**The Philosophical, Scientific, and Historical Evidence for God** David Scott Nichols M.D., 2021-12-28 The Evidence for God For approximately one hundred years most secular scientists and the majority of the intelligentsia in the world have preached that God does not exist Darwin's book *The Origin of the Species* published in 1859 was the primary impetus for this change in our world's viewpoint away from God Today many leaders in academia look

at Christians and others who believe in God as bereft of intelligence At the onset of the 20th century there was very little scientific evidence to suggest that God was the Creator of the Universe However since 1917 amazing evidence has been discovered in the fields of cosmology and biology that a significant number of secular scientists admit points to an incredible Creative Force most call this Force God The Philosophical Scientific and Historical Evidence for God presents this evidence in a detailed yet understandable manner This book Dr Nichols eleventh on theology provides well researched information showing the ever increasing evidence for an omnipotent Creator He considers it to be the magnum opus of his writing career The significance of the Big Bang theory and the many weaknesses now recognized in the theory of evolution will be thoroughly reviewed Philosophical and historical evidence for God will also be presented Dr Nichols is convinced that an open minded reader will come away with the realization that God does indeed exist and that He is the God of the Holy Bible

**God, Creation, and Revelation** Paul King Jewett, Marguerite Shuster, 1991 A theology that is real readable and relevant such is Paul Jewett s God Creation and Revelation Writing from a distinctively evangelical and Reformed viewpoint Jewett offers a general systematic introduction to these doctrines of the Christian church how we know God revelation and Scripture who God is the divine nature what God is like the divine attributes and what God has done creation While upholding the historic Christian faith Jewett s approach to Christian teaching is uniquely neo evangelical in that he seeks to expound and clarify orthodox Christianity for twentieth century Christians Jewett purposely sets forth his systematic theology in light of scientific and social issues that confront the church in the contemporary world Throughout the book Jewett also refers to literary masterpieces and to the church s hymns giving the reader a greater appreciation for the theological treasures in our literature and our hymnody The culmination of nearly forty years of study and teaching this book adeptly balances the philosophical efforts needed in systematic theology with the biblical material in which Christian doctrines are rooted and it covers well the range of theologies from the early fathers to the Scholastics from the Reformers to liberation and feminist theologians Interspersed throughout the text are useful addenda and excursions which provide further detailed treatment of specific topics An unusual feature of God Creation and Revelation is Jewett s inclusion of eight sermons by Dr Marguerite Shuster a former student of his Believing that theology and preaching must go together Jewett has strategically placed these sermons throughout the book as creative examples of how to preach Christian doctrines

**A Reasonable God** Arnie Berg, 2010-12-04 The last decade has seen an out pouring of new books by Christian authors that present the scientific evidence for cosmic and biological evolution The significance of these details challenges the traditional theological understanding of creation and urges Christ followers to adopt an evolutionary creationist approach Failure to do so puts science and faith on a collision course A Reasonable God identifies the issues synthesizes the viewpoints and encourages readers to step outside their comfort zone and wrestle with some of the ambiguities and uncertainties The book is a great asset for post secondary students who are confronted with the evidences and for church leaders who are looking for a quick way to become better informed
