The Making of the New Spirituality James A. Herrick, 2004-12-02 James A Herrick offers an intellectual history of the New Religious Synthesis examining the challenges it poses to Judeo Christian tradition demonstrating its sources and manifestations in contemporary culture and questioning its acceptance in church and society *Heaven on Earth* Michael D'Antonio, 1992 From crystals to channeling to wellness and spiritual environmentalism Heaven on Earth investigates the people places and myriad philosophies of America s New Age movement D Antonio shared a Pulitzer Prize at Newsday in 1984 and is the author of the critically acclaimed Fall from Grace *Easternization of the West* Colin Campbell, 2015-11-17 In this provocative and groundbreaking book Colin Campbell shows that the civilization of the West is undergoing a revolutionary process of change one in which features that have characterized the West for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the East Moving far beyond popular trends Campbell assembles a powerful range of evidence to show how Easternization has been building throughout the last century especially since the 1960s Campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers This highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences [A Full Cup](#) Michael D'Antonio, 2010-07-08 An in depth biography of Sir Thomas Lipton the founder of Lipton Tea a portrait of a remarkable self made man and intrepid sailor Today Lipton means tea However in his time Sir Thomas Lipton was known for much more Raised in desperate poverty he became rich beyond his wildest dreams He built a global empire of markets factories plantations and stockyards And his colorful pursuit of the America s Cup trophy made him a beloved figure on both sides of the Atlantic In [A Full Cup](#) Michael D Antonio tells the tale of this larger than life figure Beginning with a journey across the United States just after the Civil War Thomas J Lipton developed the ambition and learned the business techniques that helped him create the first chain of grocery stores Wealthy before the age of thirty he set his sights on the tea trade and soon his name became synonymous with his product Lipton s great business success makes for a compelling story of innovation and achievement Moreover though Lipton s most intriguing creation was a public persona one of the first formed with the help of a modern mass media that appealed to millions of ordinary people as well as the elites in America and Europe Concocting simple stunts like elephant parades Lipton mastered the new art of obtaining free publicity With shameless self promotion he became one of the world s most eligible bachelors a patron of the poor and ultimately reached legendary heights when he revived the competition for the America s Cup With one losing attempt after another the gallant Lipton who didn t even know how to sail his own yacht became ever more popular D Antonio s biography brings to vivid life this remarkable figure [The Wizard and the Witch](#) Carl Llewellyn Weschcke, John C. Forever Blue Michael D'Antonio, 2009-03-19 Read Michael D Antonio s posts on the Penguin Blog From the Pulitzer Prize winning journalist comes a revealing biography of one of the most polarizing figures in baseball history The New York Times If ever there was a figure who changed the game of baseball it was Walter O Malley owner of the Dodgers O Malley was one of the most controversial owners in the history of American sports altering the course of history when he uprooted the Dodgers and transplanted them from Brooklyn to Los Angeles While many critics attacked him O Malley looked to the future declining to defend his stance As a result fans across the nation have never been able to stop arguing about him and his strategy until now Michael D Antonio s *Forever Blue* is a uniquely intimate portrait of a man who changed America s pastime forever a fascinating story fundamental to the history of sports business and the American West Michael D Antonio s newest book *A Full Cup* Sir Thomas Lipton s Extraordinary Life and His Quest for America s Cup is now available from Riverhead Books

A Ball, a Dog, and a Monkey Michael D'Antonio, 2007-09-18 *A Ball a Dog and a Monkey* tells the remarkable story of America s first efforts to succeed in space a time of exploding rockets national space mania Florida boomtowns and interservice rivalries so fierce that President Dwight Eisenhower had to referee them When the Soviet Union launched the first orbital satellite Sputnik I Americans panicked The Soviets had nuclear weapons the Cold War was underway and now the USSR had taken the lead in the space race Members of Congress and the press called for an all out effort to launch a satellite into orbit With dire warnings about national security in the news almost every day the armed services saw space as the new military frontier But President Eisenhower insisted that the space effort which relied on military technology be supervised by civilians so that the space race would be peaceful The Navy s Vanguard program flopped and the Army led by ex Nazi rocket scientist Wernher von Braun and a martinet general named J Bruce Medaris whom Eisenhower disliked took over Meanwhile the Soviets put a dog inside the next Sputnik and Americans grew more worried as the first animal in space whirled around the Earth Throughout 1958 America went space crazy UFO sightings spiked Boys from Brooklyn to Burbank shot model rockets into the air Space themed beauty pageants became a national phenomenon The news media flocked to the launchpads on the swampy Florida coast and reporters reinvented themselves as space correspondents And finally the Army

s rocket program succeeded Determined not to be outdone by the Russians America's space scientists launched the first primate into space a small monkey they nicknamed Old Reliable for his calm demeanor And then at Christmastime Eisenhower authorized the launch of a secret satellite with a surprise aboard A Ball a Dog and a Monkey memorably recalls the infancy of the space race a time when new technologies brought ominous danger but also gave us the ability to realize our dreams and reach for the stars **The Transcendental Meditation Movement** Dana Sawyer,Cynthia

Humes,2023-02-09 This Element provides a comprehensive overview of the Transcendental Meditation TM Movement and its offshoots Several early assessments of the as a cult and or new religious movement are helpful but are brief and somewhat dated This Element examines the TM movement's history beginning in India in 1955 and ends with an analysis of the splinter groups that have come along in the past twenty five years Close consideration is given to the movement's appeal for the youth culture of the 1960s which accounted for its initial success The Element also looks at the marketing of the meditation technique as a scientifically endorsed practice in the 1970s and the movement's dramatic turn inward during the 1980s It concludes by discussing the waning of its popular appeal in the new millennium This Element describes the social and cultural forces that helped shape the TM movement's trajectory over the decades leading to the present and shows how the most popular meditation movement in America distilled into an obscure form of Neo Hinduism *Religion and American*

Education Warren A. Nord,2014-07-01 Warren Nord's thoughtful book tackles an issue of great importance in contemporary America the role of religion in our public schools and universities According to Nord public opinion has been excessively polarized by those religious conservatives who would restore religious purposes and practices to public education and by those secular liberals for whom religion is irrelevant to everything in the curriculum While he maintains that public schools and universities must not promote religion he also argues that there are powerful philosophical political moral and constitutional reasons for requiring students to study religion Indeed only if religion is included in the curriculum will students receive a truly liberal education one that takes seriously a variety of ways of understanding the human experience Intended for a broad audience Nord's comprehensive study encompasses American history constitutional law educational theory and practice theology philosophy and ethics It also discusses a number of current controversial issues including multiculturalism moral education creationism academic freedom and the voucher and school choice movements *The*
