Gnosticism And Christianity In Roman And Coptic Egypt:

Gnosticism and Christianity in Roman and Coptic Egypt Birger Albert Pearson, 2004-01-01 This book provides significant insights into the rise of early Christianity in Egypt and its impact on Christianity in Palestine Gnosticism, Judaism, and Egyptian Christianity Birger A. Pearson, In this important contribution to the scholarly study of Egyptian Gnosticism Pearson situates Gnosticism in its historical context and describes its manifold relationships to Judaism early Christianity and ancient Platonism Birger Pearson gives special attention to the controversial issue of the impact of Gnosticism on early Egyptian Christianity up to the Muslim conquest of the seventh century Pearson is one of the most thorough and perceptive scholars in Gnostics studies today The topics he deals with here are current and important and no doubt will remain so for some time This volume is a must for everyone in the field Douglas M Parrott University of California Riverside Uniformly excellent contributions on the subject Students and teachers will benefit from Pearson's insightful and creative observations Marvin Meyer Chapman College **Gnostic Religion in Antiquity** R. van den Broek, 2013-01-24 An examination of Gnostic religion in Late Antiquity within its historical and religious context using Greek Latin and Coptic sources *The Christian Epigraphy of Egypt and Nubia* Jacques van der Vliet, 2018-04-20 Collected Studies CS1070 The present book collects 31 articles that Jacques van der Vliet a leading scholar in the field of Coptic Studies Leiden University Radboud University Nijmegen has published since 1999 on Christian inscriptions from Egypt and Nubia These inscriptions are dated between the third fourth and the fourteenth centuries and are often written in Coptic and or Greek once in Latin and sometimes partly in Arabic Syriac or Old Nubian They include inscriptions on tomb stones walls of religious buildings tools vessels furniture amulets and even texts on luxury garments Whereas earlier scholars in the field of Coptic Studies often focused on either Coptic or Greek Van der Vliet argues that inscriptions in different languages that appear in the same space or on the same kind of objects should be examined together In addition he aims to combine the information from documentary texts archaeological remains and inscriptions in order to reconstruct the economic social and religious life of monastic or civil communities He practiced this methodology in his studies on the Fayum Wadi al Natrun Sohag Western Thebes and the region of Aswan and Northern Nubia which are all included in this book *The World of Early Egyptian Christianity* D. W Johnson, 2007-04 With increasing interest in early Egyptian Coptic Christianity this volume offers an important collection of essays about Coptic language literature and social history by the very finest authors in the field The essays explore a wide range of topics and offer much to the advancement of Coptic studies Orthodoxy and Heresy in Early Christian Contexts Paul A. Hartog, 2015-01-30 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day The victors re wrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity Bauer's influence still casts a long shadow

