*Nietzsche's Philosophy of Education* Mark E. Jonas, Douglas W. Yacek, 2018-07-11 Nietzsche's Philosophy of Education makes the case that Nietzsche's philosophy has significant import for the theory and contemporary practice of education arguing that some of Nietzsche's most important ideas have been misunderstood by previous interpreters In providing novel reinterpretations of Nietzsche's ethical theory political philosophy and philosophical anthropology and outlining concrete ways in which these ideas can enrich teaching and learning in modern democratic schools the book sets itself apart from previous works on Nietzsche This is one of the first extended engagements with Nietzsche's philosophy which attempts to determine his true legacy for democratic education In its engagement with both the vast secondary literature on Nietzsche's philosophy and the educational implications of his philosophical vision this book makes a unique contribution to both the philosophy of education and Nietzsche scholarship In addition its development of four concrete pedagogical approaches from Nietzsche's educational ideas makes the book a potentially helpful guide to meeting the practical challenges of contemporary teaching This book will be of great interest to Nietzsche scholars researchers in the philosophy of education and students studying educational foundations

*Religion and Architecture in Premodern Indonesia* G. Domenig, 2014-04-03 In his richly illustrated *Religion and Architecture in Premodern Indonesia* Gaudenz Domenig investigates the nature of Indonesian ethnic religions by focusing on land opening rituals sacred groves and architectural responses to the custom of presenting offerings Since deities and spirits were supposed to taste offerings on the spot it was a

task of architecture to attract them and to guide them into houses where offerings were presented Domenig quotes numerous sources to show that certain material elements of the house were viewed as spirit attractors spirit ladders or spirit pathways Various exotic features of Indonesian vernacular architecture thus become understandable as relics from times when architecture was still responding to indigenous religions practised in the archipelago *Beyond Good and Evil* Friedrich Wilhelm Nietzsche,1907 *Beyond Good and Evil* is Nietzsche at his best In the book the philosopher attempts to systematically sum up his philosophy through a collection of 296 aphorisms grouped into nine different chapters based on their common theme Code of Federal Regulations Bureau of Alcohol, Tobacco and Firearms (ATF) Staff,2005-07 The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government **Beneath the Volcano** Gregory L. Forth,2021-08-16 *Beneath the Volcano* is the first major account of the Nage who inhabit the central part of Flores in eastern Indonesia The book focuses on Nage ideas concerning a variety of spiritual beings and how these influence both ritual practices and ideas about human beings In exploring these subjects the author sets out to uncover a classification of spirits While quite different from taxonomies of natural beings Nage ways of linking named categories of spirits nevertheless reveal a regular conceptual order In describing this order use is made of a version of Dumont s notion of encompassment Common ideas informing relations between Nage humans and several categories of spirits are further interpreted as instances of a pervasive principle of symmetric inversion according to which human beings are spirits for the spirits **Federal Register**,1961 Code of Federal Regulations United States. Department of the Treasury,2013 Special edition of the Federal register containing a codification of documents of general applicability and future effect as of April with ancillaries *Cumulative Bulletin - Bureau of Alcohol, Tobacco & Firearms* United States. Bureau of Alcohol, Tobacco, and Firearms,1978 *Nietzsche and Political Thought* Keith Ansell Pearson,2013-11-21 Nietzsche challenges the tenets of received political wisdom in a number of ways and his thinking contains resources for revitalising political thinking Nietzsche and Political Thought offers fresh insights into Nietzsche s relevance for contemporary political thought in light of recent advances in research in the field and key topics in contemporary theorising about politics An international team of leading scholars provide vital new perspectives on both core and novel topics including justice democratic theory biopolitics the multitude political psychology and the Enlightenment In spite of the controversies what becomes clear is that Nietzsche is vital for political thought and a more sensitive and nuanced approach than conventional understandings allow is required Nietzsche continues to have a lively presence in contemporary philosophy and this book reawakens interest in the political dimension of his thinking Code of Federal Regulations, Title 27, Alcohol, Tobacco Products and Firearms, Pt. 1-39, Revised As of April 1, 2012 ,2012-06-26 The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government
