**Monograph series** Statens etnografiska museum (Sweden), 1953      The Seat of Consciousness in Ancient Literature  
Richard E. Lind, 2015-01-09 For early civilizations consciousness and the sense of self were experienced as located in the center of the body most often near to or within the physical heart Enlightenment was understood as the illumination of a transformed spiritual heart Thus the mind of the body as a whole was represented by the heart soul In contrast modern culture places consciousness within the brain resulting in a mind body dualism This separation of mind and body has recently been emphasized as characteristic of the psychopathologies of the modern self This volume explores the understanding and experience of consciousness in the earliest civilizations before about 500 BCE Beginning with a description of ancient Western and Eastern heart consciousness the psychological and spiritual manifestations of the ancient mature heart soul are summarized Ancestor worship lineage identity primitive consciousness and the ways in which the external world was mirrored by the inner world provide additional clues about the experience of heart consciousness Finally the work addresses the fundamental changes in the experience of consciousness that led to the mind body dualism of today      *In Search of the Body & Soul Connection* Duke Saganich, 2020-03-22 This book is a thought provoking analysis for all of the spiritual seekers looking for answers It s for those who are open to all the possibilities of what could be It s about the mysteries and wonders of why we are here The author s studies and research into spirituality and religion have led him to find common ground between them The premise of this book is based on his interpretation and understanding of the three main aspects of spirituality the Body the Soul and the Link which connects them Part One The Body Explains the basic understanding of how the physical body works in conjunction with thoughts emotions and the decision making process He believes the first steps to a healthy and balanced lifestyle is to listen to your intuition stop and take a breath before reacting and understanding the life force and how it can be utilized in your daily life Part Two The Soul How understanding the different aspect of your soul which includes your inner self is the foundation for your spiritual path This will develop a spiritual awareness which in turn will give you the tools and opportunities to make decisions in your life with purpose Part Three The Link By understanding and utilizing the many ways your body and soul communicate is the core to spiritual growth Listening to your intuition being self aware living in the present moment and making conscious choices with loving intent is the path to health and balance Throughout these chapters the author provides simple techniques and exercises that can be used in your daily life to help you connect and keep you on your spiritual quest The author will be donating 50% of his royalties to various charities that are in need      **Relighting the Souls** Frederick E. Brenk, 1998 In the last ten years there has been an enormous awakening of interest in Plutarch This collection contains many stimulating and important articles from the Plutarch renaissance especially on the interaction between divine and human worlds and on expectations in the next life But treated here are also a number of other challenging topics in classical Greek literature Among them are the Near Eastern background of early Greek myth

and literature the decisive speech of Achilles mentor Phoenix in the Iliad divine assimilations and ruler cult the language of Menander's young men the vision of God in Middle Platonism blessed afterlife in the mysteries Greek epiphanies and the Acts of the Apostles and the revolt at Jerusalem against Antiochos Epiphanes in the light of similar cities under Hellenistic rule

Another book of Frederick E Brenk *Clothed in Purple Light* Franz Steiner 1998      [Perspectives on the Archaeology of Pipes, Tobacco and other Smoke Plants in the Ancient Americas](#) Elizabeth Anne Bollwerk, Shannon Tushingham, 2015-12-20 This volume presents the most recent archaeological historical and ethnographic research that challenges simplistic perceptions of Native smoking and explores a wide variety of questions regarding smoking plants and pipe forms from throughout North America and parts of South America By broadening research questions utilizing new analytical methods and applying interdisciplinary interpretative frameworks this volume offers new insights into a diverse array of perspectives on smoke plants and pipes      *America Before* Graham Hancock, 2019-04-23 The Instant New York Times Bestseller Was an advanced civilization lost to history in the global cataclysm that ended the last Ice Age Graham Hancock the internationally bestselling author has made it his life's work to find out and in *America Before* he draws on the latest archaeological and DNA evidence to bring his quest to a stunning conclusion We've been taught that North and South America were empty of humans until around 13 000 years ago amongst the last great landmasses on earth to have been settled by our ancestors But new discoveries have radically reshaped this long established picture and we know now that the Americas were first peopled more than 130 000 years ago many tens of thousands of years before human settlements became established elsewhere Hancock's research takes us on a series of journeys and encounters with the scientists responsible for the recent extraordinary breakthroughs In the process from the Mississippi Valley to the Amazon rainforest he reveals that ancient New World cultures share a legacy of advanced scientific knowledge and sophisticated spiritual beliefs with supposedly unconnected Old World cultures Have archaeologists focused for too long only on the Old World in their search for the origins of civilization while failing to consider the revolutionary possibility that those origins might in fact be found in the New World *America Before* The Key to Earth's Lost Civilization is the culmination of everything that millions of readers have loved in Hancock's body of work over the past decades namely a mind dilating exploration of the mysteries of the past amazing archaeological discoveries and profound implications for how we lead our lives today      **The X Formator's Book Of Life** ANKH UNUM, 2024-07-30 A person's perspective can determine their reality while many different perspectives make up the universe we are in An alien had a vantage point of his own as he made his way to Earth Seeing all that he could see he learned that the most precious thing on Earth is the energy we call the emotion love and the products of that energy life As the alien makes his way into the light he finds that life is delicate while love is as strong as a diamond rock Inspired by his settle exposure to theosophy philosophy spirituality biology and algebra the alien goes on an adventure that leads him through many different dimensions as he finds for himself the wealth of the goddess Gaia Many may find the darkness to be

