest developments in ethnopharmacology Includes a section devoted to ethnopharmacological contributions to modern therapeutics across a range of conditions Contributions are from leading international experts in the field This timely book will prove invaluable for researchers and students across a range of subjects including ethnopharmacology ethnobotany medicinal plant research and natural products research Ethnopharmacology A Reader is
