Global Culture: Consciousness and Connectivity Roland Robertson, Didem Buhari-Gulmez, 2017-05-15 The current discourse of globalization is overwhelmingly centred upon the interconnectedness or connectivity of the contemporary world to the great neglect of the issues of global culture and global consciousness With contemporary worldwide culture increasingly characterized by such themes as astronomy cosmology space travel and exploration there is an increasing disjuncture between academic concern with connectivity on the one hand and culture and consciousness of the place of planet earth in the cosmos as a whole on the other This book addresses this

deficiency from a variety of closely related perspectives presenting studies of religion science sport international organizations global resistance movements and migrations and developments in East Asia It brings together the latest theoretical empirical work from scholars in the US UK Australia Japan China and Israel on the significance of culture and global consciousness As such Global Culture Consciousness and Connectivity will be of great interest to scholars across and beyond the social sciences working in the areas of global studies cultural studies social theory the sociology of religion and related issues

Global University Rankings T. Erkkilä, 2013-09-26 Global University Rankings explores the novel topic of global university rankings and their effects on higher education in Europe The contributions in this volume outline different discourses on global university rankings and explore the related changes concerning European higher education policies disciplinary traditions and higher education institutions The first global university rankings were published less than a decade ago but these policy instruments have become highly influential in shaping the approaches and institutional realities of higher education The rankings have portrayed European academic institutions in a varying light There is intense reflexivity over the figures leading to ideational changes and institutional adaptation that take surprisingly similar forms in different European countries The contributions in this book critically assess global university rankings as a policy discourse that would seem to be instrumental to higher education reform throughout Europe

The Oxford Handbook of Global Studies Mark Juergensmeyer, Saskia Sassen, Manfred B. Steger (ed), 2019 Since the end of the Cold War globalization has been reshaping the modern world and an array of new scholarship has risen to make sense of it in its various transnational manifestations including economic social cultural ideological technological environmental and in new communications The chapters discuss various aspects in the field through a broad range of approaches This handbook focuses on global studies more than on the phenomenon of globalization itself although the various aspects of globalization are central to understanding how the field is currently being shaped
