Hectic Ethics:

Short Story Index ,1999 *Sartre in Search of an Ethics* Paul Crittenden,2019-07-31 In the postwar years Jean Paul Sartre set himself the task of writing a book on ethics His concern was to take up issues raised by his existentialist ontology and to resolve problems in his bleak account of the human situation in *Being and Nothingness* I am searching he said for an ethics for the present time For several years he prepared background notes but then put the material aside as too abstract and idealistic leaving it for publication after his death Years later he returned to ethics this time in the hope of developing an account related to the *Critique of Dialectical Reason* But once again he left the inquiry incomplete There was yet a third attempt towards the end of his life when Sartre was blind and weak a poignant witness to his abiding interest in ethics This took the form of interviews with Benny L vy which appeared in a controversial publication just before his death Sartre in *Search of an Ethics* is a study of each of these stages in his ethical quest with a focus on the major themes of his existentialist and dialectical ethics in the context of some of his main philosophical and literary writings New Financial Ethics Aloy Soppe,2016-12-08 Following the internationalisation globalisation and deregulation of the financial market over the last few decades the financial sector has evolved from a servicing industry into an initiating and leading sector in the international industrialised economy The power of the financial sector including Credit Rating Agencies determines the creditworthiness of companies and countries Today s financial sector dominates instead of serving the real economy which puts substantial pressure on all the agencies involved not least the banks to make the profits that will drive economic growth As a result of this pressure moral conduct in the financial sector has been put under severe strain This book examines the experience of the recent financial crisis and argues that a firmer ethical grounding for the financial sector is required to prevent the crisis being repeated The book offers a model for making judgements on financial markets institutions and products The model is built on seven major criteria which are examined in depth Justice Nature Sustainability Legality Risk and Return the Stakeholder model and Monism This multidisciplinary approach integrates philosophy economics and law to arrive at a new normative approach to financial ethics This book is a must read for finance students at academic levels but also for professionals in the financial sector who can be helped by implementing the model of NFE in solving financial dilemmas

Fantasies of the Master Race Ward Churchill, 1998 Chosen an Outstanding Book on the Subject of Human

Rights in the United States by the Gustavus Myers Center for the Study of Human Rights In this volume of incisive essays Ward Churchill looks at representations of American Indians in literature and film delineating a history of cultural propaganda that has served to support the continued colonization of Native America During each phase of the genocide of American Indians the media has played a critical role in creating easily digestible stereotypes of Indians for popular consumption Literature about Indians was first written and published in order to provoke and sanctify warfare against them Later the focus changed to enlisting public support for civilizing the savages stripping them of their culture and assimilating them into the dominant society Now in the final stages of cultural genocide it is the appropriation and stereotyping of Native culture that establishes control over knowledge and truth The primary means by which this is accomplished is through the powerful publishing and film industries Whether they are the tragically doomed noble savages walking into the sunset of Dances With Wolves or Carlos Castaneda's Don Juan the exotic mythical Indians constitute no threat to the established order Literature and art crafted by the dominant culture are an insidious political force disinforming people who might otherwise develop a clearer understanding of indigenous struggles for justice and freedom This book is offered to counter that deception and to move people to take action on issues confronting American Indians today **Points of Departure** Mónica Lavin, 2001 Seventeen short stories by some of the best young writers being published in Mexico today America Besieged Michael Parenti, 1998-05 America Besieged deals with the underlying forces within U S society that deeply affect our lives Showing how we are being misled and harmed by those who profess to have our interests at heart Michael Parenti writes We are indeed a nation besieged not from without but from within not subverted from below but from above the moneyed power exercises a near monopoly influence over our political life over the economy the state and the media Some Americans are astonished to hear of it Others have had their suspicions although they may not be quite sure how it all adds up This book invites the reader to stop blaming the powerless and poor and in that good old American phrase start following the money That is the first and most important step toward lifting the siege and bringing democracy back to life Michael Parenti one of America's most astute and entertaining political analysts is the author of Against Empire Dirty Truths Blackshirts and Reds Rational Fascism and the Overthrow of Communism Democracy for the Few Land of Idols Political Mythology in America and many other books Memories of Our Future Ammiel Alcalay, 1999-12 This text features essays from Ammiel Alcalay covering Mediterranean culture Arabic literature the war in Bosnia the Israeli Palestinian conflict the destruction of Carthage and much more **Christian Ethics as Witness** David Haddorff, 2011-01-01 Christian ethics is less a system of principles rules or even virtues and more of a free and open ended responsible witness to God's gracious action to be with and for others and the world Postmodernity has left us with the risky uncertainty of knowing and doing the good It also leaves us with the global risks of political violence and terrorism economic globalization and financial crisis and environmental destruction and global climate change How should Christians respond to these problems This book creatively

