## Hebrew Holy Forgeries:

**Forgery in Christianity** Joseph Wheless, 2007-03-01 Incendiary in its passion and irrefutable in its evidence this classic of atheistic literature condemns Christianity as superstition and wishful thinking rooted in early paganism sourced by anonymous fables and promoted by self serving men seeking worldly riches and power Raging against the blatant manipulations of the early Church and the antiscience agenda of the modern Church American writer JOSEPH WHELESS 1868 1950 takes on everything from faked relics and the holy mummery of stigmatics and other dramatic mystics to the priestly terrorism of the Crusades the Inquisition and the Church s historical intolerance This is an absolute must read for anyone looking for ammunition to counter the argument that the longevity of Christianity is evidence of its legitimacy ALSO AVAILABLE FROM COSIMO Wheless s Is It God s Word *Fakes and Forgeries of Written Artefacts from Ancient Mesopotamia to Modern China* Cécile Michel, Michael Friedrich, 2020-11-23 Fakes and forgeries are objects of fascination This volume contains a series of thirteen articles devoted to fakes and forgeries of written artefacts from the beginnings of writing in Mesopotamia to modern China The studies emphasise the subtle distinctions conveyed by an established vocabulary relating to the reproduction of ancient artefacts and production of artefacts claiming to be ancient from copies replicas and imitations to fakes and forgeries Fakes are often a response to a demand from the public or scholarly milieu or even both The motives behind their production may be economic political religious or personal aspiring to fame or simply playing a joke Fakes may be revealed by combining the study of their contents codicological epigraphic and palaeographic analyses and scientific investigations However certain famous unsolved cases still continue to defy technology today no matter how advanced it is Nowadays one can find fakes in museums and private collections alike they abound on the antique market mixed with real artefacts that have often been looted The scientific community s attitude to such objects calls for ethical reflection **Literary Forgery in Early Modern Europe, 1450-1800** Walter Stevens, Earle A Havens, 2019-01-15 The essays gathered in this volume demonstrate that studying early modern European literary forgeries is a fascinating cultural adventure Lina Bolzoni author of *The Gallery of Memory* This comprehensive study of literary and historiographical forgery goes well beyond questions of authorship It spotlights the imaginative vitality of forgery and its sinister impact on genuine scholarship This volume demonstrates that early modern forgery was a literary tradition in its own right with distinctive connections to politics Greek and Roman classics religion philosophy and modern literature The early modern explosion in forgery of all kinds particularly in the fields of literary and archaeological falsification demonstrates a dramatic shift in attitudes toward historical evidence and in the relation of texts to contemporary society The authors capture the impact of this evolution within many cultural transformations including the rise of print changing tastes and fortunes of the literary marketplace and the Protestant and Catholic Reformations The thirteen essays draw on Johns Hopkins University s *Bibliotheca Fictiva* the world s premier research collection dedicated exclusively to the subject of literary forgery It consists

of several thousand rare books and unique manuscript materials from the early modern period and beyond Contributors Frederic Clark James Coleman Richard Cooper Arthur Freeman Anthony Grafton A Katie Harris Earle A Havens Jack Lynch Shana D O Connell Ingrid Rowland Walter Stephens Elly Truitt Kate Tunstall The Ante-Nicene Fathers: Tertullian, part fourth, Minucius Felix, Commodian, Origen, parts first and second ,1885 The Ante-Nicene Fathers Alexander Roberts, Sir James Donaldson, Arthur Cleveland Coxe, Allan Menzies, 1905 **The Truth Seeker** ,1917 **Forgery and Counter-forgery** Bart D. Ehrman, 2013-01-10 Forgery and Counter forgery The Use of Literary Deceit in Early Christian Polemics is the first major contemporary work on forgery in early Christian literature It examines the motivation and function behind Christian literary forgeries *Fakes and Forgeries* Peter Knight, Jonathan Long, 2004 The possibility that works of art and literature might be forged and that identity might be faked has haunted the cultural imagination for centuries That spectre seems to have returned with a vengeance recently with a series of celebrated hoaxes and scandals ranging from the Alan Sokal hoax article in Social Text to Benjamin Wilkomirski's fake Holocaust memoir But as well as creating anxiety the possibility of faking it has now been turned into entertainment Traditionally these activities have been dismissed as dangerous and immoral but more recently some scholars have begun to speculate for example that all forms of national identity rely on forged myths of origin Recent cultural theory has likewise called into question traditional notions of authenticity and originality in both personal identity and in works of art Despite critical pronouncements of the death of the author and the substitution of the simulacrum for the original however making a distinction between the genuine and the fake continues to play a major role in our everyday understanding and evaluation of culture law and politics Consider for example the fiasco surrounding the forged Hitler diaries law suits against auction houses for failing to detect forgeries in the art market or the problem of plagiarism at universities It still seems to matter that we can spot the difference especially in the historical moment when we are capable of making copies that are indistinguishable perhaps even better than the original This collection of essays considers the moral aesthetic and political questions that are raised by the long history and current prevalence of fakes and forgeries The international team of contributors consider the issues thrown up by a wide range of examples drawn from fields ranging from literature to art history These case studies include little known subjects such as Eddie Burrup the Australian aboriginal artist who turned out to be an 81 year old white woman as well as new interpretations of familiar cases such as faked Holocaust memoirs The strength of the collection is that it brings together not only a wide range of cultural examples of fakes and forgeries from different historical periods but also offers a wide variety of theoretical takes that will form a useful introduction and casebook on this growing field of inquiry *The Sacred Writings of Origen (Annotated Edition)* Origen, 2012 The Sacred Writings Of provides you with the essential works among the Christian writings The volumes cover the beginning of Christianity until medieval times This volume is accurately annotated including an extensive biography of the author and his life This edition contains Origen's main works Origen De Principiis and Origen
