Speaking French in Louisiana, 1720-1955 Sylvie Dubois, Emilie Gagnet Leumas, Malcolm Richardson, 2018-01-08 Over the course of its three hundred year history the Catholic Church in Louisiana witnessed a prolonged shift from French to English with some south Louisiana churches continuing to prepare marriage baptism and burial records in French as late as the mid twentieth century *Speaking French in Louisiana 1720 1955* navigates a complex and lengthy process presenting a nuanced picture of language change within the Church and situating its practices within the state's sociolinguistic evolution Mining three centuries of evidence from the Archdiocese of New Orleans archives the authors discover proof of an extraordinary one hundred year rise and fall of bilingualism in Louisiana The multiethnic laity clergy and religious in the nineteenth century necessitated the use of multiple languages in church functions and bilingualism remained an ordinary aspect of church life through the antebellum period After the Civil War however the authors show a steady crossover from French to English in the Church influenced in large part by an active Irish population It wasn't until decades later around 1910 that the Church began to embrace English monolingualism and French faded from use The authors extensive research and analysis draws on quantitative and qualitative data geographical models methods of ethnography and cultural studies They evaluated 4 000 letters written mostly in French from 1720 to 1859 sacramental registers from more than 250 churches parish reports diocesan council minutes and unpublished material from French archives Their findings illuminate how the Church's hierarchical structure of authority its social constraints and the attitudes of its local priests and laity affected language maintenance and change particularly during the major political and social developments of the nineteenth and early twentieth centuries *Speaking French in Louisiana 1720 1955* goes beyond the triumph of English or tragedy of Cajun French stereotypes to show how south Louisiana negotiated language use and how Christianization was a powerful linguistic and cultural assimilator

French Inside Out Henriette Walter, 2003-09-02 In this comprehensive introduction Henriette Walter provides the reader with a panoramic view of the development of the French language in the past present and future She takes the reader on a rapid and lively journey through the historical development of the language from its Latin origins to the present day She goes on to set the language in its linguistic context by surveying its surviving and vanished dialects and regional variations of the language within France Widening her focus Walter examines French throughout the world giving examples of the pronunciation and vocabulary of each region or nation Finally she looks at French today its structure the effects of social change on the language and its future in an increasingly English dominated world This stimulating and entertaining account offers students of French a clear and accessible introduction to the language The wealth of information it provides is reflected in the extensive bibliography four indices and

numerous world lists maps and diagrams Louisiana francophone review ,1990 *The Art and Genius of Anne Hébert*

Dixie Debates Richard H. King,Helen Taylor,1996 The contemporary American South is a region of economic expansion political sophistication and particularly cultural ferment Its literature is well known and celebrated But what of the popular cultural forms of expression that have done so much to reflect the curious tensions between the traditional South white dominated rural religious and contemporary multicultural forms and discourses This collection offers a wealth of exciting new perspectives on cultural studies in general and of the particular forms of popular Southern culture from rock and roll to Cajun music to the impact on the South of tourism and the questions of genre and race in contemporary film making

Mammon and Manon in Early New Orleans Thomas N. Ingersoll,1999 Since Louisiana fell under the administration of France and Spain before becoming a U S territory in 1803 the case of New Orleans offers an opportunity to test the long standing thesis that slave regimes under the French Spanish and Anglo Americans were significantly different Ingersoll finds that by contrast the city's development was remarkably continuous affected mainly by the changing volume of its slave trade between 1719 and 1808 and thereafter primarily by urban conditions Couv Issues in International Bilingual Education
Beverly Hartford,Albert Valdman,Charles R. Foster,2012-12-06 CHRISTINA BRAIT PAULSTON There is an important difference between merely experimental and genuine experiment The one may be a feeling for novelty the other is rationally based on experience seeking a better way Frank Lloyd Wright Wright was talking about architecture but the same difference can be applied to analyzing the relationship between standard and vernacular languages in bilingual education surely we are also seeking a better way to handle bilingual education based on experience How rationally based our efforts are is another question Works on this and similar topics can at times become the scene for very emotional and very moving presentations which sometimes are more utopian than rational One can perhaps call this a very rational text because so few of the contributors are members of ethnic subordinate groups Am I suggesting that minority group members are less rational Of course not I am suggesting that it is much easier to be calm objective and scholarly about the lot of others than about your own The most salient feature about the bilingual education of vernacular speaking groups is the social and economic exploitation of its members by the dominant group The papers herein treating bilingual education from a psychological perspective agree at least on the issue that an understanding of the social and economic factors underlying bilingual education is crucial for understanding the psychological studies on bilingualism *La presse francophone des Amériques*