uncomfortable while this alien race cherishes the darkness as the backdrop of manifestations While on Earth the x formator discovers and explores light within light which is bonded by a love that hosts the epitome of life      **Being Scioto Hopewell: Ritual Drama and Personhood in Cross-Cultural Perspective** Christopher Carr, 2022-01-05 This book in two volumes breathes fresh air empirically methodologically and theoretically into understanding the rich ceremonial lives the philosophical religious knowledge and the impressive material feats and labor organization that distinguish Hopewell Indians of central Ohio and neighboring regions during the first centuries CE The first volume defines cross culturally for the first time the ritual drama as a genre of social performance It reconstructs and compares parts of 14 such dramas that Hopewellian and other Woodland period peoples performed in their ceremonial centers to help the soul like essences of their deceased make the journey to an afterlife The second volume builds and critiques ten formal cross cultural models of personhood and the self and infers the nature of Scioto Hopewell people s ontology Two facets of their ontology are found to have been instrumental in their creating the intercommunity alliances and cooperation and gathering the labor required to construct their huge multicomunity ceremonial centers a relational collective concept of the self defined by the ethical quality of the relationships one has with other beings and a concept of multiple soul like essences that compose a human being and can be harnessed strategically to create familial like ethical bonds of cooperation among individuals and communities The archaeological reconstructions of Hopewellian ritual dramas and concepts of personhood and the self and of Hopewell people s strategic uses of these are informed by three large surveys of historic Woodland and Plains Indians narratives ideas and rites about journeys to afterlives the creatures who inhabit the cosmos and the nature and functions of soul like essences coupled with rich contextual archaeological and bioarchaeological taphonomic analyses The bioarchaeological taphonomic method of l anthropologie de terrain new to North American archaeology is introduced and applied In all the research in this book vitalizes a vision of an anthropology committed to native logic and motivation and skeptical of the imposition of Western world views and categories onto native peoples      Supernatural Agents Ilkka Pyysiainen, 2009-04-27 The cognitive science of religion is a rapidly growing field whose practitioners apply insights from advances in cognitive science in order to provide a better understanding of religious impulses beliefs and behaviors In this book Ilkka Pyysiainen shows how this methodology can profitably be used in the comparative study of beliefs about superhuman agents He begins by developing a theoretical outline of the basic modular architecture of the human mind and especially the human capacity to understand agency He then goes on to discuss examples of supernatural agency in detail arguing that the human ability to attribute beliefs and desires to others forms the basis of conceptions of supernatural agents and of such social cognition in which supernatural agents are postulated as interested parties in social life Beliefs about supernatural agency are natural says Pyysiainen in the sense that such concepts are used in an intuitive and automatic fashion Two dots and a straight line below them automatically trigger the idea of a face for example Given that the mind

