Global responsibility Hans Küng,1991 **Global Responsibility** Hans Küng,1991 **Global Responsibility** Hans Küng (sac.),1991 The Calling of Global Responsibility Ananta Kumar Giri,2023-03-03 This book rethinks and transforms the current discourse on globalization and global justice It expands the idea of globalization from an economic or corporate context to mean humanization and planetary realizations moving beyond the boundaries of nation states and other human made demarcations The author challenges the notion of human primacy and makes a fervent call to reconfigure the paradigm of anthropocentrism Through a careful study of movements for justice and inter faith dialogue from across the world the book makes a unique contribution to the emerging study of global responsibility It also helps us overcome our current civilizational crises and cultivate a new civilization of planetary care and co responsibility As part of the Ethics Human Rights and Global Political Thought series the volume will be of great interest to scholars and researchers of law and society especially social movements political theory and philosophy

Global Ethic Hans Kng,Karl-Josef Kuschel,1993-12-01 Presents the text of the Declaration and a commentary on its evolution and significance The message of this book is very timely The Leading Edge **Normative Justification of a Global Ethic** Uchenna B. Okeja,2013 The focus of this book is the normativity of global ethic Over the years different cultures and civilizations have been brought closer than never before by globalization This trend has both its negative and positive dimensions Overall the main problem of this present trend of societal organization and human interaction called globalization is a moral issue namely the question how should we treat one another Okeja s global ethic seeks to answer this question It underscores that we should treat one another in our current age of globalization in accordance with the Golden Rule principle The suggestion of this ethic is therefore that we should not treat others the way we would not want to be treated This sounds simple enough The problem however is that it is not exactly clear what this principle of moral conduct would suggest in both simple and complex moral situations Most importantly it is not clear why it is reasonable to treat people the way we would not want to be treated Why in other words should we act in accordance with the Golden Rule principle What is the justification of the demand the Golden Rule makes on us This book answers these and other questions about the normative plausibility of the Golden Rule and thus global ethic from the comparative perspective of ethics in African philosophy It analyzes three stages of the possible normative justification of the moral imperative of global ethic and proposes a deliberative form of justification

should it reflect ethical values and imperatives If it can what are the sources of those imperatives and how do they achieve
the necessary degree of social consensus in religiously diverse societies that are increasingly globalized and globalizing as a
