Bradley A. Fiske,2021-01-01 To show that inventors have accomplished more than most persons realize not only in bringing forth new mechanisms but in doing creative work in many walks of life is in part the object of this book To suggest what they may do if properly encouraged is its main intention For since it is to inventors mainly that we owe all that civilization is it is to inventors mainly that we must look for all that civilization can be made to be Preface **Stand out of our Light** James Williams,2018-05-31 Former Google advertising strategist now Oxford trained philosopher James Williams launches a plea to society and to the tech industry to help ensure that the technology we all carry with us every day does not distract us from pursuing our true goals in life As information becomes ever more plentiful the resource that is becoming more scarce is our attention In this attention economy we need to recognise the fundamental impacts of our new information environment on our lives in order to take back control Drawing on insights ranging from Diogenes to contemporary tech leaders Williams's thoughtful and impassioned analysis is sure to provoke discussion and debate Williams is the inaugural winner of the Nine Dots Prize a new Prize for creative thinking that tackles contemporary social issues This title is also available as Open Access

The Shakespeare Wars Ron Rosenbaum,2011-11-09 Ron Rosenbaum is one of the most original journalists and writers of our time David Remnick In *The Shakespeare Wars* Ron Rosenbaum gives readers an unforgettable way of rethinking the greatest works of the human imagination As he did in his groundbreaking *Explaining Hitler* he shakes up much that we thought we understood about a vital subject and renews our sense of excitement and urgency He gives us a Shakespeare book like no other Rather than raking over worn out fragments of biography Rosenbaum focuses on cutting edge controversies about the true source of Shakespeare's enchantment and illumination the astonishing language itself How best

to unlock the secrets of its spell With quicksilver wit and provocative insight Rosenbaum takes readers into the midst of fierce battles among the most brilliant Shakespearean scholars and directors over just how to delve deeper into the Shakespearean experience deeper into the mind of Shakespeare Was Shakespeare the one draft wonder of Shakespeare in Love Or was he rather as an embattled faction of textual scholars now argues a different kind of writer entirely a conscientious reviser of his greatest plays Must we then revise our way of reading staging and interpreting such works as Hamlet and King Lear Rosenbaum pursues key partisans in these debates from the high tables of Oxford to a Krispy Kreme doughnut shop in a strip mall in the Deep South He makes ostensibly arcane textual scholarship intensely seductive and sometimes even explicitly sexual At an academic Pleasure Seminar in Bermuda for instance he examines one scholar s quest to find an orgasm in Romeo and Juliet Rosenbaum shows us great directors as Shakespearean scholars in their own right We hear Peter Brook perhaps the most influential Shakespearean director of the past century disclose his quest for a secret play hidden within the Bard s comedies and dramas We listen to Sir Peter Hall founder of the Royal Shakespeare Company as he launches into an impassioned table pounding fury while discussing how the means of unleashing the full intensity of Shakespeare s language has been lost and how to restore it Rosenbaum s hilarious inside account of the Great Shakespeare Funeral Elegy Fiasco a man versus computer clash illustrates the iconic struggle to define what is and isn t Shakespearean And he demonstrates the way Shakespearean scholars such as Harold Bloom can become great Shakespearean characters in their own right The Shakespeare Wars offers a thrilling opportunity to engage with Shakespeare s work at its deepest levels Like Explaining Hitler this book is destined to revolutionize the way we think about one of the overwhelming obsessions of our time
