Mobility and Identity in US Genre Painting Lacey Baradel, 2020-12-30 This book examines the portrayal of themes of boundary crossing itinerancy relocation and displacement in US genre paintings during the second half of the long nineteenth century c 1860 1910 Through four diachronic case studies the book reveals how the high stakes politics of mobility and identity during this period informed the production and reception of works of art by Eastman Johnson 1824 1906 Enoch Wood Perry Jr 1831 1915 Thomas Hovenden 1840 95 and John Sloan 1871 1951 It also complicates art history's canonical understandings of genre painting as a category that seeks to reinforce social hierarchies and emphasize more rooted connections to place by instead privileging portrayals of social flux and geographic instability The book will be of interest to scholars working in art history literature American studies and cultural geography

A History of American Consumption Terrence Witkowski, 2017-09-14 The United States has been near the forefront of global consumption trends since the 1700s and for the past century and more Americans have been the world's foremost consuming people Informed and inspired by the literature from consumer culture theory as well as drawing from numerous studies in social and cultural history *A History of American Consumption* tells the story of the American consumer experience from the colonial era to the present in three cultural threads These threads recount the assignment of meaning to possessions and consumption the gendered ideology and allocation of consumption roles and resistance through anti consumption thought and action Brief but scholarly this book provides a thought provoking introduction to the topic of American consumption history informed by research in consumer culture

theory By examining and explaining the core phenomenon of product consumption and its meaning in the changing lives of Americans over time it provides a valuable contribution to the literature on the subjects of consumption and its causes and consequences Readable and insightful it will be of interest to scholars and advanced students in consumer behaviour advertising and marketing and business history

Young America Edward L. Widmer, 2000 This fascinating study examines the meteoric career of a vigorous intellectual movement rising out of the Age of Jackson As Americans argued over their destiny in the decades preceding the Civil War an outspoken new generation of ultra democratic writers entered the fray staking out positions on politics literature art and any other territory they could annex They called themselves Young America and they proclaimed a Manifest Destiny to push back frontiers in every category of achievement Their swagger found a natural home in New York City already bursting at the seams and ready to take on the world Young America's mouthpiece was the Democratic Review a highly influential magazine funded by the Democratic Party and edited by the brash and charismatic John O Sullivan The Review offered a fresh voice in political journalism and sponsored young writers like Hawthorne and Whitman early in their careers Melville too was influenced by Young America and provided a running commentary on its many excesses Despite brilliant promise the movement fell apart in the 1850s leaving its original leaders troubled over the darker destiny they had ushered in Their ambitious generation had failed to rewrite history as promised Instead their perpetual agitation helped set the stage for the Civil War Young America The Flowering of Democracy in New York City is without question the most complete examination of this captivating and original movement It also provides the first published biography of its leader John O Sullivan one of America's great rhetoricians Edward L Widmer enriches his unique volume by offering a new theory of Manifest Destiny as part of a broader movement of intellectual expansion in nineteenth century America

Reading American Art Professor and Department Head of Art & Art History Elizabeth Milroy, 1998-01-01 This anthology brings together twenty outstanding works of recent scholarship on the history of the visual arts in the United States from the colonial period to 1945 The selected essays all written within the past two decades reflect the interdisciplinary character of current art historiography in America and the

variety of approaches that contribute to the dynamism in the field The authors take up diverse subjects from colonial portraits to nineteenth century sculptures of women to photographic images of New York and invite those with a general knowledge of the history of American art to think more deeply about art and culture Employing many interpretive methodologies including iconology social history structuralism psychobiography and feminist theory the contributors to this volume combine close analysis of specific art objects or groups of objects with discussion of how these works of art operated within their cultural contexts The authors consider the works of such artists as John Singleton Copley Charles Willson Peale Winslow Homer Thomas Eakins Georgia O Keeffe and Jackson Pollock as they assess how paintings sculpture prints drawings and photographs have carried meaning within American society And they investigate how the conceptualization production and presentation of works of art both inform and are informed by prevailing attitudes toward the role of the arts and the artist in American culture

American Genre Painting Elizabeth Johns, 1991-01-01 American genre painting flourished in the thirty years before the Civil War a period of rapid social change that followed the election of President Andrew Jackson It has long been assumed that these paintings of farmers western boatmen and trappers blacks both slave and free middle class women urban urchins and other everyday folk served as records of an innocent age reflecting a Jacksonian optimism and faith in the common man In this enlightening book Elizabeth Johns presents a different interpretation arguing that genre paintings had a social function that related in a more significant and less idealistic way to the political and cultural life of the time Analyzing works by William Sidney Mount George Caleb Bingham David Gilmore Blythe Lilly Martin Spencer and others Johns reveals the humor and cynicism in the paintings and places them in the context of stories about the American character that appeared in sources ranging from almanacs and newspapers to joke books and political caricature She compares the productions of American painters with those of earlier Dutch English and French genre artists showing the distinctive interests of American viewers Arguing that art is socially constructed to meet the interests of its patrons and viewers she demonstrates that the audience for American genre paintings consisted of New Yorkers with a highly developed ambition for political and social leadership who enjoyed setting up citizens of the new democracy as targets of satire or condescension to satisfy their need for superiority It was this network of social hierarchies and prejudices and not a blissful celebration of American democracy that informed the look and the richly ambiguous content of genre painting

New York Magazine, 1988-05-09 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
