Metaphor II, 1990-01-01 Metaphor though not now the scholarly mania it once was remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis Warren Shibles *Metaphor An Annotated Bibliography and History* Bloomington Ind 1971 recorded the initial interest Then *Metaphor A Bibliography of Post 1970 Publications* published by John Benjamins continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen to be a fundamental category in human thought and language Five years later there is a need for a report on the newest thinking and tendencies in the field This need is fulfilled by *Metaphor II* which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources including many sometimes hard to find publications from Eastern Europe *Metaphor II* systematically collects references of books articles and papers published between 1985 and May 1990 and includes for completeness corrections and additions to the earlier bibliographies Abstracts are given for many of the titles while four indices disciplines semantic fields metaphor theory and names multiply the number of access points to the information

A Grammar of Iconism Earl R. Anderson, 1998 Literary criticism often includes ad hoc comments about onomatopoeia synaesthesia or other forms of iconism In *A Grammar of Iconism* Earl Anderson discusses these phenomena systematically According to Anderson modern post Saussurian linguistics has as its central tenet the arbitrariness of linguistic signs Thus linguistic elements that bear some relationship to their referent have been seen as marginal to the system of language or at best similar in their arbitrariness to other linguistic signs As an example of the latter while most languages have an onomatopoeic element different languages imitate sounds differently Anderson argues against the standard view provides a detailed critique of the negative arguments against iconism and offers a positive typology that demonstrates the extensiveness and complexity of iconism in language
