Russell, 2004 Ian G Barbour is the internationally acknowledged pioneer in the field of science and religion Although public opinion is often swayed by strident voices which attempt to place science and religion in conflict

or keep them totally isolated Barbour's voluminous contributions over the past fifty years have carved out a trusted pathway to constructive dialogue and creative mutual interaction between science and religion Fifty Years in Science and Religion brings together nineteen leading scholars in the field to offer an appreciative yet critical assessment of the impact of Barbour's work on science and religion and to point ahead towards future critical areas goals and tasks that await new research and visionary exploration This book includes a unique autobiography by Barbour in which for the first time he shares and reflects on his life and work and a detailed bibliography of Barbour's works Together the authors demonstrate how Barbour's writings and the hundreds of scholars who have now become part of the field have changed the course of intellectual history in the West by making possible and necessary a truly constructive engagement between science and religion in the context of inter religious dialogue and the global human and environmental challenges of our time **Resources in Education** ,1990

**Margaret Sanger** Jean H. Baker,2011-11-08 Undoubtedly the most influential advocate for birth control even before the term existed Margaret Sanger ignited a movement that has shaped our society to this day Her views on reproductive rights have made her a frequent target of conservatives and so called family values activists Yet lately even progressives have shied away from her citing socialist leanings and a purported belief in eugenics as a blight on her accomplishments In this captivating new biography the renowned feminist historian Jean H Baker rescues Sanger from such critiques and restores her to the vaunted place in history she once held Trained as a nurse and midwife in the gritty tenements of New York's Lower East Side Sanger grew increasingly aware of the dangers of unplanned pregnancy both physical and psychological A botched abortion resulting in the death of a poor young mother catalyzed Sanger and she quickly became one of the loudest voices in favor of sex education and contraception The movement she started spread across the country eventually becoming a vast international organization with her as its spokeswoman Sanger's staunch advocacy for women's privacy and freedom extended to her personal life as well After becoming a wife and mother at a relatively early age she abandoned the trappings of home and family for a globe trotting life as a women's rights activist Notorious for the sheer number of her romantic entanglements Sanger epitomized the type of free love that would become mainstream only at the very end of her life That she lived long enough to see the creation of the birth control pill which finally made planned pregnancy a reality is only fitting **Handbook on Gender and War** Simona Sharoni,Julia Welland,Linda Steiner,Jennifer Pedersen,2016-07-27 This interdisciplinary Handbook offers a comprehensive and detailed overview of the relationship between gender and war exploring the conduct of war its impact aftermath and opposition to it Offering sophisticated theoretical insights and empirical research from the First World War to contemporary conflicts around the world this Handbook underscores the centrality of gender to critical examinations of war
