## **Glyph Five Textual Studies:**

**Essaying Montaigne** John O'Neill, 2001-05-01 John O'Neill reads Montaigne's Essays from their central principle of friendship as a communicative and pedagogical practice operative in society, literature and politics. The friendship between Montaigne and La Boétie was ruled neither by plenitude nor lack but by a capacity for recognition and transitivity. As an essayist, Montaigne is an exemplary practitioner of a technique of difference and recognition that puts all certainties of history, philosophy and culture in the balance of weighted comparison. The essayist reveals how every absolute subjectivity or authority is shaken by its internal weakness once we move inside the contrastive structure of domination in politics, gender and race. O'Neill's reading of the Essays strives to be faithful to the phenomenology of their embodied practices of reading to write, to re-read and re-write. From this standpoint, he engages the principal critical readings of the Essays over the last century that have examined with great brilliance their history, structure and psychology. Whether the structure is evolutionary, structuralist, Marxist or psychoanalytical, O'Neill provides close readings of Montaigne's literary critics. By bringing to bear the ethico-critical practice of essaying to resist the subjection of the Essays to dominant criticism, O'Neill reminds readers that Montaigne's appeal is in how he survived bloody cultural war with a balance of modesty and tolerance, invoking compromise where others practice violence.

**Dark Twins** Susan Gillman, 1989-01-15 Many persons have such a horror of being taken in, wrote P.T. Barnum, that they believe themselves to be a sham and are continually humbugging themselves. Mark Twain enjoyed trading on that horror as the many confidence men assumed identities and disguised characters in his fiction attest. In *Dark Twins*, Susan Gillman challenges the widely held assumption that Twain's concern with identity is purely biographical and argues that what has been regarded as a problem of individual psychology must be located instead within American society around the turn of the century. Drawing on Twain's whole writing career but focusing on the controversial late period of social pessimism and literary incoherence, Gillman situates Twain and his work in historical context, demonstrating the complex interplay between his most intimate personal and authorial identity and the public attitudes toward race, gender and science. Gillman shows that laws regulating race classification, paternity and rape cases underwrite Twain's critical exploration of racial and sexual difference in the writings of the 1890s and after, most strikingly in the little-known manuscripts that Gillman calls the tales of transvestism. The pseudoscience of spiritualism and the science of psychology provide the cultural vocabularies essential to Twain's fantasy and science-fiction writings of his last two decades. Twain stands forth finally as a representative man, not only a child of his culture but also as one implicated in a continuing American anxiety about freedom, race and identity.

*The Revolution in the Visual Arts and the Poetry of William Carlos Williams* Peter Halter, 1994-07-29 This book is a major step toward a fuller exploration of the connection between the visual arts and Williams' concept of the Modernist poem and of his achievement in transcending an art-for-art's-sake formalism to create poems that both reflect their own nature as a work of art and vividly evoke the world of which they are a part.

**Archaeological Studies in Middle America** , 1970      **The Niagara Companion** Linda L. Revie, 2010-11-22 What is it about Niagara Falls that fascinates people What draws them to it Is it love obsession or fear In *The Niagara Companion* Linda

Revie searches for an answer to these questions by examining the paintings and writings about the Falls from the late seventeenth century when the first Europeans discovered Niagara to the early twentieth century Linda Revie's study considers how three centuries of representations are shaped by the earliest encounters with the waterfall and notes shifts in the construction of landscape features and in human figures both Native and European in the long history of fine art depictions Travel narratives both literary and scientific also come under her scrutiny and reveal how these chronicles were influenced by previous pictures coming out of Niagara particularly some of the first from the seventeenth century In all of these portraits and texts she notes a common pattern of response from the observers moving from anticipation to disappointment to a kind of recovery But in the end there is fear Even long after Niagara had become a tourist mecca it was often drawn as a primordial wilderness a place where civilization vies with wildness artifice with nature fear with control the natural with the mastered Throughout this history of images and narratives as humans struggle to control nature the notion of wildness prevails Those who want a deeper understanding of why Niagara Falls continues to fascinate us even today will find Linda Revie's book an excellent companion

**The Novel Histories of Galdos** Diane Faye Urey, 2014-07-14 Benito Perez Galdos 1843-1920 occupies a position in Spanish literature surpassed only by Cervantes and like him made a major contribution to the European novel that is now becoming widely recognized In a semiological approach to the second period of *Episodios Nacionales* Diane Urey demonstrates the relevance of these twenty-six novels the least studied of Galdos's works to fundamental issues such as the relationship between history and fiction and between mimesis and creation Her findings of ambiguity irony and allegory in this writer's highly self-conscious historical novels will revise our views of Galdos's place in European letters while offering new insights into a general theory of historical fiction Diane Urey offers an alternative to referential or ideological interpretations of the *Episodios* by stressing the indeterminate textuality of historical incidents and the fictionality of historical discourse Drawing on Derrida De Man Foucault and Hayden White she applies a wide range of narrative theory to these texts and concludes that novel and history are interchangeable modes of discourse because they rely necessarily on the same narrative strategies Originally published in 1989 The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Pacific** Jukka Siikala, 2021-09-29 Culture and History in the Pacific is a collection of essays originally published in 1990. The texts explore from different perspectives the question of culture as a repository of historical information. They also address broader questions of anthropological writing at the time such as the relationship between anthropologists' representations and local conceptions. This republication aims to make the book accessible to a wider audience and in the region it discusses Oceania. A new introductory essay has been included to contextualize the volume in relation to its historical setting: the end of the Cold War era and to the present study of the Pacific and indigenous scholarship. The authors of Culture and History in the Pacific include prominent anthropologists of the Pacific, some of whom Roger Keesing and Marilyn Strathern to name but two have also been influential in the anthropology of the late 20th and early 21st century in general.

### **National Melancholy**

Mitchell Robert Breitwieser, 2007 Breitwieser's close readings reveal that the thwarting of mourning, partly linked to nationalist feeling, was a central issue for many American authors, but that those who successfully reclaimed mourning came to strange and fresh understandings of the actual world.
