The New Atlantis Francis Bacon,1929      The New Atlantis Francis Bacon,2016-12-27 The New Atlantis By Sir Francis Bacon A Utopian Novel New Atlantis is an incomplete utopian novel by Sir Francis Bacon published in 1627 In this work Bacon portrayed a vision of the future of human discovery and knowledge expressing his aspirations and ideals for humankind The novel depicts the creation of a utopian land where generosity and enlightenment dignity and splendour piety and public spirit are the commonly held qualities of the inhabitants of the mythical Bensalem The plan and organisation of his ideal college Salomon s House or Solomon s House envisioned the modern research university in both applied and pure sciences The novel depicts a mythical island Bensalem which is discovered by the crew of a European ship after they are lost in the Pacific Ocean somewhere west of Peru The minimal plot serves the gradual unfolding of the island its customs but most importantly its state sponsored scientific institution Salomon s House which house or college is the very eye of this kingdom      Francis Bacon's New Atlantis Bronwen Price,2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license This volume of eight new essays by leading scholars provides a stimulating dialogue between a range of critical perspectives Encompassing the fields of cultural history history of science literature and politics the collection explores The New Atlantis complex location within Bacon s oeuvre and its negotiations with cultural debates of the past and present Often regarded as the apotheosis of Bacon s ideas through its depiction of an advanced scientific society it is also read as a seminal work of science fiction      **New Atlantis** Francis Bacon,2024-01-25 We sailed from Peru where we had continued for the space of one whole year for China and Japan by the South Sea taking with us victuals for twelve months and had good winds from the east though soft and weak for five months space and more But the wind came about and settled in the west for many days so as we could make little or no way and were sometime in purpose to turn back But then again there arose strong and great winds from the south with a point east which carried us up for all that we could do towards the north by which time our victuals failed us though we had made good spare of them So that finding ourselves in the midst of the greatest wilderness of waters in the world without victuals we gave ourselves for lost men and prepared for death Yet we did lift up our hearts and voices to God above who showeth his wonders in the deep beseeching him of his mercy that as in the beginning he discovered the face of the deep and brought forth dry land so he would now discover land to us that we might not perish And it came to pass that the next day about evening we saw within a kenning before us towards the north as it were thick clouds which did put us in some hope of land knowing how that part of the South Sea was utterly unknown and might have islands or continents that hitherto were not come to light Wherefore we bent our course thither where we saw the appearance of land all that night and in the dawning of the next day we might plainly discern that it was a land flat to our sight and full of boscage which made it show the more dark And after an hour and a half s sailing we entered into a good haven being the port of a fair city not great indeed but well built and that gave a

pleasant view from the sea and we thinking every minute long till we were on land came close to the shore and offered to land But straightways we saw divers of the people with bastons in their hands as it were forbidding us to land yet without any cries of fierceness but only as warning us off by signs that they made Whereupon being not a little discomforted we were advising with ourselves what we should do During which time there made forth to us a small boat with about eight persons in it whereof one of them had in his hand a tipstaff of a yellow cane tipped at both ends with blue who came aboard our ship without any show of distrust at all And when he saw one of our number present himself somewhat before the rest he drew forth a little scroll of parchment somewhat yellower than our parchment and shining like the leaves of writing tables but otherwise soft and flexible and delivered it to our foremost man In which scroll were written in ancient Hebrew and in ancient Greek and in good Latin of the school and in Spanish these words Land ye not none of you and provide to be gone from this coast within sixteen days except you have further time given you Meanwhile if you want fresh water or victuals or help for your sick or that your ship needeth repairs write down your wants and you shall have that which belongeth to mercy This scroll was signed with a stamp of cherubim wings not spread but hanging downwards and by them a cross This being delivered the officer returned and left only a servant with us to receive our answer F BACON      **The New Atlantis** Francis Bacon,2018-07-05 The New Atlantis by Sir Francis Bacon New Atlantis is an incomplete utopian novel by Sir Francis Bacon published in 1627 In this work Bacon portrayed a vision of the future of human discovery and knowledge expressing his aspirations and ideals for humankind The novel depicts the creation of a utopian land where generosity and enlightenment dignity and splendour piety and public spirit are the commonly held qualities of the inhabitants of the mythical Bensalem Bacon s literary executor Dr Rowley published The New Atlantis in 1627 the year after the author s death It seems to have been written about 1623 during that period of literary activity which followed Bacon s political fall None of Bacon s writings gives in short apace so vivid a picture of his tastes and aspirations as this fragment of the plan of an ideal commonwealth The generosity and enlightenment the dignity and splendor the piety and public spirit of the inhabitants of Bensalem represent the ideal qualities which Bacon the statesman desired rather than hoped to see characteristic of his own country and in Solomon s House we have Bacon the scientist indulging without restriction his prophetic vision of the future of human knowledge      **The New Atlantis** Eduardo Filipe Freitas,2017-08-28 In this work sir Francis Bacon portrayed a vision of the future of human discovery and knowledge expressing his aspirations and ideals for humankind      **The New Atlantis** Francis Bacon,2016-04-21 New Atlantis was originally published in 1627 the year after the author s death by his literary executor speculation is that Bacon wrote his story in 1623 or 1624 In this work Bacon portrayed a vision of the future of human discovery and knowledge expressing his aspirations and ideals for humankind The novel depicts the creation of a utopian land where generosity and enlightenment dignity and splendour piety and public spirit are the commonly held qualities of the inhabitants Unlike many of his other major works Bacon wrote The New Atlantis in English and then had it

