Herbert, 2012-01-31 Like their penchant for clubs cricket and hunting the planting of English gardens by the British in India reflected an understandable need on the part of expatriates to replicate home as much as possible in an alien environment In *Flora's Empire* Eugenia W. Herbert argues that more than simple nostalgia or homesickness lay at the root of this garden imperialism however Drawing on a wealth of period illustrations and personal accounts many of them little known she traces the significance of gardens in the long history of British relations with the subcontinent To British eyes she demonstrates India was an untamed land that needed the visible stamp of civilization that gardens in their many guises could convey Colonial gardens changed over time from the garden houses of eighteenth century nabobs modeled on English country estates to the herbaceous borders gravel walks and well trimmed lawns of Victorian civil servants As the British extended their rule they found that hill stations like Simla offered an ideal retreat from the unbearable heat of the plains and a place to coax English flowers into bloom Furthermore India was part of the global network of botanical exploration and collecting that gathered up the world's plants for transport to great imperial centers such as Kew And it is through colonial gardens that one may track the evolution of imperial ideas of governance Every Government House and Residency was carefully landscaped to reflect current ideals of an ordered society At Independence in 1947 the British left behind a lasting legacy in their gardens one still reflected in the design of parks and information technology campuses and in the horticultural practices of home gardeners who continue to send away to England for seeds **Warfare and Society in British India, 1757-1947** Ashutosh Kumar, Kaushik Roy, 2022-12-30 This book explores the intricate and intimate relationship between military organization imperial policy and society in colonial South Asia The chapters in the volume focus on technology logistics and state building The present volume highlights the salient features of expansion and consolidation of imperial control over the subcontinent and ultimate demise

of the Raj Further it turns the spotlight on to subaltern challenges to imperialism as well as the role of non combatants in warfare The volume Deals with both conventional and guerrilla conflicts and focuses on the frontiers both North West and North East including Burma Looks at the army as an institution rather than present a chronological account of military operations which highlights the complex and tortuous relationship between combat institution colonial state and Indian society Integrates top down approaches in military and strategic studies with the bottom up perspectives and discusses on how the conduct of war organisation and technology is related to the economic societal and cultural impact of war A rich account of the British Army in India this book will be essential reading for scholars and researchers of South Asian history military history political history colonialism and the British Empire **Britain and Tibet 1765-1947** Julie G. Marshall,2005 This bibliography is a record of British relations with Tibet in the period 1765 to 1947 As such it also involves British relations with Russia and China and with the Himalayan states of Ladakh Lahul and Spiti Kumaon and Garhwal Nepal Sikkim Bhutan and Assam in so far as British policy towards these states was affected by her desire to establish relations with Tibet It also covers a subject of some importance in contemporary diplomacy It was the legacy of unresolved problems concerning Tibet and its borders bequeathed to India by Britain in 1947 which led to border disputes and ultimately to war between India and China in 1962 These borders are still in dispute today It also provides background information to Tibet s claims to independence an issue of current importance The work is divided into a number of sections and subsections based on chronology geography and events The introductions to each of the sections provide a condensed and informative history of the period and place the books and article in their historical context Most entries are also annotated This work is therefore both a history and a bibliography of the subject and provides a rapid entry into a complex area for scholars in the fields of international relations and military history as well as Asian history **The Strangled Traveler** Martine van Woerkens,2002-11 British colonists in 1830s India lived in terror of the Thugs Reputed to be brutal criminals the Thugs supposedly strangled beheaded and robbed thousands of travelers in the goddess Kali s name The British responded with equally brutal repression of the Thugs and developed a compulsive fascination with tales of their monstrous deeds Did the Thugs really exist or did the British invent them as an excuse to seize tighter control of India Drawing on historical and anthropological accounts Indian tales and sacred texts and detailed analyses of the secret Thug language Martine van Woerkens reveals for the first time the real story of the Thugs Many different groups of Thugs actually did exist over the centuries but the monsters the British made of them had much more to do with colonial imaginings of India than with the real Thugs Tracing these imaginings down to the present van Woerkens reveals the ongoing roles of the Thugs in fiction and film from Frankenstein to Indiana Jones and the Temple of Doom **Glorious sahibs. The romantic as empire-builders, 1799-1838. [With plates.]** Michael Edwardes,1968 **A Neighborhood That Never Changes** Japonica Brown-Saracino,2010-01-15 Newcomers to older neighborhoods are usually perceived as destructive tearing down everything

that made the place special and attractive But as *A Neighborhood That Never Changes* demonstrates many gentrifiers seek to preserve the authentic local flavor of their new homes rather than ruthlessly remake them Drawing on ethnographic research in four distinct communities the Chicago neighborhoods of Andersonville and Argyle and the New England towns of Provincetown and Dresden Japonica Brown Saracino paints a colorful portrait of how residents new and old from wealthy gay homeowners to Portuguese fishermen think about gentrification The new breed of gentrifiers Brown Saracino finds exhibits an acute self consciousness about their role in the process and works to minimize gentrification s risks for certain longtime residents In an era of rapid change they cherish the unique and fragile whether a dilapidated house a two hundred year old landscape or the presence of people deeply rooted in the place they live Contesting many long standing assumptions about gentrification Brown Saracino s absorbing study reveals the unexpected ways beliefs about authenticity place and change play out in the social political and economic lives of very different neighborhoods *A London Bibliography of the Social Sciences* ,1973 Vols 1 4 include material to June 1 1929 *The India Collection* ,1982 Catalog of books on British India 1672 1947 British Council organized exhibition collection at the custody of the India International Centre Library Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library.
