Global Human Smuggling Comparative Perspectives:

Global Human Smuggling David Kyle, Rey Koslowski, 2001-06-29 Kyle and John Dale **Global Human Smuggling** Luigi Achilli, David Kyle, 2023-12-05 This book explores human smuggling in several nuanced forms across diverse regions examining its deep historical social economic and cultural roots and its broad political consequences **Human Trafficking, Human Security, and the Balkans** H. Richard Friman, Simon Reich, 2010-06-15 In the aftermath of four Yugoslav wars ongoing efforts at reconstruction in South Eastern Europe have devoted relatively limited attention to dimensions of human security that enhance protections for the region's most vulnerable populations in their daily lives It is in this context that South Eastern Europe and especially the Western Balkan region has emerged as a nexus point in human trafficking Human Trafficking Human Security and the Balkans brings together leading scholars NGO representatives and government officials to analyze and offer solutions to this challenge The contributors explore the economic dynamics of human trafficking in an era of globalization which has greatly facilitated not only the flow of goods and services but also the trade in human beings They also examine the effectiveness of international and transnational policies and practice the impact of peacekeeping forces and the emergence of national and regional action plans in the Western Balkans and more broadly in South Eastern Europe Finally they consider the nature and ramifications of the gap between human security rhetoric and institutional policy steps against human trafficking **Routledge Handbook of Immigration and Refugee Studies** Anna Triandafyllidou, 2022-12-30 The Routledge Handbook of Immigration and Refugee Studies offers a comprehensive study of the multi disciplinary field of international migration and asylum studies The new edition incorporates numerous new chapters on issues including return migration the relationship between urbanisation and migration the role of advanced digital technologies in migration governance decision making and human agency and the COVID 19 pandemic and its impact on global migration Utilising contemporary information and analysis this innovative Handbook provides an in depth examination of the major analytical questions pertaining to migration and asylum whilst discussing key areas such as work welfare families citizenship the relationship between migration and development asylum and irregular migration With a comprehensive collection of essays written by leading contributors from different world regions and covering a broad range of disciplines including sociology geography legal studies political science and economics the Handbook is a truly multidisciplinary reader Organised into thematic and geographical chapters the Routledge Handbook of Immigration and Refugee Studies provides a concise overview on the different topics and world regions as well as useful guidance for both the starting and the more experienced reader The Handbook's expansive content and illustrative style will appeal to both students and professionals studying in the field of migration and international organisations **The Missing Girls and Women of China, Hong Kong and Taiwan** Hua-Lun Huang, 2014-01-10 In the past century tens of millions of women and girls have disappeared in China Hong Kong and Taiwan There are many reasons the women variously were sold as foreign

spouses imprisoned for their political beliefs taken to night clubs or massage parlors to work as escorts provided as comfort women to soldiers or murdered by female corpse dealers and sold as ghost brides to families looking to give their deceased sons wives in the afterlife The youngest girls fell victim to infanticide the tragic result of a one child law in a male dominated society As a result of the gender imbalance these disappearances created countless young males now suffer from the marriage squeeze remaining single without families of their own This sociological study explores the institutional factors develops a typology for these populations and lays a foundation for the examination of lost populations in the future

Women and Immigration Law Thomas Spijkerboer, Sarah Van Walsum, 2007-03-12 This book examines immigration law from a gender perspective It shows how immigration law situates gender conflicts outside the national order projecting them onto non western countries exotic cultures clandestine labour and criminal organizations In doing so immigration law sustains the illusion that gender conflicts have moved beyond the pale of European experience In fact the classical feminist themes of patriarchy the gendered division of labour and sexual violence are still being played out at the heart of Europe s societies involving both citizens and migrants This collection of essays demonstrates how the seemingly marginal perspective of immigration law highlights Europe s unresolved gender conflicts and how a gender perspective can help us to rethink immigration law

Globalizing Chinese Migration Pál Nyíri, Igor Saveliev, 2020-08-26 This title was first published in 2003 Globalizing Chinese Migration is the first volume to deal comprehensively with the most recent wave of the migration from the People s Republic of China to Europe and Asia By analyzing the Chinese state s role in this migration the authors dismiss as fiction the theory sometimes advanced by hostile and racist foreign observers that Chinese authorities are intent on using mass emigration as an expansionist tool They go on to explain that migrants who might in earlier times have been reviled as traitors and absconders are today more likely to be viewed by sections of the Chinese state bureaucracy as patriots who remain part of China s polity and economy and contribute to its standing overseas Some senior officials however particularly diplomats stress the harm done by new migrants both to China s economy which loses assets as a result of the migrants entrepreneurial activities and to its reputation in the world An essential resource for academics and students alike the volume presents important new data on aspects of Chinese migration largely neglected in the existing English language literature These include new forms of emigration from China by students and by workers from the country s north eastern provinces and emigration to destinations including Russia Southeast Asia and Japan normally unremarked by students of population movements