explores how Christian ethics is best understood as a witness to God's action thereby providing the ethical framework for addressing the various problematic social issues that put our world at risk Haddorff develops the notion of witness through a detailed study of Karl Barth's theological ethics Barth he argues provides a language enabling us to know what a Christian ethics of witness actually looks like in both theory and in practice In correspondence to God's gracious action Christians remain free to think and act in faith hope and love in response to their unique circumstances even in a world at risk In their witness Christians remain confident that God has not abandoned the world but loves and cares for its future **Book Lust** Nancy Pearl, 2009-09-29 What to read next is every book lover's greatest dilemma Nancy Pearl comes to the rescue with this wide ranging and fun guide to the best reading new and old Pearl who inspired legions of litterateurs with What If All name the city Read the Same Book has devised reading lists that cater to every mood occasion and personality These annotated lists cover such topics as mother daughter relationships science for nonscientists mysteries of all stripes African American fiction from a female point of view must reads for kids books on bicycling chick lit and many more Pearl's enthusiasm and taste shine throughout **History as Mystery** Michael Parenti, 2016-08-22 In a lively challenge to mainstream history Michael Parenti does battle with a number of mass marketed historical myths He shows how history's victors distort and suppress the documentary record in order to perpetuate their power and privilege And he demonstrates how historians are influenced by the professional and class environment in which they work Pursuing themes ranging from antiquity to modern times from the Inquisition and Joan of Arc to the anti labor bias of present day history books History as Mystery demonstrates how past and present can inform each other and how history can be a truly exciting and engaging subject Michael Parenti always provocative and eloquent gives us a lively as well as valuable critique of orthodoxy posing as history Howard Zinn author of A People's History of the United States Deserves to become an instant classic Bertell Ollman author of Dialectical Investigations Those who keep secret the past and lie about it condemn us to repeat it Michael Parenti unveils the history of falsified history from the early Christian church to the present a fascinating darkly revelatory tale Daniel Ellsberg author of The Pentagon Papers Solid if surely controversial stuff Kirkus [In the Heart of the Heart of Another Country](#) Etel Adnan, 2005-09 A mosaic of lyrical vignettes at once deeply personal and political set against the turbulent backdrop of Arab Western relations Adnan writes Contrary to what is usually believed it is not general ideas and grandiose unfolding of great events that impress the mind during times of heightened historic upheavals but rather the uninterrupted flow of little experiences observations disturbances small ecstasies or barely perceptible discouragements that make up day to day living Etel Adnan a Lebanese American poet painter and essayist lives in Paris Beirut and the San Francisco Bay Area Among her books the novel Sitt Marie Rose is considered a classic of Middle Eastern literature She has been a powerful voice for compassion and empowerment in feminist and antiwar movements **Jacques Derrida's Aporetic Ethics** Marko Zlomislíć, 2007-01-01 Derrida has been interpreted as a nihilist and relativist This study

Practical Ethics for Our Time Eiji Uehiro, 2012-02-14 A scathing critique of the global consumer culture that s bound to cause controversy among Western readers Practical Ethics for Our Time argues that Japan s future success as a nation depends upon the ability of its citizens to uphold traditional family values and to fashion new environmentally sustainable patterns in their daily lives Mr Uehiro s argument is not unfamiliar He posits that Japan s rapid industrialization and Westernization since the Meiji Restoration has created a nation of people with an insatiable appet ite for designer clothing luxury cars and high tech gadgets but with a profound sense of spiritual emptiness Uehiro suggests that as human be ings move farther and farther away from the process of producing goods themselves they begin to take their abundance for granted and thus lose a sense of thankfulness for what they have This leads to a world in which human interactions become superficial and commodified and ethics take a back seat to other more quantifiable concerns While Japan has gained tremendous international respect for its rapid industrialization since World War II Uehiro believes that Japan has a greater role to play on the international stage as a model of proper ethical behavior but only if it can reverse Western influenced trends
