Islam in Global Modernity Dietrich Jung, 2023-01-01 This book combines sociological theorising with studies on the Middle East and Islam The diversity of modernities that can be observed in our world is linked to the claim of living in a global modernity in a world society The book underpins this claim with numerous excursions into Islamic history It criticises the view that modernisation can be equated with westernisation and considers different projects of specifically Islamic modernities as integral parts of world society From this perspective the study contributes to the provincialisation of European history in contemporary social scientific thought Contrary to the theories of postcolonialism associated with the call for the provincialisation of Europe however this book adheres to essential traditions of classical sociology It thus aims to make a contribution to the social theoretical discussion on modernity which is empirically underpinned with the help of data from the history of the Middle East and Islam The translation was done with the help of artificial intelligence A subsequent human revision was done primarily in terms of content

Theory as Ideology in International Relations Benjamin Martill, Sebastian Schindler, 2020-03-13 Are theoretical tools nothing but political weapons How can the two be distinguished from each other What is the ideological role of theories like liberalism neoliberalism or democratic theory And how can we study the theories of actors from outside the academic world This book examines these and related questions at the nexus of theory and ideology in International Relations The current crisis of politics made it abundantly clear that theory is not merely an impartial and neutral academic tool but instead is implicated in political struggles However it is also clear that it is insufficient to view theory merely as a political weapon This book brings together contributions from a number of different scholarly perspectives to engage with these problems The contributors drawn from various fields of International Relations and Political Science cast new light on the ever problematic relationship between theory and ideology They analyse the ideological underpinnings of existing academic theories and examine the theories of non academic actors such as staff members of international organisations Ecovillagers and liberal politicians This edited volume is a must read for all those interested in the contemporary political crisis and its relation to theories of International Relations

The Sociology of Intellectuals Simon Susen, Patrick Baert, 2017-11-15 This volume offers an unprecedented account of recent and future developments in the sociology of intellectuals It presents a critical exchange between two leading contemporary social theorists Patrick Baert and Simon Susen advancing debates at the cutting edge of scholarship on the changing role of intellectuals in the increasingly interconnected societies of the twenty first century The discussion centres on Baert s most recent contribution to this field of inquiry The Existentialist Moment The Rise of Sartre as a Public Intellectual 2015

demonstrating that it has opened up hitherto barely explored avenues for the sociological study of intellectuals In addition the authors provide an overview of various alternative approaches that are available for understanding the sociology of intellectuals such as those of Pierre Bourdieu Randall Collins and Neil Gross In doing so they grapple with the question of the extent to which intellectuals can play a constructive role in influencing social and political developments in the modern era This insightful volume will appeal to students and scholars of the humanities and social sciences particularly to those interested in social theory and the history of intellectual thought

The European Social Dialogue Under Articles 138 and 139 of the EC Treaty Christian Welz,2008-01-01 Describes analyses and assesses the European social dialogue from a combined theoretical and normative perspective and applies theoretical strands stemming from industrial relations EC law and political theory to an understanding and assessment of the genesis actors processes and outcomes of the European social dialogue through 2007

Conflict in a Buddhist Society Peter Schwieger,2021-08-31 Conflict in a Buddhist Society presents a new way of looking at Tibet under the rule of the Dalai Lamas 1642 1959 Although this era can be clearly delineated as a distinct period in the history of Tibet many questions remain concerning the specific form of rule established Author Peter Schwieger attempts to make transparent the complexity and dynamics of the Dalai Lamas domination using the work of sociologist Niklas Luhman 1927 1998 as his theoretical starting point Luhman s systems theory allows Schwieger to approach Tibetan history and culture as a remarkable effort to create under times of great conflict and stress and using uncommon means a stable social and political order Such a methodology provides the distance needed to move beyond event based narrative history and understand the structures that made social action possible in Tibet and the operations by which its society as a whole distinguished itself from its environment Schwieger begins by asking the crucial question of how Tibet s society dealt with conflict The chapters that follow answer this question from various perspectives history and memory domination hierarchy center and periphery semantics morality and ethics ritual law and war Each reveals a different avenue for cross cutting discourses in the historical and social sciences Together they provide a comprehensive picture of how conflicts were portrayed in Tibet society and how the manner in which they were handled stabilized the country for a considerable time but were ultimately unsuccessful in the face of radical upheavals in its environment Situated at the intersection of systems theory conflict theory and Tibetan Inner Asian history and society Conflict in a Buddhist Society will be of considerable interest to students and scholars in these areas Its theoretical rather than narrative descriptive approach to the history of the three centuries of Dalai Lama rule will be welcomed as wide ranging

and insightful **Putting Civil Society in Its Place** Bob Jessop,2022-03 Bob Jessop explores the idea of civil society as a mode of governance Reviewing concepts of self emancipation and self responsabilisation he challenges conventional thinking and identifies lessons for future social innovation The Evolution of Intermediary Institutions in Europe Poul F Kjaer,Eva Hartmann,2015-08-11 This book investigates the consecutive shifts between three types of intermediary institutions in the European context Corporatist Neo corporatist and Governance institutions It does so by combining insights from European Political Economy European Integration and governance studies and socio legal studies in the European context

