other players how to exploit the opportunities created by such destructive dynamics They highlight the importance of national regulations promoting competition and nonmonopolistic market structures as well as the role of new technologies such as the Internet in driving down the price and speeding the diffusion of innovative products and services in telecommunications media electronic retailing and other new economy industries *The Internet Economy on the Rise Progress since the Seoul Declaration* OECD,2013-09-20 This publication reviews progress made since the 2008 OECD Seoul Declaration for the Future of the Internet Economy and identifies areas for future work