translated into Latin an indication that he intended it for a wider English speaking audience NAE is publishing this volume in the original English version in accordance with this intention

**The New Atlantis** Sir Francis Bacon, 2016-01-26 The New Atlantis By Sir Francis Bacon An Incomplete Utopian Novel New Atlantis is an incomplete utopian novel by Sir Francis Bacon published in 1627 In this work Bacon portrayed a vision of the future of human discovery and knowledge expressing his aspirations and ideals for humankind The novel depicts the creation of a utopian land where generosity and enlightenment dignity and splendour piety and public spirit are the commonly held qualities of the inhabitants of the mythical Bensalem The plan and organisation of his ideal college Salomon s House or Solomon s House envisioned the modern research university in both applied and pure sciences

INTRODUCTORY NOTE Bacon s literary executor Dr Rowley published The New Atlantis in 1627 the year after the author s death It seems to have been written about 1623 during that period of literary activity which followed Bacon s political fall None of Bacon s writings gives in short space so vivid a picture of his tastes and aspirations as this fragment of the plan of an ideal commonwealth The generosity and enlightenment the dignity and splendor the piety and public spirit of the inhabitants of Bensalem represent the ideal qualities which Bacon the statesman desired rather than hoped to see characteristic of his own country and in Solomon s House we have Bacon the scientist indulging without restriction his prophetic vision of the future of human knowledge No reader acquainted in any degree with the processes and results of modern scientific inquiry can fail to be struck by the numerous approximations made by Bacon s imagination to the actual achievements of modern times The plan and organization of his great college lay down the main lines of the modern research university and both in pure and applied science he anticipates a strikingly large number of recent inventions and discoveries In still another way is The New Atlantis typical of Bacon s attitude In spite of the enthusiastic and broad minded schemes he laid down for the pursuit of truth Bacon always had an eye to utility The advancement of science which he sought was conceived by him as a means to a practical end the increase of man s control over nature and the comfort and convenience of humanity For pure metaphysics or any form of abstract thinking that yielded no fruit he had little interest and this leaning to the useful is shown in the practical applications of the discoveries made by the scholars of Solomon s House Nor does the interest of the work stop here It contains much both in its political and in its scientific ideals that we have as yet by no means achieved but which contain valuable elements of suggestion and stimulus for the future

