Global Resurgence Of Democracy:

The Global Resurgence of Democracy Larry Jay Diamond, Marc F. Plattner, 1993 These essays explore the global resurgence of democracy and examine its future prospects dealing mainly with conceptual historical institutional and policy issues relevant to a range of countries Topics include the tasks of democratic opposition and the case for proportional representation

The Reincarnation of Russia John Löwenhardt, 1995 In *The Reincarnation of Russia* John L. wenhardt presents the first in depth analysis of the initial and crucial stages of Russia's new statehood He examines Russia's recent turbulent history beginning with the explosive Declaration of State Sovereignty in June 1990 through the adoption of the Yeltsin constitution in the elections of December 1993 and concluding with the early months of 1994 His analysis of Russia's struggle with the vestige of Soviet Communism and the attempt to create a more democratic form of government offers crucial insight into one of the critical turning points in contemporary history Building on analysis of the failure of the Soviet system L. wenhardt compares the emergence of Russia as a newborn state with other countries that have undergone transitions from authoritarianism toward democracy Although it is often claimed that Russia is a unique case the author argues that the lessons of other nations are relevant to the Russian situation In conjunction with this comparative analysis and with consideration of the significance of the communist and Russian past L. wenhardt discusses political and economic developments including both foreign and domestic policy concerns in Russia over the last four years He provides a better understanding of the Russian condition and a guarded optimism regarding the ongoing process taking place in Russia today *The Reincarnation of Russia* will be welcomed by scholars with specialized interests in the democratization of Russia political leaders journalists and general readers concerned with the global impact of Russia's changing status

Establishing Democracies Mary Ellen Fischer, 2021-01-07 Balancing historical and contemporary cases this comparative text examines the crucial question of what promotes or prevents the successful founding of democratic systems The country case studies are placed in context by a substantial introduction surveying theories of democracy and democratic transition and by a conclusion assessing the cases and suggesting common patterns in the establishment of successful democracies Balancing historical and contemporary cases this comparative text examines the crucial question of what promotes or prevents the successful founding of democratic systems Underscoring lessons learned from successful regime change and assessing current efforts to establish democracies whose ultimate fate is yet uncertain this book will enable students to evaluate the chances of success for societies making the transition from an authoritarian or communist regime The case studies are placed in context by a substantial introduction surveying theories of democracy and democratic transition and a conclusion comparing the cases and suggesting common patterns in the establishment of successful democracies Created for upper level students this book can be used as a primary text to be supplemented by theoretical readings or as a source of additional case studies Extensive notes provide a wealth of suggestions for further reading and research

Democracy without Borders

Jean Grugel, 2002-01-04 This book carves out a new area of democratisation studies by analysing the transnational dimension and the role of non state actors across three different geographical regions Chapters utilise empirical data from Europe Africa and Latin America

The Dynamics of Democratization Nathan J. Brown, 2011-07-01 The explosive spread of democracy has radically transformed the international political landscape and captured the attention of academics policy makers and activists alike With interest in democratization still growing Nathan J Brown and other leading political scientists assess the current state of the field reflecting on the causes and diffusion of democracy over the past two decades The volume focuses on three issues very much at the heart of discussions about democracy today dictatorship development and diffusion The essays first explore the surprising but necessary relationship between democracy and authoritarianism they next analyze the introduction of democracy in developing countries last they examine how international factors affect the democratization process In exploring these key issues the contributors ask themselves three questions What causes a democracy to emerge and succeed Does democracy make things better Can democracy be successfully promoted In contemplating these questions The Dynamics of Democratization offers a frank and critical assessment of the field for students and scholars of comparative politics and the political economy of development Contributors Gregg A Brazinsky George Washington University Nathan J Brown George Washington University Kathleen Bruhn University of California at Santa Barbara Valerie J Bunce Cornell University Jos Antonio Cheibub University of Illinois at Urbana Champaign Bruce J Dickson George Washington University M Steven Fish University of California at Berkeley John Gerring Boston University Henry E Hale George Washington University Susan D Hyde Yale University Craig M Kauffman George Washington University Staffan I Lindberg University of Florida Sara Meerow University of Amsterdam James Raymond Vreeland Georgetown University Sharon L Wolchik George Washington University

Multicultural Education Farideh Salili, Rumjahn Hoosain, 2001-06-01 The aim of this book is to present some recent research findings on different aspects of multicultural education thus informing educators of issues policies and new approaches to multicultural education being used around the world The chapters that you are about to read document several important themes in multicultural education The first chapter by the editors presents an introduction and overview of the field of multicultural education by presenting its goals historical background assumptions and conceptual framework so as to set the stage for the chapters to follow Attempting to cover the many views on different aspects of multicultural education goes beyond the scope of this introductory chapter However we have presented the historical origin and some of the recent issues and suggestions by prominent scholars including James Bank Christine Sleeter Sonia Nieto Robert Cooper and Robert Slavin with regards to policies curriculum contents and teaching approaches in multicultural education

