Chinese consumption patterns and globalization in China* Sina Gerdes, 2014-07-21 Research Paper postgraduate from the year 2014 in the subject Politics Topic Globalization Political Economics grade 1 7 University of Paderborn language English abstract Eating is a basic need for human life and the variety of offered food worldwide is huge In China the fast developing nation with an increasing number of habitants and a booming economy the offer of foreign cuisines grows steadily The variety includes Western dishes too which are slowly establishing in China Existing differences between Chinese and Western restaurants and dishes are obvious Thus this paper investigates which factors influence the consumption patterns of the Chinese regarding Western food taking the current offer in Shanghai as an example Exploring this question a qualitative analysis with Chinese participants was conducted For the analysis 15

categories were developed based on 7 interviews which provided detailed information about the participant's attitude, opinion and consumption behavior regarding Western food. The Chinese consciously chose Western restaurants because of the environment, the different taste of the food or to learn more about a foreign culture. Due to the Opening up policy and an ongoing globalization process, the younger generation becomes more open-minded and interested in experiencing something new and demands an increased offer with high quality. Implications and limitations are discussed. This research paper reveals the need to question the consumption patterns of the Chinese in order to learn about their wants and figure out what they like and dislike regarding Western food. **When China Rules the World** Martin Jacques, 2009-11-12

Greatly revised and expanded with a new afterword, this update to Martin Jacques's global bestseller is an essential guide to understanding a world increasingly shaped by Chinese power. Soon China will rule the world. But in doing so, it will not become more Western. Since the first publication of *When China Rules the World*, the landscape of world power has shifted dramatically. In the three years since the first edition was published, *When China Rules the World* has proved to be a remarkably prescient book, transforming the nature of the debate on China. Now in this greatly expanded and fully updated edition, boasting nearly 300 pages of new material and backed up by the latest statistical data, Martin Jacques renews his assault on conventional thinking about China's ascendancy, showing how its impact will be as much political and cultural as economic, changing the world as we know it. First published in 2009 to widespread critical acclaim and controversy, *When China Rules the World: The End of the Western World and the Birth of a New Global Order* has sold a quarter of a million copies, been translated into eleven languages, nominated for two major literary awards, and is the subject of an immensely popular TED talk. **Anthropology Of China, The: China As Ethnographic And Theoretical Critique** Stephan

Feuchtwang, Charlotte Bruckermann, 2016-07-13 Putting China into the context of general anthropology offers novel insights into its history, culture, and society. Studies in the anthropology of China need to look outwards to other anthropological areas, while at the same time anthropologists specialised elsewhere cannot afford to ignore contributions from China. This book introduces a number of key themes, and in each case describes how the anthropology and ethnography of China relates to the surrounding theories and issues. The themes chosen include the anthropology of intimacy, morality of food and of feasting, as well as the anthropology of civilisation, modernity and the state. The Anthropology of China covers both long historical perspectives and ethnographies of the twenty-first century. For the first time, ethnographic perspectives on China are contextualised in comparison with general anthropological debates. Readers are invited to engage in and rethink China's place within the wider world, making it perfect for professional researchers and teachers of anthropology and Chinese history and society, and for advanced undergraduate and graduate study. **Jews and Their Foodways** Anat Helman, 2015 Bringing together contributions from a diverse group of scholars, Volume XXVIII of *Studies in Contemporary Jewry* presents a multifaceted view of the subtle and intricate relations between Jews and their foodways.
