

Gillian Rose Hegel ~~Contra~~ Sociology

# Hegel Contra Sociology

**R Barnett**

## **Hegel Contra Sociology:**

Hegel Contra Sociology Gillian Rose, 1981-01-01 Reissued with new preface One of the most brilliant intellectual enterprises in recent years Journal of the British Sociological Association A work of confident and accurate scholarship as well as of verve and originality TLS Hegel, 2000 This original and challenging book presents a radical revision of traditional assessments of Hegel Gillian Rose argues that the classical origins of contemporary non Marxist and Marxist sociology rest on the neo Kantian paradigm and that Hegel's thought anticipates and criticises the limitations of this paradigm and the problems of methodologism and moralism in sociological method Hegel's major mature works are expounded in the light of his early radical writings From this unusual perspective Dr Rose shows that Hegel's speculative discourse is a powerful critique of bourgeois property relations and law or art and religion as misrepresentation and of the inversions and end of culture The book concludes with a discussion of the end of philosophy the repetition of sociology and the culture and fate of Marxism Zizek Marcus Pound, 2008-08-20 Afterword by Slavoj Zizek It has been the brilliance of Slovenian philosopher Slavoj Zizek b 1949 to uniquely weave theology psychoanalysis and politics together into stunning commentary on contemporary culture Assuming little prior knowledge of this controversial atheist communist philosopher Marcus Pound provides the first comprehensive systematic account of Zizek's work as it relates specifically to theology and religious studies **Reading Hegel** Robert Lucas Scott, 2025-03-14 Retrieves Hegelian speculative experience for literary theory The relationship between Hegel and literary theory has for a long time been both contested and paradoxical On the one hand theory is often skeptical of all that Hegel ostensibly stood for idealism systematicity and identity at the expense of difference Yet in spite of itself literary theory is taken to owe a profound debt to Hegel's philosophy Robert Lucas Scott's book complicates this account and argues that literary theory has made the mistake of abstracting Hegel's thought from its more dynamic presentation in Hegel's writings reducing Hegel to a series of propositions or positions Literary theory Scott argues misses what is perhaps the greatest innovation of Hegel's philosophy a presentation of experience that begins precisely by setting aside all preconceptions or prior assumptions It is on this point that Hegel's philosophy itself approaches literature its content cannot be simply abstracted from the singular experience of reading it Only through a mode of reading alive to speculative experience can literary theory become truly Hegelian Scott's exposition of Hegel offers a model of reading with relevance beyond philosophy one that is critical without pretensions of mastery and detachment and that honors the singularity of the reading experience without succumbing to the subjectivism of the postcritical The book also includes engagements with the work of Luther Kant Marx Gillian Rose Fredric Jameson Robert Brandom Catherine Malabou and more in its recovery of Hegel's thought for a critical understanding of our time **Waiting and Being** Joshua B. Davis, 2013-10-01 The problem of creation and grace has a long history of contention within Protestant and Catholic theology involving not only internecine conflict within the traditions but fueling as well ecumenical debates that have continued a

dogmatic divide This volume traces out that conflict in modern Catholic and Protestant dogmatics and provides a historical genealogy that situates the origin of the problem within different emphases in the thought of St Augustine     *Hegel's Phenomenology of Spirit: A Reappraisal* G.K. Browning, 2013-04-17 This book consists of a significant and valuable reappraisal of Hegel's *Phenomenology of Spirit* by a number of outstanding international Hegel scholars Key questions and issues are discussed No other book on the *Phenomenology* brings together penetrating articles by renowned Hegel scholars and no previous book has included responses to articles by equally celebrated scholars The result is that this book is unique in providing a wealth of insights into the *Phenomenology of Spirit* from a variety of perspectives Among the crucial issues of interpretation which are tackled in this book are Hegel's concept of truth the focus of Professor H S Harris's incisive opening article the relationship between the *Phenomenology* and Hegel's system discussed by Professor Rüdiger Bubner the master slave dialectic the unhappy consciousness and conscience Experienced Hegel scholars and students new to Hegel will benefit from the format of the book in which distinguished scholars comment upon the key and contentious aspects of the main articles Crucial issues of interpretation are highlighted clearly     *Philosophy's Higher Education* Nigel Tubbs, 2004 At about the age of 13 I began to realise that my formal education was separating itself off from my philosophical education Of course at the time I did not know it in this way I experienced it as a split between what I was being taught and my experience of what I was being taught It was I now know the philosophical experience of formal schooling It was not until beginning the study of sociology at 16 that I came across the idea of dualisms pairs of opposites that always appeared together but were never reconciled In sociology it was the dualism of the individual and society The question most asked in our classes was always regarding which aspect of the dualism dominated the other The answer we always leaned towards was that both were mutually affected by the other The answer seemed to lie somewhere in the middle It was only at university first as an undergraduate and then as a postgraduate that I came across the idea of the dialectic Slowly I began to recognise that the dualisms which plagued social theory I and we self and other good and evil modernity and post modernity autonomy and heteronomy freedom and nature truth and relativism and so many more were not only dialectical in being thought about but also that the thought of them being dialectical had an even stranger quality It was the same experience as being at school