The Weakness of Civil Society in Post-Communist Europe Marc Morjé Howard, 2003-03-27 Over a decade has passed since the collapse of communism yet post communist citizens are still far less likely to join voluntary organizations than people from other countries Why do post communist citizens mistrust

public organizations What explains this pattern of weak civil society And what does this mean for democracy in the region This engaging study addresses these questions with a provocative argument about the enduring impact of the communist experience on its countries and citizens Howard argues that the experience of mandatory participation in state controlled organizations and vibrant private networks during the communist period combined with the disappointment with post communist developments have left most citizens with a lasting aversion to public activities Howard analyzes the findings from over 30 democratic countries on the World Values Survey and also presents extensive and original evidence from his own research focused on Eastern Germany and Russia

Out of Order Ellen Carnaghan,2010-11-01 **Democratizing Foreign Policy?** Philip Nel,Janis Van der Westhuizen,2004-01-01 In Democratizing Foreign Policy Lessons from South Africa fifteen established and emerging scholars use South Africa as a case study to assess the extent to which democratic consolidation can be translated into the realm of foreign policy Contributors discuss the South African Community as an arena of transnational democracy the impact of European Union trade policy and the significance of South Africa s controversial arms deals as they explore the opportunities and constraints facing recently democratized societies in the Southern Hemisphere This book provides a broad ranging assessment of the opportunities and challenges involved in opening the process of foreign policy making to civil society and the need to do so if the developing world is to better manage the complexities of globalization

Press Freedom in Africa Herman Wasserman,2013-09-13 This book gives an overview of current debates surrounding press freedom in Africa in response to ongoing contestations between media and governments on the continent Through case studies of individual African countries as well as international comparisons a wide range of global contributors provide critical assessments of the state of press freedom on the continent and critical perspectives on the dominant discourses around freedom and democracy Some fear an alarming slide towards a media intolerant environment in South Africa and the proposed Media Appeals Tribunal and the Protection of State Information Bill POSIB have met with strong criticism from journalism practitioners and educators This book examines these and other recent developments seen to represent a threat to press freedom on the African continent Contributors to the volume take a comparative look at the situation in South Africa within a broader global context of transitions to democracy and globalised marketization of the media as well as inspecting specific African examples that may serve to illuminate broader trends Case studies from different African countries are examined but in the process the discourses around press freedom are also subjected to critical scrutiny Critics state that the South African media are not without fault and that part of journalism scholarship s role is to continue to point to these shortcomings and to suggest ways of improving the media s democratic responsibility Press Freedom in Africa provides a range of perspectives on the heated debates surrounding press freedom It illustrates the importance of research based scholarly interventions into the often emotional and rhetorical debates surrounding the role of the media in African society This book was originally published as a special issue of *Ecquid Novi*

African Journalism Studies **Theorizing Transition** John Pickles, Adrian Smith, 2005-08-31 Examining transformations using a variety of perspectives Theorizing Transition provides both a rich empirical map of the dimensions of post Communism and raises important theoretical issues about how we interpret these changes *Reinventing Indonesia* Ginandjar Kartasasmita, Joseph J Stern, 2015-06-24 Reinventing Indonesia presents an insider's view of the tumultuous transition that took place in Indonesia from 1997 to 2004 This was a period of unprecedented changes in democratized governance and decentralizing power throughout the country amidst significant economic turmoil The results of these changes were not pre ordained but were the result of the social forces unleashed by the Asian Financial Crisis and the end of the New Order as well as the deft guidance of key policymakers The book also examines the origins of the economic crisis of the late 1990s in Indonesia and the actions taken to address the crisis during those difficult years The authors were directly involved in many of the events recounted in this book particularly Ginandjar Kartasasmita through his career in the Indonesian government under various ministerial positions Thus the book provides insights that could only come from those directly involved in the decision making It also explains the transitions that occurred in Indonesia in the context of academic theories of democratic transition and consolidation thereby adding to the body of knowledge in this area The Indonesian story holds lessons therefore for the management of financial crisis and for the urgency of reform and development of economic and political institutions Socio-Cultural and Religious Conflicts and the Future of Nigeria Lotanna Olisaemeka, 2022 With the prevailing violent conflict situation of our world perpetuated sometimes even in the name of religion humanity today faces extinction To reverse this ugly trend humanity has no choice than to build a society where every tribe and tongue can coexist in peace This work analyzed the violent conflicts from anthropological behavioral politico philosophical and theological perspectives and makes a demand on humanity to save herself through proper education and dialogue with all men and religions **Nativism, Nationalism, and Patriotism** , 2020-07-15 Since the rise of globalism in the post Cold War era neoliberalism and free trade have generally characterized politics in democratic nations However in recent years nationalism has been on the rise in countries around the world including the United States Events like the Brexit referendum and the 2016 U S presidential election have brought the related issues of nationalism nativism and patriotism to the forefront but much confusion exists when discussing these concepts The viewpoints presented in this volume clarify the distinctions and interconnections between these concepts while presenting a variety of viewpoints on their role in domestic and global politics **Paradigms in Political Economy** Kavous Ardalan, 2015-11-06 Social theory can usefully be conceived in terms of four key paradigms functionalist interpretive radical humanist and radical structuralist The four paradigms are founded upon different assumptions about the nature of social science and the nature of society Each generates theories concepts and analytical tools which are different from those of other paradigms and together they provide a more balanced understanding of the phenomenon under consideration This book demonstrates that an understanding of

