within the region and outside. It then examines in turn the variety of ways in which the emancipated their ex masters and the colonial powers related to each other in the economy, polity and society of various territories: the economy of sugar in decline, the hostility of local landed elites to the welfare of the emancipated, the ways landless labourers adapted to survive and to interregional migrations, the social and cultural transformations of new populations from Africa, India and China, the technical innovations in the sugar industry towards the end of the century that differentiate the interests of field owner from factory owner, the decline of white pre-eminence yet their resistance to claims for autonomy and an end to colonial tutelage.

**The Dutch in the Atlantic Economy, 1580-1880** Pieter Emmer, 2024-10-28 This volume provides the first survey in English of the Dutch involvement in the Atlantic slave trade and slave system. It covers the period from the origins of the trade and the Dutch conquest of part of Brazil in the early 17th century to the abolition of slavery in the Dutch West Indies in the later 19th century. Individual chapters focus on the investment bubble in the Dutch plantation colonies, Dutch participation in the illegal slave trade and the effects of ameliorisation policies and then emancipation on the slaves of Suriname. Professor Emmer also highlights the particular characteristics of the Dutch West India Company, markedly different from the better known East India Company, and the low key nature of the debate on slave emancipation in The Netherlands.

**Religion, Diaspora and Cultural Identity** J.W. Pulis, 2014-01-02 Although the religions of the Caribbean have been a subject of popular media, there have been few ethnographic publications. This text is a much needed and long overdue addition to Caribbean studies and the exploration of ideas, beliefs and religious practices of Caribbean folk in diaspora and at home. Drawing upon ethnographic and historical research in a variety of contexts and settings, the contributors to this volume explore the relationship between religious and social life. Whether practiced at home or abroad, the contributors contend that the religions of Caribbean folk are dynamic and creative endeavors that have mediated the ongoing and open ended relation between local and global historical and contemporary change.

**Out of Slavery** Jack Hayward, 2022-09-21 *Out of Slavery* first published in 1985 is a series of articles commissioned on the 150 year anniversary of William Wilberforce's death and the Act of Parliament abolishing British slavery in 1833. With the background from which the history of slavery was viewed being radically changed with decolonisation, the advancement of Human Rights, the economic and social consequences of what was done and left undone by the Abolitionists and Emancipators and of the situations which they faced, this book offers a broad reappraisal on slavery and freedom from slavery as they can now be seen and of the contribution and personality of the Abolitionists, particularly of their leader and spokesman William Wilberforce.

**Sugar, Slavery, and Freedom in Nineteenth-Century Puerto Rico** Luis A. Figueroa, 2006-05-18 The contributions of the black population to the history and economic development of Puerto Rico have long been distorted and underplayed. Luis A. Figueroa contends. Focusing on the southeastern coastal region of Guayama, one of Puerto Rico's three leading centers of sugarcane agriculture, Figueroa examines the transition from slavery and slave labor to freedom and free labor after the 1873 abolition of slavery in colonial Puerto Rico. He corrects

misconceptions about how ex slaves went about building their lives and livelihoods after emancipation and debunks standing myths about race relations in Puerto Rico Historians have assumed that after emancipation in Puerto Rico as in other parts of the Caribbean and the U S South former slaves acquired some land of their own and became subsistence farmers Figueroa finds that in Puerto Rico however this was not an option because both capital and land available for sale to the Afro Puerto Rican population were scarce Paying particular attention to class gender and race his account of how these libertos joined the labor market profoundly revises our understanding of the emancipation process and the evolution of the working class in Puerto Rico

Ruling Emancipated Slaves and Indigenous Subjects Olukunle P. Owolabi,2023 An examination of the divergent developmental legacies of forced settlement and colonial occupation on both sides of the Black Atlantic world The European powers that colonized much of the world over the last few hundred years created a variety of social systems in their various colonies In Ruling Emancipated Slaves and Indigenous Subjects Olukunle P Owolabi explores the divergent developmental trajectories of Global South nations that were shaped by forced settlement where European colonists imported African slaves to establish large scale agricultural plantations or by colonial occupation which resulted in the exploitation of indigenous non white populations Owolabi shows that most forced settlement colonies emerged from European domination with higher levels of education attainment greater postcolonial democratization and favorable human development outcomes relative to Global South countries that emerged from colonial occupation after 1945 To explain this paradox he examines the distinctive legal administrative institutions that were used to control indigenous colonial subjects and highlights the impact of liberal reforms that expanded the legal rights and political agency of former slaves following abolition Spanning three centuries of colonial history and postcolonial development this is the first book to systematically examine the distinctive patterns of state building that resulted from forced settlement and colonial occupation in the Black Atlantic world