**New Atlantis** Francis Bacon, 2021-04-10 We sailed from Peru where we had continued for the space of one whole year for China and Japan by the South Sea taking with us victuals for twelve months and had good winds from the east though soft and weak for five months space and more But the wind came about and settled in the west for many days so as we could make little or no way and were sometime in purpose to turn back But then again there arose strong and great winds from the south with a point east which carried us up for all that we could do towards the north by which time our victuals failed us though we had made good spare of them So that finding ourselves in the midst of the greatest wilderness of waters in the world without victuals

we gave ourselves for lost men and prepared for death Yet we did lift up our hearts and voices to God above who showeth his wonders in the deep beseeching him of his mercy that as in the beginning he discovered the face of the deep and brought forth dry land so he would now discover land to us that we might not perish And it came to pass that the next day about evening we saw within a kenning before us towards the north as it were thick clouds which did put us in some hope of land knowing how that part of the South Sea was utterly unknown and might have islands or continents that hitherto were not come to light Wherefore we bent our course thither where we saw the appearance of land all that night and in the dawning of the next day we might plainly discern that it was a land flat to our sight and full of boschage which made it show the more dark And after an hour and a half s sailing we entered into a good haven being the port of a fair city not great indeed but well built and that gave a pleasant view from the sea and we thinking every minute long till we were on land came close to the shore and offered to land But straightways we saw divers of the people with bastons in their hands as it were forbidding us to land yet without any cries of fierceness but only as warning us off by signs that they made Whereupon being not a little discomforted we were advising with ourselves what we should do

**Francis Bacon's New Atlantis in the Foundation of Modern Political Thought** Kimberly Hurd Hale,2013-10-10 Francis Bacon long considered a minor figure in the founding of modern political thought is now recognized as one of its foremost thinkers Bacon not only championed a new type and method of scientific inquiry he also developed a plan for how modern society could be re ordered to accommodate and promote scientific progress Bacon s scientific writings cannot be wholly understood apart from his political writings and many of his works combine the two topics so subtly that it is difficult to even place them in a definitive category in this book Kimberly Hurd Hale identifies the thread in Bacon s body of work that links modern science and liberalism Hale provides a detailed analysis of New Atlantis examining Bacon s place in the founding of modern political philosophy and the ways he relates to Plato Machiavelli and Hobbes Hurd argues that Bacon s demonstration of scientific rule in the New Atlantis is not meant as a blueprint for modern society rather it shows us the dangers of a scientific society devoid of liberty By examining what is troubling about the New Atlantis this book explains what problems lead to the emergence of Atlantean societies i e societies that are prosperous ambitious and doomed It shows that Bacon s portrait of Bensalem may provide the light necessary to guide those of us living in a world shaped by modern science through the dangerous seas

*The New Atlantis* Bacon Francis,2023-05 The New Atlantis is a utopian work of fiction by Sir Francis Bacon The story is told by an unnamed narrator who recounts his voyage to the island of Bensalem a land where scientific knowledge and religious piety coexist in harmony Bensalem is a society that is centered around scientific research and discovery The people of Bensalem have a deep reverence for knowledge and devote their lives to the pursuit of scientific inquiry They have developed advanced technologies including flying machines and submarines that are used to explore the mysteries of the natural world The people of Bensalem also have a strong religious faith and their scientific pursuits are guided by their belief in a divine creator

They believe that scientific knowledge can bring them closer to God and that their discoveries are a gift from God The narrator is impressed by the people of Bensalem and their dedication to scientific research and religious piety He returns to Europe with a new perspective on the relationship between science and religion and a renewed sense of hope for the future Overall The New Atlantis is a visionary work that imagines a world where science and religion can coexist in harmony and where scientific inquiry can be pursued for the betterment of humanity **New Atlantis** Sir Francis Bacon,2017-09-26 New Atlantis is an incomplete utopian novel by Sir Francis Bacon published in 1627 In this work Bacon portrayed a vision of the future of human discovery and knowledge expressing his aspirations and ideals for humankind The novel depicts the creation of a utopian land where generosity and enlightenment dignity and splendour piety and public spirit are the commonly held qualities of the inhabitants of the mythical Bensalem The plan and organisation of his ideal college Salomon s House or Solomon s House envisioned the modern research university in both applied and pure sciences New Atlantis Francis Bacon,2020-12-19 New Atlantis is an incomplete utopian novel by Sir Francis Bacon published posthumously in 1626
