God And Religion In The Postmodern World:

God and Religion in the Postmodern World David Ray Griffin, 1989-01-01 Addressed to readers who have found liberal theology empty or who believe that one cannot be religious and fully rational and empirical at the same time **God and Religion in the Postmodern World** David Ray Griffin, 1989-01-01 Addressed to readers who have found liberal theology empty or who believe that one cannot be religious and fully rational and empirical at the same time **God and religion in the postmodern world** David Ray Griffin, 1995 *Above All Earthly Pow'rs* David F. Wells, 2005 In this prophetic call to the evangelical church Wells stresses that Christians need to confess Christ as the center in a society lacking a center as the sovereign in a world seemingly ruled by chance and as the one who can give meaning in a nihilistic culture *The Cambridge Companion to Postmodern Theology* Kevin J. Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians contribute to this clear and informative Companion which no student of theology should be without *Varieties of Postmodern Theology* David Ray Griffin, William A. Beardslee, Joe Holland, 1989-07-01 This book sorts out the confusion created by the use of the term postmodern in relation to widely divergent theological positions Four different types of postmodern theology are distinguished in the preface constructive deconstructive liberationist and conservative Two forms of each type are discussed in the book Writing from a constructive postmodern perspective the authors enter into dialogue with the deconstructive postmodernism of Mark C Taylor and Jean Fran ois Lyotard with the liberationist postmodernism of Harvey Cox and Cornel West and with the conservative postmodernism of George William Rutler and John Paul II *The Cambridge Companion to Postmodernism* Steven Connor, 2004-07-15 The Cambridge Companion to Postmodernism offers a comprehensive introduction to postmodernism The Companion examines the different aspects of postmodernist thought and culture that have had a significant impact on contemporary cultural production and thinking Topics discussed by experts in the field include postmodernism s relation to modernity and its significance and relevance to literature film law philosophy architecture religion and modern cultural studies The volume also includes a useful guide to further reading and a chronology This is an essential aid for students and teachers from a range of disciplines interested in postmodernism in all its incarnations Accessible and comprehensive this Companion addresses the many issues surrounding this elusive enigmatic and often controversial topic

Twentieth-Century Western Philosophy of Religion 1900-2000 Eugene Thomas Long, 2003-06-30 This book provides a historical map of 20th philosophy of religion from absolute idealism to feminism and postmodernism Dividing the 20th into four eras and eighteen primary strands the book provides the historical context for the more specialized volumes that follow This first volume is of interest to those working in the fields of philosophy of religion and theology Triangulating Religion, Belief, and Faith in the Twenty-First Century Bradford McCall, 2025-01-16 This book gives the reader the ability to make new inroads to understanding how faith belief and religion not only differ but also how they can contribute to comparative theology These three topics broadly covered herein can heighten the understanding of the Sacred by those who study them As to a few preliminaries what is faith Further what is belief Which one comes first in a person's journey toward the Sacred Moreover does religion factor into these two terms and if so where and how Does Augustine's well worn line faith seeking understanding mean anything today If it does would it mean belief comes prior to faith and or religion One can argue both sides of this debate and still be considered orthodox seemingly Perhaps it is the case that belief precedes faith most of the time but not all of the time Perhaps it is the other way around What exactly is the demarcation between belief and faith Many a person believes a thing to be true in their very bones such a stance borders on what is commonly referred to as faith Is religion the combination of belief and faith together into a coherent system of thought or is it emergent from the two existing as a separate mental or spiritual entity Explore these questions and more *A Primer on Postmodernism* Stanley J. Grenz, 1996-02-06 From the academy to pop culture our society is in the throes of change rivaling the birth of modernity out of the decay of the Middle Ages We are now moving from the modern to the postmodern era But what is postmodernism How did it arise What characterizes the postmodern ethos What is the postmodern mind and how does it differ from the modern mind Who are its leading advocates Most important of all what challenges does this cultural shift present to the church which must proclaim the gospel to the emerging postmodern generation Stanley Grenz here charts the postmodern landscape He shows the threads that link art and architecture philosophy and fiction literary theory and television He shows how the postmodern phenomenon has actually been in the making for a century and then introduces readers to the gurus of the postmodern mind set What he offers here is truly an indispensable guide for understanding today's culture **Faith and Knowledge** Douglas Sloan, 1994-01-01 Sloan explores the impact that the Protestant theological renaissance 1925-1960 had on American colleges and universities focusing in particular on the church's most significant claim to have a continuing voice in higher education He traces the role of the national ecumenical and denominational organizations and studies the changing place of college chaplains God's Struggler Darren J. N. Middleton, Peter Bien, 1996 Argues that while Nikos Kazantzakis may have occupied the so called borderlands between belief and unbelief throughout much of his career he nonetheless possessed or was possessed by an intense awareness of the sacred These 11 essays analyze in detail Kazantzakis's lifelong struggle to give voice Concepts of the Ultimate Linda J Tessier, 1990-03-15 *Novel Theology* Darren J. N.

