Kublai Khan John Man, 2012-03-31 In Xanadu did Kubla Khan A stately pleasure dome decree Kublai Khan lives on in the popular imagination thanks to these two lines of poetry by Coleridge But the true story behind this legend is even more fantastic than the poem would have us believe He inherited the second largest land empire in history from his grandfather Genghis Khan He promptly set about extending this into the biggest empire the world has ever seen extending his rule from China to Iraq from Siberia to Afghanistan His personal domain covered sixty percent of all Asia and one fifth of the world's land area The West first learnt of this great Khan through the reports of Marco Polo Kublai had not been born to rule but had clawed his way to leadership achieving power only in his 40s He had inherited Genghis Khan's great dream of world domination But unlike his grandfather he saw China and not Mongolia as the key to controlling power and turned Genghis' unwieldy empire into a federation Using China's great wealth coupled with his shrewd and subtle government he created an empire that was the greatest since the fall of Rome and shaped the modern world as we know it today He gave China its modern day borders and his legacy is that country's resurgence and the superpower China of tomorrow *Conquering the North* John Man, 2025-05-01 A panoramic history of the roots of China and Mongolia's historic rivalry and why it matters now A beguiling blend of history and intimate narrative and a delight to read Colin Thubron author of *Shadow of the Silk Road* The Great Wall of China stretching from the arid rises of Gansu province to the cold waters of the Bohai Sea remains an enduring symbol of Chinese might And yet for all its grandeur the Wall also marks a vulnerability an ever present reminder of old battlelines and never ending tension with China's northern neighbours Travelling by sacred mountains and along forgotten trade routes John Man journeys through China and Mongolia tracing the contours of their uneasy shared histories From the tumult of the Warring States Period to the present day Man weaves a thrilling tale of battling warlords imperial power plays Soviet interference and contemporary political manoeuvring Looking to the future of the region *Conquering the North* canvasses the still fractious interplay of two rival cultures and the continuing struggle for Mongolian sovereignty as China continues to edge north Thinking Plant Animal Human David Wood, 2020-06-23 Collected essays by a leading philosopher situating the question of the animal in the broader context of a relational ontology There is a revolution under way in our thinking about animals and indeed life in general particularly in the West The very words man animal and life have turned into flimsy conceptual husks impediments to thinking about the issues in which they are embroiled David Wood was a founding member of the early 1970s Oxford Group of philosophers promoting animal rights he also directed Ecology Action UK *Thinking Plant Animal Human* is the first collection of this major philosopher's influential essays on animals bringing together his many discussions of nonhuman life including the classic *Thinking with Cats* Exploring our connections with cats goats and sand crabs *Thinking Plant Animal Human* introduces the idea of cannibalism the eating of mammals is eating our own kin reflects on the idea of homo sapiens and explores the place of animals both in art and in children's stories

Finally and with a special focus on trees the book delves into remarkable contemporary efforts to rescue plants from philosophical neglect and to rethink and reevaluate their status Repeatedly bubbling to the surface is the remarkable strangeness of other forms of life a strangeness that extends to the human Wood shows that the best way of resisting simplistic classification is to attend to our manifold relationships with other living beings It is not anthropocentric to focus on such relationships they cast light in complex ways on the living communities of which we are part and exploring them recoils profoundly on our understanding of ourselves

Modern Mongolia Morris Rossabi,2005-04-25 Land locked between its giant neighbors Russia and China Mongolia was the first Asian country to adopt communism and the first to abandon it When the Soviet Union collapsed in the early 1990s Mongolia turned to international financial agencies including the International Monetary Fund the World Bank and the Asian Development Bank for help in compensating for the economic changes caused by disruptions in the communist world Modern Mongolia is the best informed and most thorough account to date of the political economy of Mongolia during the past decade In it Morris Rossabi explores the effects of the withdrawal of Soviet assistance the role of international financial agencies in supporting a pure market economy and the ways that new policies have led to greater political freedom but also to unemployment poverty increasingly inequitable distribution of income and deterioration in the education health and well being of Mongolian society Rossabi demonstrates that the agencies providing grants and loans insisted on Mongolia s adherence to a set of policies that did not generally take into account the country s unique heritage and society Though the sale of state assets minimalist government liberalization of trade and prices a balanced budget and austerity were supposed to yield marked economic growth Mongolia the world s fifth largest per capita recipient of foreign aid did not recover as expected As he details this painful transition from a collective to a capitalist economy Rossabi also analyzes the cultural effects of the sudden opening of Mongolia to democracy He looks at the broader implications of Mongolia s international situation and considers its future particularly in relation to China