on early Christian scholarship Were heretical movements the original forms of Christianity Did the heretics outnumber the orthodox Did orthodox heresiologists accurately portray their opponents And more fundamentally how can one make any objective distinction between heresy and orthodoxy Is such labeling merely the product of socially situated power Did numerous valid forms of Christianity exist without any validating norms of Christianity This collection of essays each written by a relevant authority tackles such questions with scholarly acumen and careful attention to historical cultural geographical and socio rhetorical detail Although recognizing the importance of Bauer s critical insights innovative methodologies and fruitful suggestions the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence With contributions from Rodney Decker Carl Smith William Varner Rex Butler Bryan Litfin Brian Shelton David Alexander Edward Smither Glen Thompson The Sentences of Sextus and the Origins of Christian Asceticism Daniele Pevarello,2013-11-19 Daniele Pevarello analyzes the Sentences of Sextus a second century collection of Greek aphorisms compiled by Sextus an otherwise unknown Christian author The specific character of Sextus collection lies in the fact that the Sentences are a Christian rewriting of Hellenistic sayings some of which are still preserved in pagan gnomologies and in Porphyry Pevarello investigates the problem of continuity and discontinuity between the ascetic tendencies of the Christian compiler and aphorisms promoting self control in his pagan sources In particular he shows how some aspects of the Stoic Cynic Platonic and Pythagorean moral traditions such as sexual restraint voluntary poverty the practice of silence and of a secluded life were creatively combined with Sextus ascetic agenda against the background of the biblical tradition Drawing on this adoption of Hellenistic moral traditions Pevarello shows how great a part the moral tradition of Greek paideia played in the shaping and development of self restraint among early Christian ascetics **Early Christianity in Alexandria** M. David Litwa,2023-12-21 Alexandria was the epicenter of Hellenic learning in the ancient Mediterranean world yet little is known about how Christianity arrived and developed in the city during the late first and early second century CE In this volume M David Litwa employs underused data from the Nag Hammadi codices and early Christian writings to open up new vistas on the creative theologians who invented Christianities in Alexandria prior to Origen and the catechetical school of the third century With clarity and precision he traces the surprising theological continuities that connect Philo and later figures including Basilides Carpocrates Prodicus and Julius Cassianus among others Litwa demonstrates how the earliest followers of Jesus navigated Jewish theology and tradition while simultaneously rejecting many Jewish customs and identity markers before and after the Diaspora Revolt His book shows how Christianity in Alexandria developed distinctive traits and seeded the world with ideas that still resonate today *The Codex Judas Papers* April D. DeConick,2009-12-14 This book contains the proceedings from the Codex Judas Congress the first international conference held to discuss the newly restored Tchacos Codex Given that the Tchacos Codex is a newly conserved ancient book of Christian manuscripts which had yet to be discussed collaboratively by a body of scholars the research conducted and

published within this book by the members of the Codex Judas Congress is nothing less than a landmark in Gnostic studies. Scholars address issues of identity and community portraits of Judas, astrological lore, salvation and praxis, text and intertext and manuscript matters. Although the contributions show a variety of interpretations of the Tchacos texts, several points of agreement emerge, including the assessment that the Codex belonged to early Christians in conflict with other Christians who belonged to the apostolic or conventional church. Contributors include Grant Adamson, Johanna Brankaer, Fernando Bermejo Rubio, Serge Cazalais, April D DeConick, Ismo Dunderberg, Niclas F rster Wolf, Peter Funk, Simon Gathercole, Matteo Grosso, Lance Jenott, Karen King, Nicola Denzey Lewis, Alastair Logan, Antti Marjanen, Marvin Meyer, Elaine Pagels, Birger A Pearson, Pierluigi Piovaneli, James M Robinson, Gesine Schenke, Robinson Kevin, Sullivan Franklin, Trammel Johannes van Oort, Bas van Os, Louis Painchaud, Tage Petersen, John D Turner, and Gregor Wurst.

Telling the Christian Story Differently Francis Watson, Sarah Parkhouse, 2020-06-25. This volume examines the counter narratives of the core Christian story proposed by texts from Nag Hammadi and elsewhere. A noteworthy body of highly respected scholars examine material that is sometimes difficult and often overlooked, contributing to the ongoing effort to integrate Nag Hammadi and related literature into the mainstream of New Testament and early Christian studies. By retracing the major elements of the Christian story in sequence, they are able to discuss how and why each aspect was disputed on inner Christian grounds and to reflect on the different accounts of Christian identity underlying these disputes. Together, the essays in this book address a central issue: towards the end of the second century, Irenaeus could claim that the overwhelming majority of Christians throughout the world were agreed on a version of the core Christian story which is still recognisable today. Yet as Irenaeus concedes, and as the Nag Hammadi texts have confirmed, there were many who wished to tell the core Christian story differently. Those who criticized and rejected the standard story did so not because they were adherents of another religion, Gnosticism, but because they were Christians who believed that the standard account was wrong at point after point. Ranging from the Gospels of Judas and Mary to Galatians and Ptolemy's Letter to Flora, this volume provides a fascinating analysis of how the Christian story as we know it today developed against counter readings from other early Christian traditions.