*Against Innocence* Andrew Shanks, 2013-02-11 Gillian Rose 1947-1995 was a highly original enigmatic and pugnacious thinker whose work draws together Continental philosophy sociology modern post modern Jewish and Christian reflection on ethics She was also famously a convert to Christianity baptised into the Church of England on her deathbed from Judaism She has been a major influence on many contemporary thinkers not least on the thought of the Archbishop Rowan Williams Her writings are teasingly poetic often forbiddingly difficult and yet at the same time vividly accessible at any rate through her widely praised memoir *Love's Work* Here a Church of England priest writes about Rose's thought as it relates to the future of the Church she eventually joined A significant philosopher of this century they believe her thinking implicitly points

towards a new form of Christian self understanding This captivatingly well written book is the first major study of Gillian Rose s thought from a theological point of view It aims to make the work of this highly complex thinker accessible to a wider readership     Hegel and Modern Philosophy David Lamb,2019-09-09 Originally published in 1987 this volume reflects the diversity in Hegelianism and every branch of philosophy which he contributed to It includes essays on his contribution to contemporary social philosophy logic and the philosophy of religion His work is examined in relation to Marx Wittgenstein and his social philosophy discussed from a feminist standpoint     **The Subject of Modernity** Anthony J.

Cascardi,1992-03-19 The question of modernity has provoked a vigorous debate in the work of thinkers from Hegel to Habermas Anthony J Cascardi offers an historical account of the origins and transformations of the rational subject of self as it is represented in Descartes Cervantes Pascal Hobbes and the Don Juan myth     **The Philosophical Roots of**

**Anti-Capitalism** David Black,2013-12-11 Alfred Sohn Rethel located the origin of philosophical abstraction in the false consciousness brought about by the new money economy of Greek Antiquity In the Enlightenment the conceptual barrier Kant put between phenomenal reality and the thing in itself expressed in Sohn Rethel s view the reified consciousness stemming from commodity exchange and the division of mental and manual labor Because Sohn Rethel saw the entire history of philosophy as branded by a timeless universal logic he dismissed Hegel s concept of totality as idealist and Hegel s critique of Kantian dualism as irrelevant to Marx s critique of political economy David Black in the title essay of The Philosophical Roots of Anti Capitalism suggests contra Sohn Rethel that Marx s exposition of the fetishism of commodities is historically specific to capitalist production and therefore cannot explain the origins of philosophy which Black shows to have involved various historical developments in Greek society and culture as well as monetization Just as Hegel s critique of Kantian formalism informs Marx s critique of capital Hegel s writings on how the proper organization of labor might abolish the barrier Aristotle put between production and the Realm of Freedom prefigure Marx s efforts to formulate of an alternative to capitalism Part Two Critique of the Situationist Dialectic Art Class Consciousness and Reification begins with Surrealism whose disappearance as a revolutionary artistic and social force Guy Debord and the Situationists sought to make up for by superseding the poetry of Art with the poetry of Life As well highlighting Debord s achievements in both theory and practice Black points to his philosophical shortcomings and relates these to Debord s later pessimistic assessment of the possibility of revolutionary class consciousness within globalizing capitalism The four essays in Part Three cover the Aristotelian anarchism the ambivalent legacy of Luk cs theory of reification Raya Dunayevskaya s Hegelian Marxist concept of absolute negativity as revolution in permanence and Gillian Rose s philosophical challenge to both postmodernism and traditional Marxism     Gillian Rose Kate Schick,2012-08-06 In this book Kate Schick presents the core themes of Rose s work and locates her ideas within central debates in contemporary social theory trauma and memory exclusion and difference tragedy and messianic utopia engaging with the works of Benjamin Honig iek and Butler She shows how Rose s speculative

perspective brings a different gaze to bear on debates eschewing well worn liberal critical theoretic and post structural positions Gillian Rose draws on idiosyncratic readings of thinkers such as Hegel Adorno and Kierkegaard to underpin her philosophy negotiating the broken middle between the particular and the universal While of the left she is sharply critical of much left wing thought insisting that it shirks the work of coming to know and of taking political risk in pursuit of a good enough justice

