To Tell Their Children Rachel L. Greenblatt, 2014-02-26 This book offers an examination of Jewish communal memory in Prague in the century and a half stretching from its position as cosmopolitan capital of the Holy Roman Empire 1583 1611 through Catholic reform and triumphalism in the later seventeenth century to the eve of its encounter with Enlightenment in the early eighteenth Rachel Greenblatt approaches the subject through the lens of the community s own stories stories recovered from close readings of a wide range of documents as well as from gravestones and other treasured objects in

which Prague's Jews recorded their history. On the basis of this material Greenblatt shows how members of this community sought to preserve for future generations their memories of others within the community and the events that they experienced. Throughout the author seeks to go beyond the debates inspired by Yosef Hayim Yerushalmi's influential *Zakhor*. Jewish History and Jewish Memory often regarded as the seminal work in the field of Jewish communal memory by focusing not on whether Jews in a pre-modern community had a historical consciousness but rather on the ways in which they perceived and preserved their history. In doing this Greenblatt opens a window onto the roles that local traditions, aesthetic sensibilities, gender, social hierarchies and political and financial pressures played in the construction of local memories.

Disputed Messiahs Rebekka Voß, 2021-11-30 Jewish and Christian messianic thought and activism in the Reformation era in the Ashkenazic world. *Disputed Messiahs: Jewish and Christian Messianism in the Ashkenazic World* During the Reformation is the first comprehensive study that situates Jewish messianism in its broader cultural, social and religious contexts within the surrounding Christian society. By doing so Rebekka Voß shows how the expressions of Jewish and Christian end-time expectation informed one another. Although the two groups disputed the different messiahs they awaited, they shared principal hopes and fears relating to the end of days. Drawing on a great variety of both Jewish and Christian sources in Hebrew, Yiddish, German and Latin, the book examines how Jewish and Christian messianic ideology and politics were deeply linked. It explores how Jews and Christians each reacted to the other's messianic claims, apocalyptic beliefs and eschatological interpretations and how they adapted their own views of the last days accordingly. This comparative study of the messianic expectations of Jews and Christians in the Ashkenazic world during the Reformation and their entanglements contributes a new facet to our understanding of cultural transfer between Jews and Christians in the early modern period. *Disputed Messiahs* includes four main parts. The first part characterizes the specific context of Jewish messianism in Germany and defines the Christian perception of Jewish messianic hope. The next two parts deal with case studies of Jewish messianic expectation in Germany, Italy and Poland. While the second part focuses on the messianic phenomenon of the prophet Asher Lemlein, part 3 is divided into five chapters each devoted to a case of interconnected Jewish-Christian apocalyptic belief and activity. Each case study is a representative example used to demonstrate the interplay of Jewish and Christian eschatological expectations. The final part presents Voß's general conclusions, carving out the remarkable paradox of a relationship between Jewish and Christian messianism that is controversial, albeit fertile. Scholars and students of history, culture and religion are the intended audience for this book.

Cosmos and Materiality in Early Modern Prague Suzanna Ivanič,2021-06-24 Prague in the seventeenth century is known as home to a scintillating imperial court crammed with exotic goods scientists and artisans receiving ambassadors from Persia and also as a city suffering plagues riots and devastating military attacks But Prague was also the setting for a complex and shifting spiritual world At the beginning of the century it was a multiconfessional city but by 1700 it represented one of the most archetypical Catholic cities in Europe Through a material approach Cosmos and Materiality pieces together how early modern men and women experienced this transformation on a daily basis Cosmos and Materiality in Early Modern Prague presents a bold alternative understanding of the history of early modern religion in Central Europe The history of religion in the early modern period has overwhelmingly been analysed through a confessional lens but this book shows how Prague s spiritual worlds were embedded in their natural environment and social relations as much if not more than in confessional identity in the seventeenth century While texts in this period trace emerging discourses around notions of religion superstition magic and what it was to be Catholic or Protestant a material approach avoids these category mistakes being applied to everyday practice It is through a rich seam of material evidence in Prague spoons glass beakers and amulets as much as traditional devotional objects like rosaries and garnet encrusted crucifixes that everyday beliefs practices and identities can be recovered

Archeologies of Confession Carina L. Johnson, David M. Luebke, Marjorie Elizabeth

Plummer, Jesse Spohnholz, 2017-05-01 Modern religious identities are rooted in collective memories that are constantly made and remade across generations How do these mutations of memory distort our picture of historical change and the ways that historical actors perceive it Can one give voice to those whom history has forgotten The essays collected here examine the formation of religious identities during the Reformation in Germany through case studies of remembering and forgetting instances in which patterns and practices of religious plurality were excised from historical memory By tracing their ramifications through the centuries *Archeologies of Confession* carefully reconstructs the often surprising histories of plurality that have otherwise been lost or obscured

A Question of Tradition Kathryn Hellerstein, 2014-07-23

In *A Question of Tradition* Kathryn Hellerstein explores the roles that women poets played in forming a modern Yiddish literary tradition Women who wrote in Yiddish go largely unrecognized outside a rapidly diminishing Yiddish readership Even in the heyday of Yiddish literature they were regarded as marginal But for over four centuries women wrote and published Yiddish poems that addressed the crises of Jewish history from the plague to the Holocaust as well as the challenges and pleasures of daily life prayer art friendship nature family and love Through close readings and translations of poems of eighteen writers Hellerstein argues for a new perspective on a tradition of women Yiddish poets Framed by a consideration of Ezra Korman's 1928 anthology of women poets Hellerstein develops a discussion of poetry that extends from the sixteenth century through the twentieth from early modern Prague and Krakow to high modernist Warsaw New York and California The poems range from early conventional devotions such as a printer's preface and verse prayers to experimental transgressive lyrics that confront a modern ambivalence toward Judaism In an integrated study of literary and cultural history Hellerstein shows the immensely important contribution made by women poets to Jewish literary tradition

The Jews and the Reformation

Kenneth Austin, 2020-06-11 Judaism has always been of great significance to Christianity but this relationship has also been marked by complexity and ambivalence The emergence of new Protestant confessions in the Reformation had significant consequences for how Jews were viewed and treated In this wide ranging account Kenneth Austin examines Christian attitudes toward Jews the Hebrew language and Jewish learning arguing that they have much to tell us about the Reformation and its priorities and have important implications for how we think about religious pluralism today