Ecocriticism, Ecology, and the Cultures of Antiquity Christopher Schliephake,2016-12-07 Although current environmental debates lay the focus on the Industrial Revolution as a sociopolitical development that has led to the current environmental crisis many ecocritical projects have avoided historicizing their concepts or have been characterized by approaches that were either pre historic or post historic while the environmental movement has harbored the dream of restoring nature to a state untouched by human hands there is also the pessimistic vision of a post apocalyptic world exhausted by humanity s consumption of natural resources Against this background the decline of nature has become a narrative template quite common among the public environmental discourse and environmental scientists alike The volume revisits Antiquity as an epoch which witnessed similar environmental problems and came up with its own interpretations and solutions in dealing with them This decidedly historical perspective is not only supposed to fill in a blank in ecocritical discourse but also to question problematize and inform our contemporary debates with a completely different take on nature and humanity s place in the world Thereby a productive dialogue between contemporary ecocritical theories and the classical tradition is established that highlights similarities as well as differences This volume is the first book to bring ecocriticism and the classical tradition into a comprehensive dialogue It assembles recognized experts in the field and advanced scholars as well as young and aspiring ecocritics In order to ensure a dialogic exchange between the contributions the volume includes four response essays by established ecocritics which embed the sections within a larger theoretical and practical ecocritical framework and discuss the potential of including the pre modern world into our environmental debates

Critique of Authenticity Thomas Claviez,Kornelia Imesch,Britta Sweers,2020-01-10 The volume provides a critical assessment of the concept of authenticity and gauges its role significance and shortcomings in a variety of disciplinary contexts Many of the contributions communicate with each other and thus acknowledge the enormous significance of this politically morally philosophically and economically charged concept that at the same time harbors dangerous implications and has been critically deconstructed The volume shows that the alleged need or desire for authenticity is alive and kicking but oftentimes comes at a high price connected to a culture of experts authority and exclusionary strategies **Modeling and Simulating Urban Processes** Andreas Koch,Peter Mandl,2011 Urban processes like segregation migration or economic transition take place at different temporal and spatial scales Adequate modeling and simulation techniques are in

great demand which consider bottom up and top down relationships equally This volume presents approaches within the field of complexity theory ranging from spatial econometric models to geostatistical techniques and multi agent system simulations to analyze and visualize patterns of social organization individual behavior and spatial fabrics **Soziologische Theorien kompakt** Martin Endreß, 2023-10-04 Das Buch stellt theoretische Ansätze der Soziologie in ihren Grundlagen und Grundfragen sowie den mit ihnen verbundenen Gegenwartsdiagnosen vor Es konzentriert sich auf die klassischen Grundlegungen der Soziologie und die zentralen theoretischen Weiterentwicklungen im 20. Jahrhundert die nach wie vor als Orientierungspunkte der theoretischen Debatten dienen Die Darstellung ist konsequent vergleichend angelegt sowohl hinsichtlich des Aufbaus der einzelnen Kapitel als auch hinsichtlich der behandelten inhaltlichen Aspekte Zusammenfassende Übersichten für jeden der behandelten Ansätze und vergleichend zum Abschluss des Bandes ermöglichen einen komparativen Blick auf Ausrichtungen und Schwerpunkte der einzelnen Theorien Für die vierte Auflage wurde der Text vollständig durchgesehen bearbeitet und in den Literaturhinweisen aktualisiert Konsequent einheitlicher Kapitel Aufbau Begriffserklärungen und zusammenfassende Übersichten Ansatz bergreifende Vergleichsübersicht Fragen zur Prüfungsvorbereitung ansatzbezogen und bergreifend Weiterführende Literaturhinweise Ausführliches Namens- und Sachregister

Fußball als Paradoxon der Moderne Marion Müller, 2009-07-06 Warum stellt sich beim Fußball eigentlich niemand daran wenn Franz Beckenbauer über die angeborene Geschmeidigkeit der Afrikaner sinniert Warum finden wir die Existenz von Ausländerregelungen in der Bundesliga so selbstverständlich Und weshalb ist die Vorstellung so abwegig dass Frauen und Männer gemeinsam Fußball spielen In jedem anderen Funktionssystem wären derartige partikularistische Diskriminierungen hochgradig legitimationspflichtig Nur im Fußball bzw im Sport werden nationale ethnische sowie geschlechtliche Zuschreibungen unhinterfragt akzeptiert Wieso aber gelten Ausländerbeschränkungen und Geschlechtersegregation nicht als Widerspruch zum sportlichen Leistungsprinzip und dem Inklusionspostulat funktional differenzierter Gesellschaften Diese Fragen werden in der vorliegenden Arbeit anhand einer historischen Analyse des Fußballsports und ethnografischer Untersuchungen in drei Bundesligaklubs beantwortet **Handbuch Journalismustheorien** Martin Löffelholz, Liane
