## Frances Wright:

*Fanny Wright* Celia Morris, 1984 Frances Wright dared to take Thomas Jefferson seriously when he wrote All men are created equal and to assume that men meant women as well Born in Scotland in 1795 she came to the United States in 1818 and spent half her adult life here she died in Ohio in 1852 ending a lifetime devoted to promoting equality among the races and the sexes The Marquis de Lafayette called her his adored Fanny and paid court so openly that he scandalized even his own family The first woman to act publicly to oppose slavery The pampered daughter of a highly stratified class society she cast her lot with the working people risking her health her fortune and her good name to realize the promise of the Declaration of Independence With a boldness rare in women of her day she attacked in print and in lecture halls throughout the country an economic system that allowed not only black slavery in the South but what she called wage slavery in the North With the exception perhaps of Walt Whitman she wrote more powerfully of sexual experience than any other American the nineteenth century **Memoir of Frances Wright** Amos Gilbert, 1855 Frances Wright William Randall Waterman, 1925 Biography, notes and political letters of Frances Wright D'Arusmont afterwards D'ARUSMONT WRIGHT (Frances), 1830 **Frances Wright and the "great Experiment"** Margaret Lane, 1972 *Reason, Religion, and Morals* Frances Wright, 2020-11-12 Originally published as Course of Popular Lectures the works collected in this volume display the gift for oratory and range of progressive ideas that made Frances Wright 1795 1852 both a sought after lecturer and a controversial figure in early nineteenth century America Born in Scotland this pioneering freethinker and abolitionist emigrated to America in her twenties and became friends with Thomas Jefferson and James Madison In 1828 she joined Robert Dale Owen s socialist community at New Harmony Indiana and helped him edit his New Harmony Gazette The next year she and Owen moved to New York City where they published Free Enquirer which advocated liberalized divorce laws birth control free state run secular education and organization of the disadvantaged working class It was at this time that she began delivering the popular lectures here collected Some persistent themes that run throughout these well argued pieces are the importance of free impartial inquiry conducted in a scientific spirit and not influenced by religious superstition or popular prejudice the need for better universal education that trains young minds in scientific inquiry rather than religious dogma the advantage of focusing on the facts of the here and now rather than theological speculations and the failure of American society to live up to its noble ideals of equality and justice for all With an insightful introduction by Wright scholar Susan S Adams Emeritus Professor of English Northern Kentucky University these stimulating lectures by an early and little known feminist and freethinker will be of interest to students and scholars of women s studies humanism and freethought

Baker,Buster G. Smith,2015-09-25 A rapidly growing number of Americans are embracing life outside the bounds of organized religion Although America has long been viewed as a fervently religious Christian nation survey data shows that more and more Americans are identifying as not religious There are more non religious Americans than ever before yet social scientists have not adequately studied or typologized secularities and the lived reality of secular individuals in America has not been astutely analyzed American Secularism documents how changes to American society have fueled these shifts in the non religious lands      **Comprehensive Calendar of Bicentennial Events** American Revolution Bicentennial Administration,1976-02      **Women & Radicalism 19thc V2** Mike Sanders,2021-04-05 This important collection of writings is about and by women connected with social and political movements between 1799 1870 It also records the attitudes of the great radical reformers to the role of women in society and documents the vast cultural changes brought about by industrialisation Volume II focuses on the writings of Frances Wright an important figure in radical circles in both Britain and the US The collection draws together the following key material This collection will appeal to anyone with an interest in women s history and Victorian studies

were like In their pre suffrage world women who attracted attention were considered scandalous and it was largely uncommon for women to become celebrities Women who rose to fame in those times had to put up with societal standards for women on top of the lack of privacy and free speech This book provides the details and context to let us know the women who captured America s heart in the 19th century Rather than looking at influential women who strictly avoided notoriety it covers the lives of 18 celebrities like Lydia Maria Child Sojourner Truth and Jane Addams