these different paradigms and how they can be applied leads to a better understanding of the multi faceted nature of political economy Any explanation of a given phenomenon is based on a worldview The premise of this book is that any worldview can be associated with one of the four key paradigms Each chapter of the book takes an important phenomenon i e the state justice freedom democracy liberal democracy media and the great recession and discusses it from the four different viewpoints It emphasizes that the four views expressed are equally scientific and informative They look at the phenomenon from their certain paradigmatic perspective and together provide a more balanced understanding of the phenomenon under consideration The diversity of economics research possibilities referred to in this book is vast While each paradigm advocates a research strategy that is logically coherent in terms of underlying assumptions these vary from paradigm to paradigm The phenomenon to be researched can be conceptualized and studied in many different ways each generating distinctive kinds of insight and understanding This book is for those who study political economy as well as economic theory and philosophy

Conflict, Cleavage, and Change in Central Asia and the Caucasus Karen Dawisha, Bruce Parrott, 1997-06-13 This volume examines the former Soviet states of Central Asia and the Caucasus *An Assessment of the Impact of Democratic Processes on Development of Urban Areas in Rwanda* Omar Khalfan, 2021-01-27 This study was set to assess how the impact of democratic processes on development of urban areas in Rwanda It was very critical view of two concepts Democracy and Development and the argument was that while the two elements are organically inter linked they may not produce symmetrical results however I applied them to the Rwandan context in urban areas especially in Kigali City and the study finding was that the independent variable had an impact on the dependent variable In other words while an effective democratic process with good governance s principles may provide a latent basis for development it cannot grant it There are many other factors that impinge on development i e well elaborated project s ground realities well implemented project s and well evaluated project s etc Tattered Banners Walter Connor, 2018-05-04 In post Soviet Russia s transition to new political and economic systems few issues are as important as labor Although the worker s paradise may have been largely imaginary the loss of job security and benefits that has accompanied marketization could well become a catalyst for yet another political upheaval In this timely book Walter Connor explores how the Yeltsin government attempted to avoid this pitfall of system change Connor examines Russia s emergent labor politics in the critical first years of the post Soviet period focusing on the problems Yeltsin encountered in attempting to adopt a corporatist solution to the conflicts of interest that have arisen between labor employers and the state With many employers still heavily dependent on the state while others are already beyond state control the corporatist effort has been sabotaged Connor contends by the lack of distinct interest groups found in more mature market economies He concludes with an analysis of what these recent developments may portend for Russian politics and government in the future The Transformation of Chinese Socialism Chun Lin, 2006 A significant contribution to both political theory and China studies this volume provides a critical assessment of the past and

future Chinese socialism **After the End** James M. Scott, 1999-01-21 In the political landscape emerging from the end of the Cold War making U S foreign policy has become more difficult due in part to less clarity and consensus about threats and interests In *After the End* James M Scott brings together a group of scholars to explore the changing international situation since 1991 and to examine the characteristics and patterns of policy making that are emerging in response to a post Cold War world These essays examine the recent efforts of U S policymakers to recast the roles interests and purposes of the United States both at home and abroad in a political environment where policy making has become increasingly decentralized and democratized The contributors suggest that foreign policy leadership has shifted from White House and executive branch dominance to an expanded group of actors that includes the president Congress the foreign policy bureaucracy interest groups the media and the public The volume includes case studies that focus on China Russia Bosnia Somalia democracy promotion foreign aid and NAFTA Together these chapters describe how policy making after 1991 compares to that of other periods and suggest how foreign policy will develop in the future This collection provides a broad balanced evaluation of U S foreign policy making in the post Cold War setting for scholars teachers and students of U S foreign policy political science history and international studies Contributors Ralph G Carter Richard Clark A Lane Crothers I M Destler Ole R Holsti Steven W Hook Christopher M Jones James M McCormick Jerel Rosati Jeremy Rosner John T Rourke Renee G Scherlen Peter J Schraeder James M Scott Jennifer Sterling Folker Rick Travis Stephen Tving