The Cambridge History of Philosophy in Late Antiquity Lloyd P. Gerson, 2015-12-10. The Cambridge History of Philosophy in Late Antiquity comprises over forty specially commissioned essays by experts on the philosophy of the period 200-800 CE. Designed as a successor to The Cambridge History of Later Greek and Early Medieval Philosophy, edited by A. H. Armstrong, it takes into account some forty years of scholarship since the publication of that volume. The contributors examine philosophy as it entered literature, science, and religion, and offer new

and extensive assessments of philosophers who until recently have been mostly ignored The volume also includes a complete digest of all philosophical works known to have been written during this period It will be an invaluable resource for all those interested in this rich and still emerging field *They Went Out from Us* Daniel R. Streett, 2011 Most interpreters of 1 2 3 John believe that the author's opponents called antichrists deceivers and false prophets advocated gnostic or progressive doctrines that denied or downplayed the humanity of Jesus Christ and the importance of ethical behaviour and eventually split the Johannine community Against this consensus Streett argues that the opponents are former Jewish Christians who have left the community to return to the synagogue after renouncing their belief that Jesus is the Jewish Messiah

Christianity at the Crossroads Michael J. Kruger, 2018-03-06 Christianity in the twenty first century is a global phenomenon But in the second century its future was not at all certain Michael Kruger's introductory survey examines how Christianity took root in the second century how it battled to stay true to the vision of the apostles and how it developed in ways that would shape both the church and Western culture over the next two thousand years The Gnostics and Their Archetypes Diego Kurilo, Gnosis derived from the ancient Greek gnosis meaning knowledge or also known as gnosticism a Latinized form of gnosis is a scientific religious term that encompasses various teachings and religious groups that flourished in the late 1st century and had their peak between the 2nd and 3rd centuries AD acting as precursors of later currents We could think that within these movements of connoisseurs many Christianities of a Gnostic nature perished since Christianity was born as a broad set of spiritual movements based on the life of Jesus of Nazareth The Christianity proposed by Paul of Tarsus triumphed and the Gnostic movements fell into disgrace and were considered heretical **Philo of Alexandria and the Construction of Jewishness in Early Christian Writings** Jennifer Otto, 2018 This study investigates portrayals of the first century philosopher and exegete Philo of Alexandria in the writings of Clement of Alexandria Origen and Eusebius The Use of Scripture in the Apocryphon of John David Creech, 2017-08-01 David Creech explores at length the Apocryphon of John's ambivalent treatment of the Jewish and Christian scriptures Although Moses is explicitly corrected at five points in the text Genesis account of creation is nonetheless the basis for the Apocryphon's cosmogony and anthropogony Its uneven treatment of the biblical text is the result of a dispute between the authors of the Apocryphon and other early Catholics At the earliest stage of the text the Christians who wrote and read the Apocryphon worshiped alongside other early catholic Christians without any sense of contradiction or inconsistency The key shift in the Apocryphon occurred after Irenaeus of Lyons' assault on Knowledge Falsely So Called In response to his concerted effort to bring the church under the authority of early catholic bishops the framers inserted corrections to Moses The corrections are primarily rhetorical and used to refute early catholic identity markers **The Books of Jeu and the Pistis Sophia as Handbooks to Eternity** Erin Evans, 2015-08-11 Despite the surge of interest in Gnostic texts following the discovery of the Nag Hammadi library the Coptic Books of Jeu and Pistis Sophia remain understudied Often dismissed as convoluted confused

and repetitious Erin Evans convincingly shows that these texts represent the writings of a distinct religious group with a consistent system of theology cosmology and ritual practice This book offers an in depth examination of these texts their relationship to other contemporary Gnostic ideas and their use in the context of a practicing religious group Three thematic sections demonstrate how the collection of texts functions as a whole covering baptisms and mystical ascent procedures guides to moral living and introductory texts and myths
