Narratives about Jews among Muslims in Norway Vibeke Moe Bjørnbekk, 2024-06-17 What is the nature of Muslim Jewish relations in Europe today Based on qualitative interview data this book explores narratives about Jews among Muslims in Norway Drawing on culturally embedded narratives as well as personal experiences interviewees reflect on the relationship between Jews and Muslims The interreligious exchange between Islam and Judaism is as old as Islam Today the Arab Israeli conflict has become an important frame of reference in the public discourse on Muslim Jewish relations The narratives presented in this book delineate shifting community boundaries and identifications that transcend dichotomised notions of Muslims versus Jews The analysis shows how Jewish history in Europe and the history of modern antisemitism serve as interpretative keys in the narratives used for explaining the situation of the Muslim minority today Furthermore the book demonstrates how interviewees' perceptions of society's attitudes toward Muslim and Jewish experiences also strongly influence their perceptions of Muslim Jewish relations

Illuminating the Dark Arts of War David Tucker, 2012-03-01 Since 9/11 the dominant view is that we have entered an era of new conflict in which technology has empowered non state actors who now pose unprecedented and unmanageable threats to U.S. national security This unique work studies a range of threats from homegrown and foreign terrorism to the possibility of cyber or Chinese sabotage and fears of religious subversion to challenge every aspect of this new conflict argument and expose its underlying exaggerations and misunderstandings Examining such issues as political violence the role of religion in terrorism the impact of technology and the political aspects of homeland security this unique survey demonstrates how such activities as terrorism are limited by their clandestine nature

It also addresses why we need to switch our strategic focus and increase the role citizens have in dealing with such threats. This historically informed and critical analysis fills a void in the debates on the threats and conflicts that the U S confronts at home and abroad and will appeal to anyone interested in national security and terrorism.

Globalization Frank J. Lechner, 2009-03-16 GLOBALIZATION Lechner has drawn on his extensive work on and his deep knowledge of globalization to write a brief accessible and highly successful introduction to the field. The early chapters on food, sport and mass media should pique the student's interest and lure them into a deeper involvement with later chapters and the field in general. George Ritzer, University of Maryland. Frank Lechner's text takes on key issues in the study of globalization with real clarity and critical power. An authoritative account of the major issues, theories and debates in the field aptly illustrated by diverse contemporary examples, this text offers a clear analysis of a complex topic that will be an invaluable resource for students and scholars. Fran Tonkiss, London School of Economics. Written in a lively and accessible style, *Globalization: The Making of World Society* shows how globalization affects everyday experience, creates new institutions and presents new challenges. With many examples, Lechner describes how the process unfolds in a wide range of fields from sports and media to law and religion. While sketching the outlines of a world society, in the making, the book also demonstrates that globalization is inherently diverse and contentious. In this concise analysis of a complex subject, Lechner presents some of the best work in the social sciences in clear and readable fashion. *Globalization: The Making of World Society* will serve as a stimulating state of the art text for any student of globalization, beginner or advanced.

Living with Globalization Paul Hopper, 2006-03-01 The term globalization generally refers to the homogenization of cultures across the world due to Western encroachment. However, as this book explains, the process is far more subtle, complex and uneven. Taking as its starting point the fundamental question of whether globalization exists, *Living with Globalization* provides a lively discussion of one of the most used and abused concepts in the twenty-first century. If globalization is a valid construct, it manifests itself in lived experience, not in abstract theories. Examining the ways in which globalization is contributing to patterns of conflict, *Living with Globalization* explores a variety of case studies ranging from 9/11 to identity formation. The book reveals the complex ramifications of globalization on society, government and everyday lives.
