Alexandre Hollan Claude Viallat Sophie Calle Bernard Pag s Jean Pierre Pincemin Annette Messager G rard Titus Carmel eleven major French artists of the last forty years or so examined in the light of their uniqueness and their rootedness the specificities of their differing and at times overlapping plastic practices and the swirling and often highly hybridised conceptions entertained in regard to such practices Thus does analysis range from discussion of the feisty Fluxus inspired free spirited funkiness of Ben Vautier s work to the various modes of transcendence of trauma and haunting fear generated by the exceptional gestures of Niki de Saint Phalle and Louise Bourgeois to the alyrical formalism yet imbued with irony and ludicity of Fran ois Morellet through to the serene intensities of Alexandre Hollan s vies silencieuses the infinite a signatures of Claude Viallat s adventure in the sheer joy of a poiein of self reflexive coloration the powerfully elegant and muscular disarticulations of Bernard Pag s sculpture the great sweep through art s history implied by Jean Pierre Pincemin s chameleon like gestures the vast swirling programme of socio psychological analysis the arts of Annette Messager and Sophie Calle offer in their radically distinctive manners the obsessively serialised oeuvre of G rard Titus Carmel allowing a burrowing deep into the opaque logic of a real though dubious presence to the world François Morellet Bernhard Maria Holeczek, François Morellet, 1983 **The Radical Use of Chance in 20th Century Art** Denis Lejeune, 2012-01 To many chance and art are antagonistic terms But a number of 20th century artists have turned this notion on its head by attempting to create artworks based on randomness Among those three in particular articulated a well argued and thorough theory of the radical use of chance in art Andr Breton writer John Cage composer and Fran ois Morellet visual artist The implications of such a move away from established aesthetics are far reaching as much in conceptual as in practical terms as this book hopes to make clear Of paramount importance in this coincidentia oppositorum is the suggested possibility of a correlation between the artistic use of chance and a system of thought itself organised around chance Indeed placing randomness at the centre of one s art may have deeper philosophical consequences than just on the aesthetical level *Francois Morellet* FRANCESCA POLA, 2000