**Post-Secular Philosophy** Philip Blond,2002-11-01 From Nietzsche to the present the Western philosophical tradition has been dominated by a secular thinking that has dismissed discussion of God as largely irrelevant In recent years however the issue of theology has returned to spark some of the most controversial debates within contemporary philosophy Discussions of theology by key contemporary philosophers such as Derrida and Levinas have placed religion at centre stage Post Secular Philosophy is one of the first volumes to consider how God has been approached by modern philosophers and consider the links between theology and postmodern thought Fifteen accessible essays present a clear and compelling picture of how key thinkers including Descartes Nietzsche Freud Wittgenstein Heidegger and Derrida have made God a central part of their thinking Each philosopher and how they have approached and criticised theology is placed in a clear historical context Placing the collection in context with Phillip Blond s outstanding introduction Post Secular Philosophy presents a fascinating discussion of the alternatives to the relativism and nihilism that dominate Western thinking

*Routledge Library Editions: Hegel* Various,2021-08-26 Originally published between 1982 and 1991 the 3 volumes in this set Reflect the diversity in Hegelianism and every branch of philosophy which he contributed to Examine Hegel s work in relation to Marx and Wittgenstein Discuss Hegel s social theory Examine British Hegelian thinking and the lines of its development Offer an interpretation of Hegelian theory that is relevant for the understanding of modern republican constitutions

**Secular Theology** Clayton Crockett,2021-12-24 Secular Theology brings together new writings by some of America s most influential theological and religious thinkers on the viability of secular theology Critically assessing Radical Orthodoxy and putting American radical theology in context it provides new resources for philosophical theology Themes covered include postmodern theology ethics psychoanalysis the death of God and medieval theology

**Walter Benjamin and the Post-Kantian Tradition** Phillip Homburg,2018-11-15 Walter Benjamin and the Post Kantian Tradition engages with Benjamin as a theorist of a historical and philosophical problematic and demonstrates how Benjamin moves from an aspiring idealist philosopher to a politically engaged Marxist critic without abandoning the theoretical project he develops early on

*Ghosts* P. Buse,A. Stott,1999-01-28 Did you know that the father of psychoanalysis believed in ghosts or that Frederick Engels attended seances Ghosts Deconstruction Psychoanalysis History is the first collection of theoretical essays to evaluate these facts and consider the importance of the metaphor of haunting as it has appeared in literature culture and philosophy Haunting is considered as both a literal and figurative term that encapsulates social anxieties and concerns The collection includes discussions of nineteenth century spiritualism gothic and postcolonial ghost stories and popular film with essays on

important theoretical writers including Freud Derrida Adorno and Walter Benjamin      Critical Theory and Qualitative Data Analysis in Education Rachelle Winkle-Wagner, Jamila Lee-Johnson, Ashley N. Gaskew, 2018-07-04 Critical Theory and Qualitative Data Analysis in Education offers a path breaking explanation of how critical theories can be used within the analysis of qualitative data to inform research processes such as data collection analysis and interpretation This contributed volume offers examples of qualitative data analysis techniques and exemplars of empirical studies that employ critical theory concepts in data analysis By creating a clear and accessible bridge between data analysis and critical social theories this book helps scholars and researchers effectively translate their research designs and findings to multiple audiences for more equitable outcomes and disruption of historical and contemporary inequality      Misrecognitions Joshua B. Davis, 2018-11-02 This collection brings together prominent thinkers from numerous disciplines to address the legacy of Gillian Rose for political theology today Rose s work is notorious for its eclectic range difficult style and iconoclastic defiance of the conventions of postmodern critical theory The theologians religious scholars ethicists and theorists in this collection discuss Rose s relationship to such topics as the Frankfurt School social theory feminism literature law Hegel Kant and psychoanalysis They situate her work within the wider context of political theology as it is understood in religious studies and continental philosophy Though attentive to the theoretical issues raised by Rose s work these essays are also engage the role that work may play in political action today examining issues such as refugee immigration in Europe the rise of nationalism and anticapitalist political organizing The collection is a vital contribution to the rising body of literature on Rose and her importance to political philosophy ethics and theology but it will also serve as an important orienting guide for readers new to Rose s work and its demanding style      **Volume 11, Tome III: Kierkegaard's Influence on Philosophy** Jon Stewart, 2016-12-05 Kierkegaard s relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions The present volume attempts to document these different traditions of the philosophical reception of Kierkegaard s thought Tome III traces Kierkegaard s influence on Anglophone philosophy It has long been thought that Kierkegaard played no role in this tradition which for years was dominated by analytic philosophy In this environment it was common to dismiss Kierkegaard along with the then current European philosophers who were influenced by him However a closer look reveals that in fact there were several thinkers in the US Canada and Great Britain who were inspired by Kierkegaard even during the heyday of analytic philosophy Today it can be said that Kierkegaard has made some serious inroads into mainstream Anglophone philosophy with many authors seeking inspiration in his works for current discussions concerning ethics personal identity philosophy of religion and philosophical

anthropology