Collectif Collectif,2024-01-10T00:00:00-05:00 En conduisant le lecteur de l'Argentine au Canada en passant par les nombreuses zones qui ont connu le développement d'une presse régionale en français cet ouvrage propose un panorama de la presse francophone des Amériques au XIX^e siècle et revèle la centralité de l'objet médiatique dans l'histoire de cette francophonie

Problems And Opportunities In U.S. - Quebec Relations Marcel Daneau,2019-09-11 The failure of the May 1980 Quebec referendum on sovereignty and the ratification in 1982 of a Canadian constitution over Quebec's vehement objection but with the acquiescence of all other provinces would appear to indicate that the likelihood of Quebec's independence has been sharply reduced if not eliminated Not so is the considered judgment

New Orleans in the Atlantic World William Boelhower,2013-09-13 The thematic project New Orleans in the Atlantic World was planned immediately after hurricane Katrina and focuses on what meteorologists have always known the city's identity and destiny belong to the broader Caribbean and Atlantic worlds as perhaps no other American city does Balanced precariously between land and sea the city's geohistory has always interwoven diverse cultures languages peoples and economies Only with the rise of the new Atlantic Studies matrix however have scholars been able to fully appreciate this complex history from a multidisciplinary multilingual and multiscaled perspectivism In this book historians geographers anthropologists and cultural studies scholars bring to light the atlanticist vocation of New Orleans and in doing so they also help to define the new field of Atlantic Studies This book was published as a special issue of Atlantic Studies

France and "Indochina" Kathryn Robson,Jennifer Yee,2005-01-01 At the intersection of literary cultural and postcolonial studies this volume looks at French perceptions of Indochina as they are conveyed through a variety of media including cinema literature art and historical or

anthropological writings The volume is long awaited as France's memory of Indochina is understudied compared to its relationship with its former colonies in West and North Africa The book has contemporary urgency as the makeup of France's immigrant population changes and grows to include Vietnamese Cambodian and Laotian populations **Le français adultère, ou, Les langues mixtes de l'altérité francophone** Paul Wijnands, 2005 Les dialectes autrefois espaces de paroles vernaculaires et donc libres sont en vertu de la norme française depuis longtemps d'être relégués dans le statut de patois ou faute de reconnaissance ils disparaissent lentement Le même danger guette aujourd'hui les nombreuses langues mixtes nées de la cohabitation du français avec d'autres langues dans le monde Ces langues souvent nées de l'incompétence linguistique sont simplement passées sous silence ou ridiculisées alors qu'elles recèlent d'insondables richesses qu'elles doivent entièrement leur liberté Le présent dictionnaire dressé pour la première fois l'inventaire de ces langues mixtes de la francophonie Il donne ces idiomes mélangés la parole tant et au travers de textes scientifiques tant et au travers d'écrits politiques Dans ce sens il est le premier dictionnaire livre de l'altérité francophone **Louisiana review**, 1978 Cajun Literature and Cajun Collective Memory Mathilde Köstler, 2022-12-19 How does Cajun literature emerging in the 1980s represent the dynamic processes of remembering in Cajun culture Known for its hybrid constitution and deeply ingrained oral traditions Cajun culture provides an ideal testing ground for investigating the collective memory of a group In particular francophone and anglophone Cajun texts by such writers as Jean Arceneaux Tim Gautreaux Jeanne Castille Zachary Richard Ron Thibodeaux Darrell Bourque and Kirby Jambon reveal not only a shift from an oral to a written tradition They also show hybrid perspectives on the Cajun collective memory Based on recurring references to place the texts also reflect on the Acadian past and reveal the innate ability of the Cajuns to adapt through repeated intertextual references The Cajun collective memory is thus defined by a transnational outlook a transversality cutting across various ethnic heritages to establish and legitimize a collective identity both amid the linguistic and cultural diversity in Louisiana and in the face of American mainstream culture Cajun Literature and Cajun Collective Memory represents the first analysis of the mnemonic strategies Cajun writers use to explore and sustain the Cajun identity and collective memory