Middleton,2000 Literature and theology constantly de construct each other Suggesting that this de constructive assignment is one that cannot but be in process itself Middleton returns to it throughout his study **Religion Is God'S Way of Showing Us It'S a Lot Earlier in Human Evolution Than We Thought** Douglas Falknor,2013-05-14 Radical understanding of ourselves is now possible to our very core greater insight into whom we really are where we came from what our evolution has been what it has meant and what it means now and for the future That quest has been an intellectual one but it also has been a spiritual one and answers with spiritual meaning are now possible even for the atheists doubters skeptics humanists and freethinkers In this study author Douglas Falknor explores the issue of how religion has evolved along with humanity A nonbeliever Falknor seeks to answer a host of age old questions Are we born addicted to religion Why do we have religion Is there a God How has religion evolved and created the hardwired spirituality within us Falknor goes beyond the God gene and surveys recent thought and reveals original interpretations of what it all means He traces this spiritual quest for nonbelievers and calls this the Path of the Doubtful Sojourner Through this discussion Falknor seeks to pave the way toward greater spiritual and psychological fulfillment *The Making of American Liberal Theology* Gary J. Dorrien,2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom **After God** Mark C. Taylor,2009-03 With fundamentalists dominating the headlines and scientists arguing about the biological and neurological basis of faith religion is the topic of the day But religion Mark C Taylor shows is more complicated than either its defenders or critics think and indeed is much more influential than any of us realize Our world Taylor maintains is shaped by religion even when it is least obvious Faith and value he insists are unavoidable and inextricably interrelated for believers and nonbelievers alike Using scientific theories of dynamical systems and complex adaptive networks for cultural and theological analysis After God redefines religion for our contemporary age Taylor begins by asking a critical question What is religion He then proceeds to explain how Protestant ideas in particular undergird the character and structure of our global information society the Reformation Taylor argues was an information and communications revolution that effectively prepared the way for the media revolution at the end of the twentieth century Taylor s breathtaking account of religious ideas allows us to understand for the first time that contemporary notions of

atheism and the secular are already implicit in classical Christology and Trinitarian theology Weaving together theoretical analysis and historical interpretation Taylor demonstrates the codependence and coevolution of traditional religious beliefs and practices with modern literature art architecture information technologies media financial markets and theoretical biology After God concludes with prescriptions for new ways of thinking and acting If we are to negotiate the perils of the twenty first century Taylor contends we must refigure the symbolic networks that inform our policies and guide our actions A religion without God creates the possibility of an ethics without absolutes that leads to the promotion of creativity and life in an ever more fragile world Publisher description

Religion and Modern Thought Victoria S. Harrison,2007 Written specifically for level 2 undergraduates this textbook introduces readers to the extremely wide range of forms of religious thought and the responses of religion to modern ideas cultural phenomenon and events of the 20th century

Loving God with All Your Mind Gene Edward Veith Jr.,2003-10-07 Our world is alive with fascinating new ideas discoveries and technologies But for Christians this can also present problems especially when the values of postmodernism and secular university life conflict with basic Christian principles What should Christians do when their beliefs come under attack in the classroom or the public square *Loving God with All Your Mind* shows us that the answer is neither wholesale rejection of intellectual life and culture nor blind acceptance of it The answer lies in understanding that Jesus is Lord of all of life and that everything in life must be carefully viewed in the light of what Christ s lordship means Gene Edward Veith unfolds a dazzling critique of the postmodern intellectual world and culture He affirms the part that is good and true but he also shows crucial weaknesses that have such a hold over contemporary thought This book shows Christians how to survive and flourish in a postmodern world while affirming the truth of the Christian faith