consists of a host of such modular mechanisms certain kinds of beliefs will always have a selective advantage over others Abstract theological concepts are usually elaborate versions of such simpler and more contagious folk conceptions Pyysi inen uses ethnographical and survey materials as well as doctrinal treatises to show that there are certain recurrent patterns in beliefs about supernatural agents both at the level of folk religion and of formal theology *Shamanism* Mariko Namba Walter,Eva Jane Neumann Fridman,2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day In nearly 200 detailed readable entries leading ethnographers psychologists archaeologists historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices What is it like to be a shaman Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates They detail the costumes music rituals artifacts and drugs that shamans use to achieve altered states of consciousness communicate with spirits travel in the spirit world and retrieve souls Unlike most Western books on shamanism which focus narrowly on the individual s experience of healing and trance Shamanism also examines the function of shamanism in society from social political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia **Women Writers of the Middle Ages** Peter Dronke,1984-01-12 This book gives a detailed picture of the contributions made by women writers to Western literature from the third century to the thirteenth Many of the texts Peter Dronke presents and interprets have hitherto remained unknown or virtually inaccessible some have never been edited or translated before The emphasis throughout is on personal testimonies and on texts that have notable literary or intellectual interest Thus the book affords many new insights into medieval literature not only into the writings of renowned women such as Hrotsvitha or Heloise but also into those of a number of neglected writers who are exceptional in their gifts and individuality Already highly influential *Women Writers of the Middle Ages* continues to be essential reading for specialists and students alike in medieval literature medieval intellectual history and women s studies *Becoming Half Hidden* Daniel Merkur,2014-03-18 First Published in 1993 This study seeks to analyze shamanism and initiation from the perspective of shamans rather than from the laity s point of view One of the aims of this research has been to get behind the shamans language in order to understand their experiences **Traditional Ojibwa Religion and Its Historical Changes** Christopher Vecsey,1983 Describes Criteria for Determining what was TOR Ojibwa History CM to the Ojibwas Ojibwa Responses to CM The Ojibwa Person Living The Manitos Nanabozho Ojibwa Relations with the Manitos Puberty Fasting Disease Health Religious Leadership Midewiwin Diverse Religious Movements The Loss of TOR Maps charts *The Collected Works of Edward M. Matthews* Liberal Catholic Church, International,Edward M. Matthews,1993 **The Early Greek Concept of the Soul** Jan N. Bremmer,2020-10-06 Jan Bremmer presents a provocative picture of the historical

development of beliefs regarding the soul in ancient Greece He argues that before Homer the Greeks distinguished between two types of soul both identified with the individual the free soul which possessed no psychological attributes and was active only outside the body as in dreams swoons and the afterlife and the body soul which endowed a person with life and consciousness Gradually this concept of two kinds of souls was replaced by the idea of a single soul In exploring Greek ideas of human souls as well as those of plants and animals Bremmer illuminates an important stage in the genesis of the Greek mind

**Soul and Self in Vedic India** Per-Johan Norelius,2023-06-19 How did the Vedic Indians think of life consciousness and personhood How did they envisage man s fate after death Did some part of the person survive the death of the body and depart for the beyond Is it possible to speak of a soul or souls in the context of Vedic tradition This book sets out to answer these questions in a systematic manner subjecting the relevant Vedic beliefs to a detailed chronological investigation Special attention is given to the ways in which the early Indians answers to the above problems changed over time with an early pluralism of soul like concepts later giving way to the unified self of the Upani ads

**Meister Eckhart and the Beguine Mystics** Bernard McGinn,1997-01-09 The great German mystic Meister Eckhart remains one of the most fascinating figures in Western thought Revived interest in Eckhart s mysticism has been matched and even surpassed by the study of the women mystics of the late13th century This book argues that Eckhart s thought cannot be fully be understood until it is viewed against the background of the breakthroughs made by the women mystics who preceded him

**The Emergence of Reflexivity in Greek Language and Thought** Edward T. Jeremiah,2012-02-17 Tying together linguistics philology and philosophy this monograph explores the morphological and semantic development of the heavily marked reflexive system in Ancient Greek and argues that these changes are connected to a reconceptualisation of the human subject as characteristically reflexive

**Psychoanalytic Approaches to Myth** Daniel Merkur,2005-07-05 This book surveys the history of psychoanalytic treatments of myths variously as symptoms of psychopathology as cultural defense mechanisms and as metaphoric expressions of ideas that may include therapeutic insights

Extreme Religious Behaviours Johannes Bronkhorst,2024-06-17 Certain religious behaviours clearly reduce biological fitness These behaviours include celibacy along with various forms of asceticism and rituals that harm the performer Such behaviours are found in widely different cultures How is this possible This book shows that these behaviours as is religion in general are by products of features of the human mind whose evolutionary fitness is beyond doubt and explores those features Which are those features This book proposes a twofold answer It draws attention to the layered nature of human consciousness in which different manners of experience are superimposed on each other This goes a long way toward accounting for the universal religious belief in some kind of transcendental world a higher reality different from ordinary reality The layering of consciousness comes about in childhood and gains in prominence with the acquisition of a first language which is the second feature highlighted in this book Together these features explain a variety of normal religious behaviours and beliefs and account for the possibility of mystical

experience They also explain the occurrence of behaviours that do not augment evolutionary fitness