Enslavement Orlando Patterson, 2024-11-05 Slavery is one of humanity s most ancient and persistent inequities It predates the rise of civilization played a key role in the growth of Western and Islamic cultures and was an integral part of the emergence and global spread of capitalism Given its historical significance it is not surprising that the problem of slavery is still passionately debated today and that modern day trafficking and forced servitude remain key issues of public concern In Enslavement Past and Present historical sociologist Orlando Patterson casts a wide net to

examine the social political and economic complexities of slavery across different eras and societies Patterson examines slavery at several levels of abstraction from micro level relations of domination to the macro structures of entire societies Building on the bundle of rights perspective he reevaluates the definition of slavery exposing its variegated fabric of iniquities across tribal and advanced pre modern societies as well as our modern globalized age Patterson also examines the critical role of women in the history of slavery the significance of manumission in the formation of Christian doctrine and the devastating toll of genocide and undaunted revolt of slaves in Jamaican slave society Concluding with an investigation of contemporary slavery and other forms of servitude this book urges readers to reckon with the brutal legacies of the past and its alarming modern day persistence *Enslavement Past and Present* deepens our understanding of the broad spectrum of evil and human bondage throughout history an understanding that is essential for contemporary struggles to build a more inclusive society for all

Transit Migration A. Papadopoulou-Kourkoula, 2008-10-01 Challenging traditional approaches to migration which puts migrants in narrow categories legal and illegal newcomer and settler *Transit Migration* shows that migrants and refugees live in transit for years a stage in the migration course profoundly affecting destination countries and the migrants themselves

Human Smuggling and Border Crossings Gabriella Sanchez, 2014-11-13 Graphic narratives of tragedies involving the journeys of irregular migrants trying to reach destinations in the global north are common in the media and are blamed almost invariably on human smuggling facilitators described as rapacious members of highly structured underground transnational criminal organizations who take advantage of migrants and prey upon their vulnerability This book contributes to the current scholarship on migration by providing a window into the lives and experiences of those behind the facilitation of irregular border crossing journeys Based on fieldwork conducted among coyotes in Arizona the main point of entry for irregular migrants in the United States by the turn of the 21st Century this project goes beyond traditional narratives of victimization and financial exploitation and asks who are the men and women behind the journeys of irregular migrants worldwide How and why do they enter the human smuggling market How are they organized How do they understand their roles in transnational migration How do they explain the violence and victimization so many migrants face while in transit This book is suitable for students and academics involved in the study of migration border enforcement and migrant and refugee criminalization

'My Name is Not Natasha' John Davies, 2009 This book challenges every common presumption that exists about the trafficking of women for the sex trade It is a detailed account of an entire population of trafficked Albanian women whose varied experiences including selling sex on the streets of France clearly demonstrate how much the present discourse about trafficked women is misplaced and inadequate The heterogeneity of the women involved and their relationships with various men is clearly presented as is the way women actively created a panoptical surveillance of themselves as a means of self policing There is no artificial divide between women who were deceived and abused and those who choose sex work in fact the book clearly shows how peripheral involvement in sex work was to the real agenda of the women involved Most of the women described in this book were not making economic decisions to escape desperate poverty nor were they the uneducated nave entrapped into sexual slavery The women's success in transiting trafficking to achieve their own goals without the assistance of any outside agency is a testimony to their resilience and resolve Securitizations of Citizenship Peter Nyers, 2009-05-19 *Securitizations of Citizenship* investigates how the fate of citizenship is now caught up in a dramatic and dangerous process of securitizing political communities In the nervous state of affairs of the post 9 11 period technologies of surveillance and control are rapidly proliferating creating severe constraints for the enactment of citizenship practices While citizenship has always faced the problem of exclusiveness the contemporary relationship between security territory and population is being transformed in ways that are creating new dynamics of exclusion for citizens non citizens

and quasi citizens alike This book assesses a variety of citizenship practices in relation to the emergence of forms of governance that are responsive to and constitutive of fears anxieties and insecurities in the population At the same time the book identifies and assesses citizenship practices for how they can mobilize progressive forces to militate against the nervous anxious and fearful subjectivities instigated by newly securitized sovereignties In the critical spaces between inclusion and exclusion migration and mobility security and surveillance reason and neurosis biopower and sovereign power the contributors to this book reflect upon the possibilities and constraints for refiguring citizenship today *International Norms and Cycles of Change* Wayne Sandholtz, Kendall W. Stiles, 2009 Wayne Sandholtz and Kendall Stiles sketch the primary theoretical perspectives on international norm change the legalisation and transnational activist approaches and argue that both are limited by their focus on international rules as outcomes **The Human Rights of Non-citizens** David S. Weissbrodt, 2008 Non citizens should by virtue of their essential humanity enjoy all human rights unless exceptional distinctions serve a legitimate state objective and are proportionate This book attempts to understand and respond to the challenges of international human rights law guarantees for non citizens human rights **Organised Crime** Alan Wright, 2013-06-17 This text provides a broadly based introduction to the increasingly important subject of organised crime It explores all facets of organised crime and contains case studies illustrating the growth of organised crime at national international and transnational levels
